EXPLANATION OF VOTE

Mr. Doran presented the following explanation of vote, which was ordered printed in the Journal:

I voted for Mr. Ekswold's amendment to Assembly Bill No. 11, restoring the tax limit in cities of the sixth class back to the present rate although the trustees of a majority of such cities in my district requested me to vote for the proposed increase. The bill is a long one and covers some changes that I think are far more important than increasing the tax limit. Because that feature threatened the defeat of the whole bill, and as the result sought to be attained by the amendment can be reached without changing the limit, I so voted to make the rest of the bill safe for democracy.

SENATE JOINT RESOLUTION NO 20.

Relative to the purchase by the grain corporation of the food administration of the United States of beans produced in California in preference to beans produced in the Orient.

WHEREAS, For the purpose of winning the war, the United States Government strongly urged the planting of all land possible for the purpose of raising food, and impliedly promised the growers that, notwithstanding the increased cost of production owing to war conditions, a market would be found for their products; and

WHEREAS, In reliance upon these representations and promises large quantities of land in California were planted to beans and produced under adverse weather conditions and at a high labor cost; and

WHEREAS, The warehouses are now crowded with beans on storage and are not capable of holding all the beans produced; and

WHEREAS, The grain corporation of the food administration of the United States is about to purchase a large quantity of beans to relieve the starving peoples of Europe; and

WHEREAS, It is understood that large quantities of beans grown in the Orient, under cheap labor conditions, are finding a market in the United States and Europe, and it is also understood that large quantities of the same have been purchased by the United States Government with money raised by taxation and bond subscriptions from the people of the Pacific coast and the United States, to the detriment and injury of the bean growers of California, who are unable to compete with the cheap labor of the Orient; and

WHEREAS, The time is now approaching when it will be necessary for the farmers to determine whether they shall again plant their lands to beans or other food products; and

WHEREAS, Their inability to dispose of the crop now already produced will tend to discourage further production; now, therefore, be it

Resolved, That the grain corporation of the food administration of the United States be respectfully and urgently requested to purchase beans in California and other points on the Pacific coast, until the supply thereof is exhausted, so that the congestion now existing in the bean market may be relieved and the promises expressly and impliedly made to the farmers of the Pacific coast be kept and performed; be it further

Resolved, That the Secretary of the Senate be, and he is hereby, directed to forward copies of this resolution to the President of the Senate, Speaker of the House of Representatives, and to the grain corporation of the food administration of the United States, and to each of the California Senators and Representatives in Congress.

By Mr. Polsley:

WHEREAS, The food speculators and the market manipulators and the vested interests are now making desperate efforts before our State Legislature to destroy the office of our State Market Director and the statutes under which he is empowered to act; and

WHEREAS, It has now become a battle between the producers and consumers of the State on one hand and the speculators and vested interests on the other hand; and

WHEREAS, It is the sense and the conviction of the people of California generally, and of the membership of the farm bureau of Glenn County in particular, that such destructive legislation should not be attempted; and

WHEREAS, It is a necessary fact that many of our farmers are so busily engaged in producing the foodstuffs necessary to feed the consuming population that they have no time to attend to the details of legislation; and

WHEREAS, Indefensible methods are being practiced to influence our legislators and to camouflage the real nature of the proposed legislation, and there is being spread deceptive propaganda by these vested interests for the purpose of undermining the confidence of the people in their established and tested institutions; and

WHEREAS, These same vested interests are now using every means at their command to destroy our co-operative marketing associations, which have saved the lives of many of our greatest producing industries, now, therefore, be it

Resolved, That we, the members of the Orland Center of the Glenn County Bureau, in annual meeting assembled, do hereby respectfully request each and every one of our Senators and Assemblymen to vote down all attempts to destroy our State Market Commission or any legislation that would nullify the efficiency of our co-operative marketing organizations, which have already done so much to further the sound economic status of both the consumers and the producers of California; and be it further

Resolved, That we express our appreciation of and heartily commend the loyalty and unselfish devotion to the interests of both the producers and consumers of California which Colonel Weinstock has displayed; and be it further

Resolved, That we request our Senator, Purkitt, and our Assemblyman, Polsley, to present these resolutions to the two branches of our Legislature, in order that our esteemed and trusted statesmen may know how much we appreciate the marketing agencies they have already created.

MRS. ROBERT SMITH,

By Mr. Gray:

OAKLAND, CALIFORNIA, March 13, 1919.

WHEREAS, The unprecedented cost of labor and material and the rigorous government restrictions during the war period made it unwise, and in many cases impossible, to undertake work planned the time the tax levies were made and for which the building special fund is now available; and

WHEREAS, The excessive cost of supplies and equipment, and the abnormal increase in average daily attendance through the influx of the shipbuilding population, has made it necessary to transfer such balance of this special fund as may be available in order to provide educational facilities mandatory under the law throughout the second semester of the present school year; and

WHEREAS, Assembly Bill No. 1011 has been introduced at the instance of the Oakland Board of Education in the California State Legislature in order to make it possible to transfer the unspent balance of this special building fund to the teachers' salary and general funds under certain legally prescribed conditions; and

WHEREAS, Assembly Bill No. 1011, if passed by the Legislature, expires by its own limitation on June 30, 1919; therefore, be it

Resolved, That the Board of Education of the city of Oakland, of Oakland School District of Alameda County, hereby earnestly requests the Alameda County delegation,

SEC 10 (a) The board shall refuse to grant, or may revoke, a license to practice chiropractic in this state or may cause a licensee's name to be removed from all records of licensed practitioners of chiropractic in this state, upon any of the following grounds, to wit:

The record of such revocation so made by said county clerk shall be prima facie evidence of the fact thereof, and of the regularity of all proceedings of said board in the matter of said revocation.

(b) At any time after two years following the revocation or cancellation of a license or registration under this section, the board may, by a majority vote, reissue said license to the person affected, restoring him to, or conferring on him all the rights and privileges granted by his original license or certificate. Any person to whom such rights have been restored shall pay to the secretary the sum of twenty-five dollars upon the reissue of a new license.

SEC 11 (a) No person licensed under this act shall practice chiropractic in any county of the state until he or she shall have first recorded his or her license with the county clerk of said county in which he or she intends to practice, and shall have it likewise recorded in the counties into which he shall subsequently move for the purpose of practicing chiropractic.

The secretary shall, on or before November first of each year, mail to all licensed chiropractors in this state a notice that the renewal fee will be due on or before the first day of January next following. Nothing in this act shall be construed to require the receipts to be recorded in like manner as original licenses. The failure, neglect or refusal of any person holding a license or certificate to practice under this act in the State of California, to pay said annual fee of two dollars (\$2.00) during the time his or her license remains in force, shall, after a period of sixty days from the first day of January of each year, ipso facto, work a forfeiture of his or her license or certificate, and it shall not be restored except upon the written application therefor, and the payment to the said board of a fee of ten dollars (\$10.00), except that such licensee who fails, refuses or neglects to pay such annual tax within a period of sixty days after the first day of January of each year shall not be required to submit to an examination for the reissuance of such certificate.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By the Speaker:

WHEREAS, The constitution of the United States has been amended by adding thereto article XVIII, which prohibits the manufacture, sale, transportation, importation or exportation of intoxicating liquors for beverage purposes on January 16, 1920 and

WHEREAS, All good Americans respect the constitution and believe that its provisions should be obeyed; and

WHEREAS, There are now pending before the Legislature of California two bills introduced by Senator Harris, Senate Bills Nos. 390 and 391, providing necessary machinery for enforcement of article XVIII of the constitution, therefore, be it

Resolved, By the Church Federation of Los Angeles, that we respectfully request the Legislature to enact said bills into law and that we especially urge all Senators and Assemblymen from Los Angeles County to support same,

Resolved, That copy of this resolution be sent to each Senator and Assemblyman from this county.

NATHAN NEWBY,

Chairman Civic Righteousness Committee, Church Federation of Los Angeles

Also:

WHEREAS The present high rates existing in the State of California on inheritance taxes are out of all proportion to the rates collected by other states in the Union, be it therefore

Resolved, By the Los Angeles Chamber of Commerce, that it approves of the principle of levying and collecting proper inheritance tax as a means of securing revenue for the support of the government. However, the State of California is, by its present law, levying and collecting an inheritance tax so far in excess of that levied and collected by other states of the Union that the present inheritance tax law of the State is a burden and a hindrance to the prosperity and the development of our State. Millions of dollars are annually expended by chambers of commerce and public bodies in the State of California for the purpose of encouraging immigration to our State and the development of its wonderful resources thereby, and we believe that much of this effort and expenditure is rendered negative by reason of our excessive inheritance tax rates.

We therefore urge the members of the Legislature to carefully consider the proposed amendment now pending before that honorable body, to the end that a very substantial reduction may be made in our inheritance tax rates, which will bring us on a more even basis with the other states of the Union, be it further

Resolved, That the Los Angeles Chamber of Commerce is in favor of a national inheritance tax law to the exclusion of state inheritance tax laws. However, we realize that the enactment of such a law will consume several years, and pending that time state laws should be amended as herein set forth.

I hereby certify that the above is a true and correct copy of resolution adopted by the board of directors of the Los Angeles Chamber of Commerce, at their regular meeting, on Thursday, February 27, 1919.

WATT L. MORELAND, President

Attest FRANK WIGGINS, Secretary

Also:

LOS ANGELES, CALIFORNIA, March 13, 1919.

WHEREAS, It is manifest that there are many men without employment in this State, and for the purpose of finding employment for them, be it

Resolved, That we hereby urgently request the State Legislature now in session, to appropriate the sum of \$3,000,000 to be paid into the Second State Highway Fund, and to be immediately available and to be expended by the State Highway Commission in the construction of uncompleted State highways, that the Legislature direct the State Commission, in the employment of labor of all kinds, that preference be given to returned soldiers and sailors and men with families.

I hereby certify that the above is a true and correct copy of resolutions adopted by the Merchants and Manufacturers Association.

H. B. WOODHILL, President

By Mr. Polsley:

CORNING, CALIFORNIA, March 1, 1919

Resolved. That the Maywood Woman's Club favors the entrance of the United States into a League of Nations to safeguard the peace that has been won by the joint military forces of the allied nations.

We also urge you to use your influence for the adoption of the bill for the establishment of the child hygiene bureau.

RACHEL W. MONTGOMERY, President.
VALEDA HOUGHTON, Secretary.

By Mr. Gebhart:

We, the undersigned organizations and citizens of the district which you represent in the State Assembly, most respectfully request of you your consideration of Assembly Bill No. 25. Knowing of your record for a square deal for all, we have an abiding faith that you will see your way clear to support this just measure, which we believe is the very essence of democracy.

MRS. J. W. SCOTT.
And 10 others.

By Mr. Allen:

We, the undersigned residents of San Bernardino, California, believing that the enactment of a Sunday law would be a violation of the American principle of the separation of church and state, do hereby respectfully but earnestly protest against the passage of Senate Bill No. 77 and Assembly Bill No. 142, and all other such legislation.

C. E. PENRY,
And 115 others.

By Mr. Bruck:

LAKEPORT, CALIFORNIA, March 14, 1919

We, the undersigned, believe that the orphans, half-orphans, and abandoned children of this State should receive better care than it is possible to give them for the amount now allowed by the State for their support. We believe that \$12.50 per child per month is in many cases necessary for the proper maintenance of such children. We believe that the State should be allowed to provide this entire amount, and that what the counties might give should be in addition thereto. We, therefore, respectfully ask that you use your influence to secure the passage of Assembly Bills Nos. 178, 179, 180, and 500, all relating to better care of children, and to the State assuming greater responsibilities thereto.

D. F. McINTIRE, Probation Officer.
And 11 others.

By Mr. Kline:

WHEREAS, The bills before the Legislature of California, relating to the maintenance of high school cadet companies, proposes to take the control of these companies from the local school authorities and place it with the Adjutant General of the State; it is, therefore,

Resolved. By the board of trustees of the Hemet Union High School, that it is our judgment that such bills ought not to pass. That, wherever military training is given in the high school it should be related to the whole program of physical education, and hence, under the control of school authorities. We favor a generous appropriation for cadet companies, provided they are an integral part of the school as they have been heretofore.

H. H. SPAULDING, President.
C. E. GOODRUE, Clerk

By Mr. Price:

We, the undersigned apricot growers of Pajaro Valley and vicinity, urgently request that you use every effort in your power to have Senate Bill No. 701, introduced by Senator Crowley, passed by the Assembly during their present session.

This is a very important issue, protecting the interests of the apricot growers, and we are very anxious that this bill shall become a law.

And no such burial or removal permit shall be issued by any registrar until, wherever practicable, a complete and satisfactory certificate of death has been filed with him as hereinafter provided; *provided*, that when a dead body is transported from outside the state into a registration district in California for burial, the transit or removal permit issued in accordance with the law and health regulations of the place where the death occurred, shall be accepted by the local registrar of the district into which the body has been transported for burial or other disposition, as a basis upon which he may issue a local burial permit, noting upon the face of the burial permit the fact that it was a body shipped in for interment, and giving the actual place of death, and no local registrar shall receive any fee for the issuance of burial or removal permits under this act other than the compensation provided in section twenty.

SEC. 4 Section twenty-one of said act is hereby amended to read as follows.

And any such copy of the record of a birth or death or marriage when properly certified by the state or local registrar to have been so registered within a period of one year from the date of the event, shall be prima facie evidence in all courts and places of the facts therein stated.

For any search of the files and records when no certified copy is made the state registrar or local registrar shall be entitled to a fee of fifty cents for each hour or fractional hour of time of search, such fee to be paid by the applicant. The state registrar shall keep a true and correct account of all fees by him received under these provisions, and such money so received by the state registrar shall be deposited with the state treasurer, who shall credit the amount to the fund provided and to be used for the payment of the traveling and contingent expenses of the state board of health, and the money so collected by the local registrar shall be paid by him into the county or city treasury, as the case may be. *provided*, that the local registrar shall upon request of any parents or guardian, supply, without fee, a certificate limited to a statement as to the date of birth of any child when the same shall be necessary for admission to school, or for the purpose of securing employment, *and provided, further*, that the United States census bureau may obtain without expense to the state, transcripts of births and deaths without payment of the fees herein prescribed.

(b) If, upon such search it shall develop that for any cause any birth or death, or marriage, occurring in this state was not registered in conformity with the provisions of law in effect at the time when such birth or death or marriage occurred by the filing of the certificate therefor with the local registrar within a period of one year from the date of the event, any person beneficially interested in establishing of record the fact of such birth or death or marriage may petition the superior court of the county in which such birth or death or marriage is alleged to have occurred for an order judicially establishing the fact of such birth or death or marriage. Such petition shall be verified and shall contain all the data necessary to enable the court, upon hearing the same, to determine the fact of such birth or death or marriage upon the proofs adduced in behalf of the petitioner at the hearing thereof. A copy of such petition shall be served upon the local registrar of vital statistics, and also upon the district attorney of the county in which such birth or death or marriage is alleged to have occurred and either of said officials shall have the right in his discretion to appear at such hearing and oppose the making of such order. Such hearing shall be had at such time as the court may appoint, not less than ten days subsequent to the date of filing such petition, and notice thereof must be given by publication for the same time and in the same manner required by law to be given prior to the hearing of the petition for the admission to probate of any will, or the issuance of letters testamentary or of administration thereon.

If, upon such hearing, the proofs of the allegation of the petition are established, to the satisfaction of the court, the court may make an order determining that such birth, death or marriage did in fact occur in such county and at the time shown by the proofs adduced upon such hearing.

Such order must be made in the form and upon the blank prescribed and furnished by the state registrar and but one birth, death or marriage may be included therein. And said order shall become effective upon the filing of a certified copy thereof with the local registrar of vital statistics, and the delivery therewith for transmittal to the state registrar of a standard certificate containing such facts and signatures as are obtainable, and upon the filing of a certified copy of said order with the state registrar.

COMMUNICATIONS.

The following communications were presented by the Speaker and ordered printed in the Journal:

WASHINGTON, D. C., March 17, 1919

Hon. Henry W. Wright,
Speaker of the Assembly,
Sacramento, California

Mr. De Motte's telegram of March 10 regarding railroad taxes in California has been received, and as it requires an answer in some detail as to the facts, it has been referred to John Barton Payne, general counsel for the director general, who will reply.

WALKER D. HINES

Also:

WASHINGTON, D. C., March 17, 1919.

*Hon. Henry W. Wright,
Speaker of the Assembly,
Sacramento, California.*

Your wire tenth regarding railroad taxes in California. My understanding State has surplus of approximately four million dollars in treasury, accumulated from taxes and other sources during past few years, and available to make up any deficit in current requirements which might possibly result from reduction of present tax rate. California tax system makes it only State that has heavily increased taxes on railroad property, automatically and in inverse ratio to net earnings, where State officials have discretionary power to readjust taxes. While hoped for reductions in gross apply to roads not under government control and to street railways, the total reduction in taxes resulting would probably not exceed one million dollars for all steam and street railways, the greater part of which applies to government controlled roads, and surplus in State Treasury is more than sufficient to take care of situation without increasing taxes on other property. While true earnings of Atchison, Southern Pacific, Salt Lake and other lines under federal control during 1918 exceeded their expenses, yet net revenue during that year was approximately seven million three hundred thousand dollars less than net revenue for 1917 in California alone, and will not be sufficient to meet compensation which government must pay to corporate owners for use of property during 1918, hence federal government will be met with deficit in its operation of these properties for 1918. Reduction in tax rate, if granted, will not increase taxes on other corporations, because State surplus can be drawn on, and will not increase burden on people, but will decrease the total cost chargeable against transportation, which is ultimate.

JOHN BARTON PAYNE,

General Counsel of the Director General of Railroads

MOTION.

Mr. Prendergast moved that the reply of the Board of Control to the above telegrams be printed in the Journal.

Motion carried.

REPLY OF BOARD OF CONTROL

The following reply was sent to the above telegrams:

SACRAMENTO, CALIFORNIA, March 18, 1919.

*Mr. John Barton Payne,
General Counsel Director General of Railroads,
Washington, D. C.*

Replying your wire March seventeenth on California railroad taxes. Biennial budget of State presented to Legislature in January appropriates all but three hundred eighty thousand dollars of State's income for two years and budget board pledged approval of appropriation two million dollars for schools to give teachers a living salary also eight hundred thousand for orphan support now insufficient under present conditions. These must come from the four million dollar surplus. Legislature also has fourteen million dollars in appropriation bills not covered by budget, and inevitable appropriations will reduce surplus to a margin so low that State could not possibly refund as suggested by your department. It must be apparent to you that this State should maintain some surplus against possible emergency. We believe it impossible to secure appropriation from present Legislature, even if we felt it just to attempt it.

MARSHALL DE MOTTE,

Chairman State Board of Control.

MOTION.

Mr. Gray moved that the above communications submitted by the Speaker be referred to Committee on Revenue and Taxation

Motion carried

EXPLANATION OF VOTE.

The following explanations were presented, and ordered printed in the Journal:

By Mr. Graves:

WHEREAS, The members of the Assembly of the State of California have spent most of the nineteenth day of March, 1919, discussing the shortcomings of the present primary law; and

WHEREAS, Many amendments have been proposed to this law which only made the law more objectionable: be it therefore

Resolved, By at least one member of this Assembly that the best remedy for the wrongs that exist would be to repeal the entire primary election law as it now stands, and return to the convention system of nomination in this State

SIDNEY T. GRAVES.

By Mr Doran :

I am in favor of the purposes of the amendments offered to Senate Bill No. 558, but I voted against them as an emphasis to my protest made on the floor against so much useless, hopeless effort, which consumes valuable time that should be devoted to moving along the business now crowding the file. The bill sought to be amended passed the Senate unanimously, and it was a foregone conclusion that it would eventually pass the Assembly in substantially the same form.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By the Speaker:

At a meeting of the governing council of the Teachers' Association of San Francisco, the following resolution was unanimously adopted:

Resolved, By the Teachers' Association of San Francisco, that it reiterates its opposition to Assembly Amendments Nos. 25, 27, and 467, and to Senate Amendments Nos. 20, 21, and 14

I most respectfully request that a copy of this resolution be entered upon the Journal of the Assembly, and duly considered by the members of that body.

Very truly yours,

FRANCES A. C. MOONEY, Secretary.

By Mr. Doran:

At the membership meeting of the San Diego County Poultry Producers Association, on March 7, 1915, a motion was unanimously carried endorsing the State Market Commission and its work, and requesting that our representatives in the Legislature use their best efforts to perpetuate this commission.

We believe the State Market Commission has been of great value to both the producers and consumers of this State, and we deplore the attacks and false statements that have been made against the commission, inspired, as we believe, by middlemen, whose profits have been decreased through the operation of said commission.

G. C. KEENEY, Secretary.

JOHN R. BLAKISTON,

And 22 others.

Also:

We, the undersigned, most respectfully ask that you support Assembly Bill No. 196 which provides that chiropractors shall be examined by a State Board of Chiropractic Examiners.

N. C. GILMORE,

And 23 others.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was taken up and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

To the Senate and Assembly of the State of California.

I have the honor to transmit herewith the report presented by the Committee on Efficiency and Economy appointed by me on November 25, 1915, to make a study of our governmental affairs with a view of effecting economy and efficiency.

It is needless to express my thorough appreciation of the spirit of service in which the members entered upon the work of the committee, and the earnest desire evidenced in their report to devise a plan of government better than that which now exists. The membership of the committee have given generously of their talents and unstintingly of their time. Personally, and in the name of the State, I thank them.

In the letter of appointment addressed to every member of the committee I referred to the desirability of formulating a definite plan for improving the administration of the State's affairs, and for introducing such economies as might be possible without prejudice to the public welfare or impairment of present efficiency. Attention was called to the need of ascertaining just where overlapping existed, if at all, and the possible saving to be effected by its elimination. It was emphasized, of course, that such saving must be made without interfering in any degree with the service of those great commissions erected within our State during the last decade, and which have meant so much to the health, the safety, and the general well-being of our people.

The report is a very valuable public document and deserving of the most careful thought. It is significant, however, that it is devoid of criticism so far as extravagance, inefficiency or overlapping are concerned. Indeed, generous tribute is paid by

the committee to the honesty, zeal and public spirit with which the commissions and other departmental agencies are operating. This report will be of great value in the assurance it must give to our people of the fidelity to trust of our public servants.

The committee has apparently felt constrained to propose a new plan which is a substantial departure from those methods and agencies now existing and well known to the people of the State. A somewhat radical change is purposed in our methods of administration when it is proposed to substitute in place of most of the existing commissions a system of departments and bureaus, with directors, chiefs of divisions and minor heads, all holding office directly or indirectly at the pleasure of the Governor.

To change the laws of California to provide for a complete reorganization of the structure of the State government, is a task so huge that there is little hope that it can be accomplished in the remaining days of this session of the Legislature. Indeed, the work is so important, and the results which may follow such changes are so vast, that the members of the Legislature and the people of the State should have ample time for careful consideration and study. So far as the people have given this subject thought, I am convinced that they are not interested so much in the structure of government as they are in an immediate reduction of the cost of government while maintaining the same high standards of efficiency. The plan of government is important mainly as it reflects itself in economy and in efficiency.

The first thing to be noted in the report is the annual amount the committee believes it is possible to save. This amount is \$275,000 a year, and consists of two classes of savings. One class, consisting of \$175,000, I am informed through a member of the committee, may be saved from two sources—first, by a system of cash discounts on purchases, and second, by taking the transportation of the insane from the sheriffs of the counties and placing the matter in the hands of trained attendants from the hospitals.

It occurs to me that these two items of savings, while excellent in themselves, have no essential part in a particular plan of governmental reconstruction, since both, if feasible, can be done equally well under our present plan of government.

The cash discount system, which the committee estimates will save \$150,000 a year, can be put into operation by making our purchases out of a revolving fund, if it is found that sufficient checks and audits can be had under such plan adequately to safeguard the public moneys. A bill covering this matter will be presented to you for your consideration.

If the foregoing two items of saving can be successfully accomplished, the committee's estimate will leave but \$100,000 a year as a saving that might be effected by a complete reorganization of our present governmental agencies.

I am firmly of the opinion that the Legislature at this session should go as far as possible in the enactment of measures tending towards consolidation of certain commissions, where it is certain that such consolidation will not result in lessened efficiency and will with equal certainty result in a lessening of cost. To this end there will be submitted several bills, all drafted with a design to bring about economy, and it is my earnest hope that you will give these measures your approval. Among them will be bills for eliminating some attorneyships now carried by various boards and commissions, and providing for consolidating such work in the office of the Attorney General. Bills for consolidating certain commissions will also be prepared.

One of the criticisms directed against the suggested reorganization of the administrative structure of government into a number of departments, all under the control of appointees to hold office at the pleasure of the Governor, is that such arrangement would place tremendous power in the hands of the Chief Executive. While it may be wise to centralize power if at the same time responsibility is also centralized, yet the question is of such serious concern that it seems ill-advised to act precipitately. As Chief Executive I am unwilling to advocate greater power for the Governor without more extended study, and without opportunity for the people to give some clear expression of their views than can be had in the time intervening between this and the close of the session.

I shall insist upon the strictest economy in the administration of the State's affairs, but I would not lessen the efficiency of our public service, nor the amount of humane and upbuilding work that is being done.

There is an element in our body politic that persistently aims at a retrenchment calculated to impair and destroy agencies of government that protect the people from the forces of special privilege. Allow me to repeat what I have frequently publicly declared, that I will not approve and will resolutely oppose any backward step in the government of our State. Wherever it may be permitted to reduce expense without impairment or crippling of the necessary agencies of government, it is my desire to lend every aid and exert my authority to the utmost.

I shall urge very strongly a continuance of the inquiry so well begun by this committee. I feel that we have taken an important step forward, and that a definite plan of reorganization acceptable to the people either has now been suggested by the Committee on Economy and Efficiency, or that such a plan will be evolved from their earnest and praiseworthy labors. Such a labor, which in other states has consumed years, can not be concluded before the probable time for adjournment of the present

Legislature. But the fruits of such labor will be of distinct advantage to the next Legislature and also to the Constitutional Convention which it is proposed to call.

Respectfully submitted,

WM. D. STEPHENS, Governor.

Dated Sacramento, California, March 19, 1919

LETTER OF TRANSMITTAL.

STATE CAPITOL, SACRAMENTO, March 12, 1919.

The Honorable WILLIAM D. STEPHENS,

Governor of the State of California.

DEAR SIR: The committee appointed by you on November 25, 1918, to survey the activities of the state government and report to you upon the practicability of introducing economies in the administration of the state's affairs without prejudice to the public welfare and without impairing present efficiency, has completed its labors and, as its chairman, I have the honor to transmit to you herewith a report on the subjects mentioned in your letter.

The recommendations submitted embody fundamental principles of governmental management which, when put into force, we believe, will not only make for immediate improvement in the administration of the state's affairs, but will be the foundation upon which any future expansion of the state's activities may rest.

The time limitation placed upon the work of the committee, in order that its report might be in your hands in time for presentation by you to the legislature, has not permitted the making of recommendations for changes other than those which can be put into effect immediately by legislative enactment. It is at once apparent, therefore, that the committee has not exhausted the subjects covered by your letter, and that it would have been impossible to exhaust them in the time at our disposal. Nevertheless if the recommendations contained in the report are carried out the proposed readjustments will, in our opinion, greatly increase the efficiency of the state government, and this at a cost of approximately \$550,000 less per biennial period.

In carrying on the work of the committee the members served without compensation, and paid their own traveling and other expenses incurred in the holding of meetings and hearings.

Yours very respectfully,

ALBERT E. BOYNTON,
Chairman.

THE AUTHORITY FOR AND SCOPE OF INQUIRY.

The committee has made its studies and prepared its report in accordance with the plan and suggestions outlined in your letter of November 25, 1918, to each member as follows:

“DEAR SIR:

“With a view to formulating a definite plan for improving the administration of the State’s affairs, and for introducing such economies as are possible without prejudice to the public welfare or without impairment of present efficiency, I am appointing a committee to make a thorough survey of the activities of our State government.

“During the past few years California’s government has been practically reconstructed. We have experienced a development along social, humanitarian and industrial lines which for so short a period surpasses the history of like achievement in any other state. But exactly the same results follow in governmental development as follow expansion in private business, and, as in private business, after growth and development, we now must remove all extraneous expense and practice the strictest economy in carrying on the state’s activities. If there be debris and structural staging, necessary to the work of building but unnecessary and expensive to proper maintenance, such nonessentials must be removed.

“Necessarily in grappling with the big, industrial economic and social problems, governmental activities have grown up more or less independent of each other, with inevitable overlapping. What we want to know is the extent of this overlapping, and the possible saving to the people in cost of government without injury to the public service.

“With this idea in mind I am asking the committee to make a study of the problem and to report to the Governor upon the following points:

- 1—The statutes under which each department, bureau or commission is organized,
- 2—The powers, duties and internal organizations, as provided by law, and in fact exercised,
- 3—To what extent powers and duties overlap and duplicate,
- 4—Analysis and comparison of appropriations and expenditures,
- 5—Recommendations.

“The committee will include:

A. E. Boynton, Chairman, San Francisco,
Herbert W. Clark, Berkeley,
Frank P. Flint, Los Angeles,
Dr. John R. Haynes, Los Angeles,
Percy V. Long, San Francisco,

Lee A. Phillips, Los Angeles,
U. S. Webb, San Francisco,
John S. Chambers, Sacramento,
Marshall DeMotte, Sacramento,
Clyde L. Seavey, Sacramento,
Edward A. Dickson, Los Angeles.

"I wrote you a few days ago concerning membership on the above committee. I desire to express at this time my appreciation of your willingness and consent to serve on this committee. There is much for it to do and I am sure what you do in connection with it will be of great service to the State.

"Yours very truly,

(Signed) WILLIAM D. STEPHENS,
Governor "

A communication was sent to every state department, board and commission requesting that the committee be furnished with the following information:

1. What are your powers, duties and internal organization as provided by law, and in fact exercised?
2. To what extent do the powers and duties of your department overlap and duplicate those of another?
3. What changes, if any, do you believe could be made in your department in order that the work might be carried on most effectively and in the most efficient and economical manner?
4. What other suggestions have you in mind, relating either to your own department or to the state's business as a whole, that will make for a more efficient administration of the affairs of the state?

The various agencies of the State answered in great detail. After the receipt by the committee of the replies the subcommittees with associate members held hearings in Sacramento, San Francisco and Los Angeles, to which were invited the representatives of the various boards, commissions and departments, together with those citizens who had expressed interest in the subjects under discussion, and the general public. At the hearings the fullest and freest opportunity was given for the expression of ideas and views, to which full consideration was given later by the committee.

CALIFORNIA'S GOVERNMENTAL ADVANCEMENT.

After a comprehensive survey of the present agencies of the State government the committee finds that they are rendering to the people of the State loyal and effective service. These various agencies have been created in response to a public demand and the Legislature of the State has responded to that demand, and, in the main, has exercised sound and careful judgment. Too much praise can not be given to the Legislatures of California which have convened since 1910, for their patriotic and constructive achievements. Under the leadership of governors with social vision and determination, the wishes of the people have been crystallized into legislation which has resulted in removing social unrest and in strengthening faith in popular government. The committee believes that the accomplishments since 1910 should inspire the people of the State with a feeling of pride for what has been done by the various State agencies. Not only has California been a leader in humanitarian legislation, but it is among the most advanced states in methods of financial control and business management.

Obviously many of the policies, and the agencies from time to time created to carry them into effect, were experimental in their nature and it was to be expected that the integration of those agencies and their proper functioning, one with another, could not be worked out carefully in advance. Duplication and overlapping were inevitable. It should be noted, however, that no one appeared at any of the committee's hearings to challenge either their policies that have been adopted or the integrity of those charged with carrying them into effect. The

aim of the committee's recommendations is to make more efficient, effective and economical the agencies of administration in operation, without lessening the services they are rendering to the people of this State.

INVESTIGATIONS IN OTHER STATES FOR THE PURPOSE OF IMPROVING THE ADMINISTRATION OF GOVERNMENTAL AFFAIRS.

The first effort in recent years to appraise the organization and functions of state government was made in Wisconsin in 1911. Fifteen states have now made studies as follows:

Investigations Made by:

1911	Wisconsin	State Board of Public Affairs.
1912	New Jersey	Economy and Efficiency Commission
	Massachusetts	Commission on Efficiency and Economy.
1913	New York	Committee of Inquiry.
	Iowa	Joint Committee on Retrenchment and Reform.
	Illinois	Efficiency and Economy Committee.
	Pennsylvania	Efficiency and Economy Commission.
	Minnesota	Economy and Efficiency Commission.
1915	Connecticut	Committee to Investigate the Advisability of Consolidating Certain State Boards and Commissions and to Investigate the Public Health Laws.
	Alabama	Legislative Investigating Committee
	Colorado	Survey Committee on State Affairs.
	Kansas	Economy and Efficiency Committee.
1916	Virginia	Commission on Efficiency and Economy.
1917	Oregon	A Legislative Committee was appointed in 1915 to prepare bills for Abolition and Consolidation of State Boards. No report made
	West Virginia	Efficiency Commission.

In addition, legislative committees in Arkansas, Ohio, South Dakota and Tennessee have investigated the subject of state financial administration.

The state of Massachusetts has just passed a constitutional amendment limiting the number of administrative departments to twenty.

THE PROBLEM OF REORGANIZATION.

The present investigation has been directed primarily to the group of administrative agencies for which the Governor is theoretically responsible. This group comprises one hundred departments, boards and commissions and includes all except the following elective officers:

1. Lieutenant Governor.
2. Secretary of State.
3. State Controller.
4. State Treasurer.
5. Attorney General.
6. Surveyor General.
7. Superintendent of Public Instruction.
8. Board of Equalization (four elective members).

It is found that many of these perform functions closely allied and that there are, in many instances, duplication and overlapping of effort. There are many groups whose work is similar but independent in operation, which, if coordinated and centralized under one executive head would make for more efficient and economical management. For example, in carrying on the agricultural activities of the State there are nine departments which act separately but whose functions are allied and, which, for more effective work, should be coordinated. California can not have a consistent agricultural policy until this is accomplished. In those activities which have to do with public works we find parallel engineering organizations carrying on work which could better be done under central control. The eight normal schools of the State are conducted under eight local boards, allowing widely divergent policies where there should be one uniform State policy. The same is true of the State hospitals and the correctional institutions. A local board lacks the vision of the needs of the State as a whole and pays in costly experiment for the lack of wider experience. The co-ordination of agencies with allied functions in comprehensive departments will do away with overlapping of duties and duplication of effort, and will lessen the number of units to be supervised, thereby making review more adequate and supervision more real. There are no factors which are greater causes of inefficiency than decentralized control and inadequate supervision and review.

The centering of larger responsibilities in departmental executives should be accompanied by the creation of a Governor's cabinet, composed of those executives. Such a cabinet should assist the Governor in administering the affairs of the State and in formulating State policies. The direct effect of a cabinet so organized would be closer co-operation between departments, increased efficiency in administration and better service to the public.

The important features of the recommended plan of reorganization are the establishment of certain principles which are essential to efficient governmental management. These are:

- (1) Centralization of responsibility.
- (2) Co-operation of the larger organization units.
- (3) Co-ordination of agencies which perform similar or allied functions.

These principles have been carried into the proposed plan by:

- (1) The creation of a Governor's cabinet, composed of departmental executives appointed by him.
- (2) Insuring co-operation of various departments by bringing their administrative officers together in an executive council.
- (3) Placing in departments, under one executive head, those agencies which perform similar or allied functions

The departmental units created are sufficiently comprehensive to include such agencies as may from time to time be established.

Because of the great diversity in the nature of the state's activities the committee has found it impracticable to correlate all of them into larger administrative units. For this reason the following departments have been left to function independently, as at present:

- (1) The group of state agencies which deals with professional standards:

Board of Accountancy.
Board of Architecture.
Board of Medical Examiners
Board of Dental Examiners.
Board of Optometry.
Board of Embalmers.
Board of Pharmacy.
Board of Examiners in Veterinary Medicine

In the opinion of the committee it is seriously questionable whether or not increased efficiency in the functioning of these various boards or reduced expense in their operation would be accomplished by consolidating all of them in a single department. Moreover, the item of expense to the State is of minor importance for the reason that all of them are supported by fees collected from the professions regulated.

- (2) The group having to do with the regulation of financial institutions:

The Banking Department.
Bureau of Building and Loan Supervision.
State Insurance Department.

The evidence gathered and the experience of other states have convinced the committee that the consolidation of any one of these three with either of the others, or the inclusion of one or all in any other

departmental group is impractical. It may be noted in this connection that these three departments are supported by fees collected from the institutions under their supervision.

(3) Certain arms of governmental activity, while vested with power by the state legislature have to do primarily and almost solely with problems of a local nature practically independent of the state government proper. Among these are:

1. Sixth District Agricultural Association.
2. State Reclamation Board.
3. The Irrigation Board.
4. State Board of Harbor Commissioners, (S. F.)
5. Harbor Commissioners for the Port of San Diego.
6. Harbor Commissioners for the Port of San Jose.
7. Harbor Commissioners for the Port of Eureka.
8. Board of Pilot Commissioners for San Francisco, Mare Island and Benicia
9. Board of Pilot Commissioners for Humboldt Bay and Bar.
10. Board of Pilot Commissioners for San Diego.
11. California Redwood Park Commission.

(4) The Board of Prison Directors, being a constitutional body, can not be reached by legislative enactment, therefore it is left in its present status.

(5) The Civil Service Commission, in the opinion of the committee, should be wholly independent of any other state agency or department.

(6) The Legislative Counsel Bureau is a part of the legislative branch of government and, therefore, does not come within the purview of this report.

(7) The State Library obviously renders, and will continue to render, most efficient service to the public by being left in its present independent position

(8) The Advisory Pardon Board is an ex officio board which, upon the request of the Governor, investigates questions of reprieves, pardons and commutations of sentence. From the nature of this work it is clear that it should not be grouped with any other state agency

(9) The Adjutant General executes the military functions of the Governor, and his duties are not co-ordinate with those of any other state department, board or commission.

(10) The Industrial Accident Commission.

The Industrial Welfare Commission.

The Immigration and Housing Commission.

After a thorough investigation the committee has determined that, on account of the quasi-judicial functions and the special field of activity coming within the jurisdiction of these commissions, they can function best independently of one another or of any other state agency.

Provision has been made, however, for their close co-operation through the Advisory Council on Labor, described later in the report.

(11) The California Historical Survey Commission is carrying on special investigational work, the principal part of which will be completed in about a year. It is the opinion of the committee that this work should continue as at present until July, 1921, and then be taken over as a part of the work of the Department of History of the University of California, with a special budget provision therefor.

RECOMMENDATIONS.

Legal Service.

The committee recommends that the position of special attorney for each of the following seven departments be abolished, and that the legal service of the departments be performed in the Attorney General's office, with the addition of two deputies to his present force:

1. State Board of Health.
2. State Commission in Lunacy
3. Cattle Protection Board.
4. State Board of Harbor Commissioners
5. State Market Commission.
6. State Mining Bureau.
7. State Water Commission

The State Railroad Commission and the Industrial Accident Commission exercise functions which are judicial or quasi-judicial in nature and these commissions require full-time attorneys subject to their exclusive control. Other attorneys employed by state departments may be classified in three groups, those employed on full time because of the volume of legal work required to be done; those employed because of the highly specialized nature of the legal work of the particular department; and those employed specially from time to time for the purpose of conducting police court and other criminal prosecutions. In the opinion of the committee efficiency would be impaired and expense increased if the present arrangement were disturbed.

Department of Finance.

The existing state agencies which have to do with finances are:

CONSTITUTIONAL:

1. Controller.
2. Treasurer.
3. Board of Equalization.
4. Secretary of State.

STATUTORY:

1. Board of Control.
2. Purchasing Department
3. Motor Vehicle Department.
4. Corporation License Tax Exemption Board.

The funds of the State are, through the foregoing constitutional offices, provided with adequate checks and balances to make them secure.

There is one phase of the financial control of the State which is most important, and that is the administrative control over departmental expenditures. Departmental expenditures are, at the present time, through the State Board of Control, protected, first, by a budget system, and secondly, by a pre-audit system which provides close scrutiny of all state expenditures before they are incurred, and a careful audit of claims growing out of the authorized expenditure. To aid in the matter of closer administrative control over departmental finances, the Board of Control has installed uniform systems of accounts and conducts a periodic audit of all departments, boards and commissions. The Board of Control also is charged with the duty of investing the state funds, making appropriations, with the State Controller, from the emergency fund, counting the money in the treasury and establishing the financial policies of the State.

In these matters the State of California stands out as one of the leading states of the nation, and in its reorganization plan the committee has carefully preserved every essential element of the present administrative control of finances. It is essential to the successful and efficient operation of any business, whether it be private or public, that there be a system of effective financial control lodged with the power that is responsible for the management.

At the present time the Board of Control, through its centralized financial control, has before it the problem of co-ordinating the policies and reviewing the expenditures of one hundred eleven different departments, boards and commissions. The committee's proposal changes this plan materially, and co-ordinates the work of many of the independent bureaus and commissions into large administrative units. The change in form of the administrative organization demands a change in the form of financial control. The pre-audit system, which is being conducted by the central financial body, and which is now becoming unwieldy because of the rapid growth of the State, is placed with the respective chief executives in the departmental group. Provision must, therefore, be made for the performance of the other duties of the Board of Control, and the committee recommends the substitution of the following financial agencies in lieu thereof, with functions substantially as indicated:

1. *Director of Accounts and Expenditures.*

2. *Director of Receipts and Supplies.*

Functions: (The allocation of the duties to be made by the Board of Finance)

1. Prescribe uniform systems of accounting and reporting for all offices, departments and institutions.

- 2 Pre-audit expenditures of boards, commissions and departments not included in cabinet group.
3. Audit, periodically, accounts of all officials, departments and institutions.
4. Supervise organization and investigate efficiency of administration of state business and functions.
5. Prepare and publish statistical data pertaining to the operation of the State government
6. Supervise state purchasing and approve all contracts.
- 7 Supervise the acquisition and disposition of all State property and equipment and require periodic inventories and reports.
8. Operate the State Printing Office.
9. Supervise motor vehicle taxes.
10. Administration of the orphan aid act.
3. *Board of Finance*, composed of the Director of Accounts and Expenditures, Director of Receipts and Supplies, and the State Controller, the chairman to be designated by the Governor.

Functions:

1. Preparation of Budget
2. Investment of State Funds.
3. Appropriation of Emergency Fund.
- 4 Counting of money in Treasury.
- 5 Hear Corporation Franchise Tax Appeals.
6. Sit as Corporation License Tax Exemption Board.
7. Recommend legislation where necessary to effect modernization of State business methods

The Director of Accounts and Expenditures and the Director of Receipts and Supplies are to be appointed by and hold office at the pleasure of the Governor.

Department of Trade and Corporations.

The existing State agencies which have for their function the supervision and regulation of corporations, public utilities and trade are:

1. State Railroad Commission.
2. State Corporation Department.
3. Department of Weights and Measures
4. State Market Commission

The functions of this group have to do with the regulation and supervision of financial institutions for the purpose of insuring their honesty and solvency; the establishing, in some instances, of the rate of pay for service rendered to the public, and the protection of the producer and consumer in the matter of honest trade practice.

The committee recommends that there be created a Department of Trade and Corporations to include the departments above listed, and that the president of the Railroad Commission be the director of the department, with power to appoint the chiefs of such divisions as he

may create to administer the functions not coming within the jurisdiction of the Railroad Commission

Department of Public Works.

The committee recommends that there be created a Department of Public Works to include the present functions of the following boards, commissions and departments:

1. Department of Engineering.
2. California Highway Commission
3. Capital Planning Commission.
4. State Water Commission.
5. Carey Act Commission.
6. Superintendent of Capitol Building and Grounds.
7. Trustees of State Burial Grounds.
8. Board of Colton Hall Trustees.
9. Guardian of Marshall's Monument.
10. Board of Trustees of Monterey Custom House.
11. Board of Trustees of Pio Pico Mansion.
12. Trustees of Sutter's Fort.
13. Capitol Commission.

It also recommends that there be created a Director of Public Works, to be appointed by and hold office at the pleasure of the Governor; that the work be divided into the following divisions, and that each division be placed under the direction of a chief of division to be appointed by and hold office at the pleasure of the director.

1. Division of Highways.
2. Division of State Buildings.
3. Division of Irrigation and Water Rights.
4. Division of River Improvement.
5. Division of Public Buildings and Grounds.

It is recommended that the Director also serve as chief of one of the divisions. It is further recommended that there be created a special Highway Commission, of three members, whose sole function shall be the selection of highway routes throughout the State. This commission is to be appointed by and hold office at the pleasure of the Governor, and receive a per diem compensation and necessary traveling expenses.

The present practice of having the chief engineer of the Board of State Harbor Commissioners of San Francisco appointed by the Engineering Department, or in this instance, the Director of Public Works, should be continued.

The committee recommends that the Chief of the Division of Irrigation and Water Rights have authority to pass upon applications for the appropriation of water, and that his decisions be subject to review by a Board of Appeal, composed of the Director of Public Works and the chiefs of two other divisions, of his selection.

The committee further recommends that the functions of the Port Warden for the Port of San Francisco be administered by the Board of Harbor Commissioners for that port.

The committee recommends that the Governor be empowered to appoint a local, unpaid trustee for each of the memorial and historical properties placed under this department.

Department of Agriculture.

The committee recommends that there be created a Department of Agriculture to be composed of the following boards, commissions and departments:

1. State Board of Agriculture,
2. Commission of Horticulture,
3. State Dairy Bureau,
4. State Veterinarian,
5. Stallion Registration Board,
6. Cattle Protection Board,
7. State Board of Viticultural Commissioners,
8. Land Settlement Board,
9. Board of Citrus Fruit Shipments,

that the functions be administered by divisions as follows:

1. Division of Plant Industry,
2. Division of Animal Industry,
3. Division of Land Settlement,
4. Division of State Fairs,

and that there be created a Director of Agriculture to be appointed by and hold office at the pleasure of the Governor; and that a chief, responsible to and appointed by the Director, be placed at the head of each division, with the exception that the Division of State Fairs shall be administered by a Board of State Fair Managers to be appointed by the Governor, with the Director of Agriculture as ex officio member thereof. The chairman of the Board of State Fair Managers should serve as ex officio Regent of the University of California.

In order to avoid extra overhead expense it is recommended that the Director of the Department of Agriculture serve as chief of one of the divisions.

Department of Natural Resources.

The committee recommends that there be created a Department of Natural Resources to be composed of the following agencies:

1. State Mining Bureau,
2. Trustees of State Mineral Cabinet,
3. State Board of Forestry,
4. Surveyor-General,
5. Fish and Game Commission,

and that there be a Director appointed by and holding office at the pleasure of the Governor, and that a chief, responsible to and appointed by the Director be placed at the head of each of the following four divisions:

1. Division of Fish and Game.
2. Division of Land.
3. Division of Mines and Minerals.
4. Division of Forestry.

In order to avoid undue overhead expense the committee recommends that the chief of the Division of Mines and Minerals be Director of the Department.

Department of Labor.

The committee recommends that there be created a Department of Labor under the administrative control of the Director of Labor, to be appointed by and hold office at the pleasure of the Governor. The functions of this department are to embrace all the present functions of the Bureau of Labor Statistics. The committee also recommends that there be created an Advisory Council on Labor to consist of the Director of Labor as chairman, and one representative from each of the following named bodies: The Industrial Accident Commission, the Immigration and Housing Commission, the Industrial Welfare Commission, the Department of Education and the Department of Health, whose duty it shall be to prevent overlapping and duplication in the agencies.

Department of Education.

The educational functions of the State are performed by the following agencies:

University of California.
State Board of Education.
Superintendent of Public Instruction.

Normal Schools:

Humboldt,
Chico,
Fresno,
San Francisco,
San Jose,
Santa Barbara,
Los Angeles,
San Diego,
California Polytechnic School
School for the Deaf and the Blind

The higher educational activities of the state center in the University of California, which is administered by a Board of Regents appointed by the Governor. It is a constitutional body and functions independ-

ently under the present scheme, and the committee has no recommendation to make as to any change.

The other educational activities of the state are divided between the regulatory and supervisory powers of the State Board of Education over the elementary, secondary and vocational schools, the state normal schools and the special schools. The members of the Board of Education are appointed by the Governor and have power to establish educational standards for the elementary, secondary, normal and special schools. They also have power to certify teachers for the elementary and secondary schools. In the matter of administration the board is confronted with a peculiar situation in that its executive officer is the Superintendent of Public Instruction, who is elected by the people with duties prescribed by law other than those that are assigned to him as executive officer of the Board of Education. This situation has in the past presented serious difficulties. The committee's investigation has convinced it that to insure a more efficient administration of the executive functions of this department this plan should be altered, but as a change would require a constitutional amendment it makes no recommendation.

There is a separate board of trustees for each of the eight normal schools, vested with power to elect presidents and establish policies of administration. The State Board of Education prescribes for the normal schools the courses of instruction to be followed but has no control in the matter of administration, nor in the matter of determining qualifications of members of normal school faculties.

There are two special educational schools in the State, one the Polytechnic School at San Luis Obispo and the other the School for the Deaf and the Blind, at Berkeley. These schools, at the present time, are administered by local boards which determine and prescribe the policies of administration and courses of instruction. They should be operated as integral parts of the general educational system.

The committee recommends that there be created a Department of Education to be governed by a State Board of Education consisting of five lay-members; and that the Superintendent of Public Instruction be its chief executive officer.

It is also recommended that the functions now exercised by the local boards of trustees of the normal schools, the California Polytechnic School and the School for the Deaf and the Blind be performed under the supervision of the State Board of Education, which shall appoint the president of each of the normal schools and the principal of each of the special schools. There should be also, in the opinion of the committee, a local board of trustees for each of these schools to serve as an advisory and visiting board without compensation. The principal

function of these boards should be to form a connecting link between the state government, the institutions and the communities in which they are located.

Department of Public Health.

The State Board of Health is the only state agency which has to do directly with public health. The scope of its work is broad and well defined and embraces the control of communicable diseases, the compiling of vital statistics, the regulation of sanitary matters, the inspection and control of foods and drugs and the administering of general health regulations throughout the State.

The committee recommends that there be created a Department of Public Health, the administrative agency to be a board of five duly licensed and practicing physicians of this State, appointed by the Governor for the term of four years, the terms so arranged that not more than two will expire at the same time; and that the Chairman shall be a member of the Governor's Cabinet

Department of Institutions.

The committee recommends that there be created a Department of Institutions, to be composed of the following agencies, with a Director appointed by and holding office at the pleasure of the Governor:

- 1 Veterans' Home.
- 2 Industrial Home for the Adult Blind.
- 3 Women's Relief Corps Home.
4. State Hospitals for the Insane—
 - a. Agnew.
 - b. Napa.
 - c. Mendocino.
 - d. Southern California.
 - e. Norwalk.
 - f. Stockton.
- 5 State Homes for the Feeble-minded—
 - a Sonoma.
 - b. Pacific Colony.
6. Lunacy Commission.
7. Whittier State School.
8. Preston School of Industry.
- 9 California School for Girls.
- 10 Bureau of Criminal Identification and Investigation

The Director shall appoint the Superintendents of the various institutions, by and with the consent of the cabinet.

Provision should be made for the retention of local unpaid boards of managers for these institutions, to serve as advisory and visiting boards and to form connecting links between the State government, the institutions and the communities in which they are located.

Department of Social Service.

At the present time the State maintains only one department whose specific function is to supervise county welfare problems. This body is the Board of Charities and Corrections.

The committee recommends that there be created a Department of Social Service, to be administered by a board consisting of seven unpaid members appointed by the Governor for a term of four years, the terms to be so arranged that they will not all expire at one time, and that the chairman be designated by the Governor. This board shall investigate, survey and supervise all child welfare work, the living and recreational conditions of children, and make such recommendations as it may deem advisable to municipal, county or State departments which have to do in any way with child welfare. It shall take over and perform the work of the inspection and standardization of municipal, county and state hospitals, prisons and other institutions, now being performed by the State Board of Charities and Corrections, and it shall at all times respond to requests from municipal, county or State departments for assistance in planning homes, hospitals and prisons for dependents of the public. It shall also take over and perform any and all other functions now performed by the State Board of Charities and Corrections.

Civil Service Commission.

The Civil Service Commission, as now organized, consists of a board of three members serving overlapping terms of four years, at a compensation of \$3,000 a year.

The committee recommends that the commission be composed of one member at a salary of \$5,000 a year, and two members on a per diem basis of \$10 a day, not to exceed \$300 a year each and necessary traveling expenses. The same provisions as to tenure, appointment and removal, as are in effect at the present time should continue.

The Governor's Cabinet.

The committee recommends that there be created a Governor's cabinet, composed of the following officers:

1. Director of Receipts and Supplies
2. Director of Accounts and Expenditures.
3. Director of Trade and Corporations.
4. Director of Public Works.
5. Director of Agriculture.
6. Director of Natural Resources
7. Director of Labor.
8. Director of Institutions.
9. Chairman of the Board of Education.
10. Chairman of the Board of Health.
11. Chairman of the Board of Social Service.

GENERAL RECOMMENDATIONS.

The committee makes the following general recommendations:

1. That the contingent funds of institutions be deposited in the State Treasury, to be withdrawn by appropriation of the legislature as budgeted by the Board of Finance.
2. That the rates charged to pay patients in the state hospitals be increased from \$15 to \$20 a month.

3. That the fees and licenses collected by the various State departments, boards and commissions be deposited in the State Treasury and withdrawn according to budget or by special permission of the State Budget Board, and that the funds so deposited be devoted solely to the use of the particular department depositing them.
4. That the transportation of the insane and feeble-minded be handled by attendants under the Department of Institutions instead of by deputy sheriffs as at present. This will accomplish two main objects: first, the care and attention of the afflicted by persons skilled in the handling of the insane; and secondly, the elimination of expense to the State approximated at \$50,000 for the biennium. This method of handling this class of patients has been thoroughly tried out by the State of Oregon and is recommended by the specialists in that state, and in this State, who have investigated the matter.
5. That the present practice of setting salaries by statute, so far as they refer to employees and officers other than heads of departments and chief deputies, be discontinued, and that those sections of the law which now provide for such salaries be repealed and provision be made for their payment out of the support funds of the various departments.
6. That in order to insure at least reasonable savings in the cost of State bond issues, the principle that the term of a bond should not exceed the probable life of the improvement to be constructed with the proceeds thereof, should be recognized by the State legislature; that the present seventy-five year maximum term permitted for State bonds should be reduced materially; that all State bonds should be serial; and that, in general, redemption should begin at the end of the first year of the issue and proceed annually thereafter in at least equal annual amounts, no subsequent payment of principal being greater than any prior payment.
7. That the statutory provision for the State Commission on Voting or Ballot Machines be repealed
8. That the offices of the State should be centralized at Sacramento, the seat of the State government, so far as the efficient performance of the public business will permit.

Respectfully submitted.

SENATE CONSTITUTIONAL AMENDMENT No 10

A resolution to propose to the people of the State of California an amendment to section two of article eighteen of the constitution of the State of California, relating to a convention for framing a new constitution of the State of California.

The Legislature of the State of California, at its regular session commencing on the sixth day of January, A. D. 1919, two-thirds of the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes that section two of article eighteen of the constitution of the State of California be amended to read as follows:

Sec 2 Whenever two-thirds of the members elected to each branch of the Legislature shall deem it necessary to adopt a new constitution, they shall recommend to the electors to vote, at the next general election, for or against a convention for that purpose and if a majority of the electors voting at such election on the proposition for a convention shall vote in favor thereof, the Legislature shall, at its next session, provide by law for calling the same. In so providing for calling such convention, the Legislature shall make provision for the election of one hundred sixty-three delegates thereto (one of whom shall be chosen from each Assembly district, one from each county, and twenty-five from the State at large), and each of whom shall, except as herein provided, have the same qualifications as members of the Legislature.

All persons who are elected as delegates to such convention shall be deemed to hold an office filled by election by the people, within the meaning of section nineteen of article four of this constitution. No declaration of affiliation with any political party, or other test or qualification of partisanship of any kind shall be required of any candidate for election as a delegate to such convention, and the Legislature shall incorporate in its plans for calling such convention suitable provisions for the nomination and election of nonpartisan delegates thereto.

The delegates elected to such convention shall meet within nine months after their election, at such place as the Legislature may direct. At a special election to be provided for by law such proposed new constitution shall be submitted to the people for their ratification or rejection and it shall be competent for the convention to submit alternative proposals and to determine the form and matter of such submission.

The returns of such election shall, in such manner as the convention shall direct, be certified to the Executive of the State, who shall call to his assistance the Controller, Treasurer, and Secretary of State, and compare the returns so certified to him, and it shall be the duty of the Executive to declare, by his proclamation, such new constitution, as may have been ratified by a majority of all the votes cast at such special election, to be the constitution of the State of California.

The people, in voting for or against the adoption of this amendment, shall be deemed to have determined by such vote whether or not a majority of the electors are in favor of calling such convention, and, in the event of its adoption, the Legislature shall proceed, at its forty-fourth session, to enact all necessary measures for calling and holding such convention, as herein provided.

No ---- Amount, \$----
(Here insert name of company, and place of its main office in California, and name of state or country under which it is incorporated)

For and in consideration of the sum of ----- dollars, and the stipulations herein named, the ----- title insurance company does hereby insure ----- and all other persons to whom this policy may be transferred in accordance with the terms hereof, against loss or damage not exceeding ----- dollars, which the said assured shall sustain by reason of any defects in the title of the assured to the real property hereinafter described, subject to the stipulations herein contained

The title to said property (hereinafter described) is vested in (here insert the name in which the property stands and the description of the property).

CONDITIONS OF THIS POLICY

1 (Name of company), (hereinafter called the company) will at its own cost defend the assured in all actions or proceedings founded on a claim of title or incumbrance prior in date to this policy and thereby insured against. In the event of any defect in the title insured, not excepted in this policy, such that a court of competent jurisdiction would not decree specific performance of a contract for the sale of the premises, the company will cure such defect at its own expense. If the company should fail to perform this agreement the assured may take such steps by judicial action as he shall deem to be necessary to cure such defect, and the cost thereof, including counsel fees expended by the assured, shall be paid to the assured by the company.

2 No claim for damages shall arise under this policy except under paragraph one of these conditions and except in the following cases

(a) Where there has been a final determination in a court of competent jurisdiction, under which the assured may be dispossessed or evicted from the premises covered by this policy, or from some part or undivided share or interest therein

(b) Where there has been a final determination by such court adverse to the title insured, upon a lien or incumbrance not excepted in this policy or by a written endorsement added thereto, as provided in section three.

3 No transfer of this policy shall be made except that a policy held by the owner of a mortgage or other incumbrance may be transferred to an assignee of the interest insured, or to the purchaser at a foreclosure sale where the property sold is bought in by or for the assured, and except also in such other cases as the company may, by special written agreement, permit but no transfer of this policy shall be valid unless the approval is endorsed hereon by its proper officers. Such approval may, in any case, be refused at the option of the company, and all interest in this policy (saving for damages accrued) shall cease by its transfer without such approval so endorsed but in case the company shall refuse to consent to the assignment or transfer of this policy at any time within twenty years from and after the date of this policy, then the company shall retain such proportion of the premium paid as the length of time that the policy has been in force bears to the term of twenty years, and the company shall on demand return and repay to the assured all of the balance rest and residue of said premium theretofore paid to it by the assured. After the

expiration of twenty (20) years this policy will be deemed to have earned the premium herein stated. In the event the company shall elect at any time to permit the transfer of this policy to any assignee or grantee of the insured within twenty years from the date hereof, then the company shall have the right to charge for services in examining title to said property since the date of this policy or the last transfer thereof, and to charge therefor a sum not exceeding ten (10) dollars; and in the event that any liens against said property, or defects in the title of the insured in and to said property shall have been created since the date of this policy, or the last transfer thereof, then such liens or defects may be excepted from the insurance guaranteed by the terms of this policy.

4 In case any action or proceeding, described in paragraph one of these conditions is begun, or in case of the service of any paper or pleading, the object or effect of which shall or may be to impugn, attack or call in question, the validity of the title hereby insured, as insured or to raise any material question relating to a claim of incumbrance hereby insured against, or to cause any loss or damage for which the company shall or may be liable under or by virtue of any of the terms or conditions of this policy, or in case any action or proceeding is begun that may have such object or effect, it shall be the duty of the insured at once to notify the company thereof in writing. In such cases, and in all cases where this policy requires the company to prosecute or defend actions, it shall be the duty of the insured to secure to it the right and opportunity to maintain or defend the action or proceeding, and all appeals from any determination therein, and to give it all reasonable aid therein, and permit it to use, at its option, the name of the assured for such purposes. If such notice shall not be given to this company within five days after the service of the summons in such action or proceeding, then this policy shall be void, *provided*, that no failure to give such notice shall affect the company's liability if such failure has not prejudiced and can not in the future, prejudice the company, *provided also*, that nothing contained herein shall be construed to avoid this policy as to the mortgagee or trustee to whom the loss is made payable in case of failure of the insured to give notice as required by this paragraph. The company will pay, in addition to the loss, all costs imposed on the insured in litigation carried on by it for the insured under the requirements of this policy.

5 No right of action shall accrue against the company under this policy until the expiration of thirty days after notice in writing to the company of a liability arising under paragraphs one or two of these conditions.

Section 1. Whenever fifty or a majority of the holders of title, or evidence of title as herein provided, to agricultural lands other than swamp and overflowed lands, whether lying within or outside of, or partly within and partly outside of, the exterior boundaries of any municipal corporation, or corporations, which are susceptible of one general mode of drainage by the same system of works, desire to provide for the drainage of such lands, they may propose the organization of a drainage district under the provisions of this act, and when so organized, such district shall have the powers, rights and duties conferred, or which may be conferred by law upon such drainage districts. The equalized county assessment-roll next preceding the presentation of a petition for the organization of a drainage district under the provisions of this act, shall be sufficient evidence of title for the purposes of this act, *provided*, that no person who has received or acquired title to land within such proposed district for the purpose of enabling him or her to join in such petition or to become an elector of said district shall be allowed to sign such petition or to vote at any election to be held in such district under the provisions of this act. Such illegal signing, however, shall not invalidate such petition when there shall be found a sufficient number of other legal petitioners

SEC. 2. Section twenty-eight of said act is hereby amended to read as follows

SEC. 28. All bonds issued under the provisions of this act shall be payable in gold coin of the United States in ten equal annual series, as follows to wit ten per cent of the whole number of said bonds, not later than the first day of January after the expiration of eleven years, and ten per cent on the first day of January of each succeeding year for nine years; said percentages being of the entire amount of the bond issue, but each bond must be made payable at a given time for its entire amount and not for a percentage. Said bonds shall bear interest at the rate of six per cent per annum, payable semi-annually on the first day of January and July of each year. The principal and interest shall be payable at the place designated therein. Said bonds shall be each of the denomination of not less than one hundred dollars nor more than five hundred dollars; shall be negotiable in form, signed by the president and secretary and the seal of the board of directors shall be affixed and the bonds of each issue shall be numbered consecutively and bear date at the time of their issue. Coupons for the interest shall be attached to each bond signed by the secretary. Said bonds shall express on their face that they were signed by authority of this act, stating its title and date of approval and shall also so state the number of the issue of which such bonds are a part. The secretary shall keep a record of the bonds sold, their number, the date of sale, the price received and the name of the purchaser.

SEC. 3. Section twenty-nine of said act is hereby amended to read as follows:

SEC. 29 The board may sell said bonds from time to time in such quantities as may be necessary and most advantageous, to raise money for the construction of said drains and works, the acquisition of said property and rights, and otherwise to fully carry out the objects and purposes of this act. Before making any sale the board shall, at a meeting, by resolution, declare its intention to sell a specified amount of the bonds, and the day and hour and place of such sale, and shall cause such resolution to be entered in the minutes and notice of the sale to be given, by publication thereof at least three weeks in some newspaper published in the county where the office of the board of directors is located, and in any other newspaper, at its discretion. The notice shall state that sealed proposals will be received by the board at their office for the purchase of bonds, till the day and hour named in the resolution. At the time appointed the board shall open the proposals, and award the purchase of the bonds to the highest responsible bidder, *provided, however*, that they may reject all bids. Said board shall in no event sell any of the said bonds for less than ninety per cent of the par value thereof.

SEC. 4 Section thirty-six of said act is hereby amended to read as follows:

SEC. 36 It shall be unlawful to sell or exchange any of the bonds as herein provided for less than ninety per cent of their par value.

SEC. 5 Section thirty-eight of said act is hereby amended to read as follows:

SEC. 38 When said bonds are issued for the purpose of sale to the highest bidder, the board may sell said bonds from time to time, in such quantities as may be necessary and most advantageous, to raise money to pay bonds, coupons, or other evidences of indebtedness of the district which were outstanding at the time of the filing of said petition, and outstanding at the time of the filing of said petition, and generally described therein. Resolution of intention must be declared, and notice given, and the sale conducted in the manner prescribed in section twenty-nine of this act for the sale of original bonds. Said bonds shall in no event be sold for less than ninety per cent of their par value including accrued interest. All moneys realized from the sale of bonds, issued under the provisions of this section, shall be paid into the hands of the said treasurer, and by him kept in a separate fund, known as the funding fund, and shall be applied exclusively to the payment of bonds, coupons, or other evidence of indebtedness of the district outstanding at the time of filing of the said petition, and described therein.

SEC. 6 Section thirty-nine of said act is hereby amended to read as follows:

SEC. 39 The bonds issued as herein provided for may be exchanged, at not less than ninety per cent of their par value, including accrued interest, for any of the indebtedness set out and described in the notice of the election authorizing the issuance of said refunding bond. A contract for such exchange may be made by the board of directors upon such terms as said board may deem advisable; *provided*, that they must receive not less than ninety per cent of par value for the bonds so exchanged.

SEC. 7 Section seventy-six of said act is hereby amended to read as follows:

SEC. 76 The holder or holders of title, or evidence of title representing one-half or more of any body of lands adjacent to the boundary of a drainage district, which are contiguous and when taken together, constitute one body of land, whether lying within or outside of, or partly within and partly outside of, the exterior boundaries of any municipal corporation or corporations, may file with the board of directors of said district a petition, in writing, praying that the boundaries of said district may be so changed as to include therein said lands. The petition shall describe the boundaries of said parcel or tract of land, and shall also describe the boundaries of the several parcels owned by the petitioners; if the petitioners be the owners, respectively, of distinct parcels, but such description need not be more particular than they are required to be when such lands are entered by the county assessor in the assessment book. Such petition must contain the assent of the petitioners to the inclusion within said district of the parcels or tracts of land described in the petition, and of which said petition alleges they are, respectively, the owners; and it must be acknowledged in the same manner that conveyances of land are required to be acknowledged.

SEC. 8 A new section is hereby added to said act to be numbered ninety-five and one-half and to read as follows:

SEC. 95½ Any drainage district organized under the provisions of this act may be discontinued at any time by proceedings had in the following manner:

Whenever a petition praying for such discontinuation shall be presented to the directors of said district, signed by a majority of the electors therein, they shall forthwith call an election in the same manner as elections for members of the board of directors are called, and submit to the electors of said district the question of discontinuation. At such election the ballots shall contain the words "For discontinuation Yes" and "For discontinuation No." Said election shall be held in all respects in the same manner as regular elections of directors of the district. If it appears that a majority of the electors voting at said election have voted in favor of discontinuation, the directors shall cause such fact to be entered upon their minutes, and shall forward a copy of such entry to the board of supervisors of the county in which the district was formed, who shall file the same with their clerk,

and from the date of such filing, said district shall be deemed disincorporated, *provided*, that if at the time of the dissolution or disincorporation of said district, there be any outstanding bonded or other indebtedness of such district, then taxes for the payment of such bonded or other indebtedness shall be levied and collected *the same as if such district had not been dissolved and disincorporated*, but for all other purposes such district shall be deemed dissolved and disincorporated from the time of the filing of said copy of such entry by said board of supervisors. Whenever any district shall have been disincorporated, as herein provided, the balance of the money of said district shall be distributed to the assessment payers in said district upon the last assessment roll in the proportion in which each has contributed to the total amount of said assessment.

SENATE JOINT RESOLUTION No. 28.

Relative to requesting the Congress of the United States to investigate the proposed action of the United States Railroad Administration to subdivide into zones the present switching limits of the railroads reaching and serving the cities of San Francisco, Oakland and Los Angeles, and thereby increasing the charges for switching within those cities, without first submitting the matter for hearing to the Railroad Commission of California or the Interstate Commerce Commission, in pursuance of section 20 of article XII of the constitution, and section 63 of the Public Utilities Act of California, and section 15 of the Act to Regulate Commerce

WHEREAS, The United States Railroad Administration has initiated and is now considering a proposition to subdivide into zones the present switching limits in San Francisco, Oakland, and Los Angeles, of the railroads now serving those cities, and to graduate the charges for switching within said switching limits and thereby bring about certain increases in charges to shippers, and

WHEREAS, The said proposition has not been submitted for approval and authorization either to the Interstate Commerce Commission, as required by section 15 of the Act to Regulate Commerce, as amended August 9, 1917, providing that no increased rate, fare, charge or classification shall be filed with the Interstate Commerce Commission except after approval thereof has been secured from such commission, or to the Railroad Commission of the State of California, as required by section 20, article XII of the constitution of the State of California, and section 63 of the Public Utilities Act of California, which provide that no railroad shall raise any rate, fare or toll or so alter any classification, practice, rule or regulation as to result in an increase in any rate, fare or charge, under any circumstances whatsoever, except upon a showing before the Railroad Commission of the State of California and a finding by said commission that such increase is justified, and

WHEREAS, The city and county of San Francisco, by its duly elected and qualified legislative and governmental bodies, has heretofore protested to the United States Railroad Administration against this proposed action on the grounds specifically set forth in the following resolution:

Resolution No. 16518 (New Series)

Whereas There has been submitted to the United States Railroad Administration a proposition to subdivide the present San Francisco switching limits into zones and to grade switching charges within and between said zones, and

Whereas, This proposed adjustment if made effective will change the custom which has long obtained in San Francisco of charging a uniform switching charge throughout the San Francisco switching limits and will tend materially to increase the present intraterminal charges for switching within the San Francisco switching limits, and

Whereas, This proposed adjustment if made effective will destroy the parity on which industries in San Francisco switching limits have been built up and would engender discrimination between various industries in San Francisco and induce the location of new industries in the limited area which is given the most favorable switching charges and thereby tend to congest industrial development in such locality and greatly to restrict and limit the wider development of industrial San Francisco and thereby cause it irreparable injury and

Whereas, The proposed action will tend to nullify the recent tentative decision of the Interstate Commerce Commission whereby all industries in the San Francisco industrial district are placed on a parity with those in Oakland and Los Angeles, now, therefore, be it

Resolved, That the city and county of San Francisco does hereby protest against the proposed readjustment of switching charges in San Francisco in the manner hereinbefore referred to and be it further

Resolved, That the city attorney be and he is hereby authorized to appear before the United States Railroad Administration in opposition to the proposed readjustment of switching charges within the San Francisco switching limits and to take such other action as may be necessary, before any tribunal having jurisdiction of the matter, to prevent the proposed changes being made effective, and be it further

Resolved, That the city attorney of the city and county of San Francisco be and he is hereby authorized to co-operate to the fullest extent with the city of South San Francisco, the chamber of commerce of South San Francisco, manufacturers association of South San Francisco and the civic and industrial organizations of the city and county of San Francisco for the purpose of preventing the proposed changes being made effective.

Adopted—Board of Supervisors, San Francisco, February 18, 1919.

AYES Supervisors Brandon, Gallagher, Hayden, Hilmer, Hynes, Kortick, Lahaney, McLeran, Nelson, Power, Welch, Wolfe.

ABSENT Supervisors Deasy, Hocks, McSheehy, Mulvihill, Schmitz, Suhr

J. S. DUNNIGAN, Clerk.

JAMES ROLPH, JR., Mayor.

And

WHEREAS, The city of Oakland has in like manner protested by the adoption of the following resolution

OAKLAND CITY COUNCIL.

Resolution No 17794 N S

Introduced by Commissioner Jackson

Resolution directing the city attorney to enter formal protest against proposed increase of switching rates by the Division of Traffic—Western Territory—United States Railroad Administration, and to take such legal action in connection therewith as may be necessary or proper to resist such proposed increase of switching rates

WHEREAS, The Division of Traffic—Western Territory—of the United States Railroad Administration has proposed to increase the switching charges for intra-terminal and inter-terminal movement of freight within the City of Oakland; now therefore, be it

Resolved, That the city attorney be and he is hereby instructed on behalf of the city of Oakland, to enter formal protest against such proposed increase of switching rates and to take such legal action in connection therewith as may be necessary or proper to resist such proposed increase of switching charges

I certify that the foregoing is a full, true and correct copy of a resolution passed by the city council of the city of Oakland, California on February 10 1919

And

WHEREAS, The city of Los Angeles has likewise adopted the following resolution RESOLUTION ADOPTED BY THE CITY COUNCIL OF LOS ANGELES ON MARCH 6, 1919.

WHEREAS There has been submitted to the Railroad Administration the proposition to divide the present switching limits in the cities of Seattle Oakland, San Francisco and Los Angeles into zones, and grading the switching charges within and between said zones, and

WHEREAS, The proposed adjustment will change the practice long in use in Los Angeles, and will tend to increase materially the present inter-terminal charges for switching within the Los Angeles switching limits, and will limit and hamper the growth of industrial districts and

WHEREAS There is to be a hearing on said matter before the district freight traffic committee of the United States Railroad Administration in San Francisco on Friday, March 7, 1919, now therefore, be it

Resolved, That the city council of the city of Los Angeles do hereby protest against the proposed change, and the clerk of council be instructed to wire copy of this resolution to W. G. Barnwell, chairman of said committee "

Which resolution, being seconded by Mr Conrad, was adopted by the following vote

AYES Cleveland, Conway, Conrad, Cuswell, Mallard, Olsen, Reeves, True, and President Farmer.

NOES None.

And

WHEREAS The proponents of the proposed action have offered no justification for the proposed readjustment or for the determination of the boundaries of the proposed zones, as fixed, other than a statement that the same is necessary, and

WHEREAS, The proposed adjustment, if made effective, will violate a provision of the following agreement entered into between the city of Oakland and the Southern

Pacific Company, known as ordinance No 3197 of the city of Oakland, approved November 23, 1910, and still in effect, providing for uniform switching charges within the city of Oakland, and which was a consideration for the granting to the Southern Pacific Company of certain valuable waterfront franchises within the said city of Oakland.

Copy of section seven of Ordinance No 3197, passed by the city council of the municipality of Oakland, November 7, 1910 and approved by the mayor thereof on November 23, 1910.

Such ordinance being described as follows:

Granting to the Southern Pacific Company, its successors and assigns, the right and franchise, for the term of fifty years to the exclusive use, occupation and enjoyment of a certain portion of the waterfront of the city of Oakland, for the purpose of constructing, maintaining, operating, and using thereon railroads for the transportation of freight and passengers, and for terminals of such railroads, and slips, wharves, docks and piers thereon, and for other purposes, together with the right to use as a fairway for the passage of its vessels thereon in common with other vessels, certain water lying westerly, southwesterly and southerly from said portion of said waterfront.

Also granting to said company, its successors and assigns, the right and franchise to use for like purposes for the term of eight years that portion of long wharf lying westerly of the premises first above mentioned.

Section 7. The rights, privileges and franchises hereby granted are granted upon the condition that grantee, its successors and assigns, will at all times during the life of this franchise, upon demand of any person, firm or corporation operating any industry or engaged in business in the city of Oakland, including the city of Oakland, receive from and deliver to any railway having a terminus in the city of Oakland, and with which said grantee, its successors or assigns, shall have track connections either in the city of Oakland, or outside the city of Oakland, freight cars to be placed upon tracks laid upon the premises hereinabove described for the purpose of transferring freight from ships or cars, or from cars to ships; such cars to be so placed to be used for the receipt and delivery of freight in carloads only, and the said grantee, its successors and assigns, shall be permitted to collect a reasonable and just charge for the switching and transporting of said cars without discrimination; *provided, further* that all freight rates on the lines of the grantee, its successors and assigns to or from points outside the city of Oakland, to or from any point in the city of Oakland shall in no case discriminate against the city of Oakland in favor of San Francisco under substantially similar conditions; and *provided, further*, that no point in the city of Oakland shall have any better rate than any other point in said city except that proper and reasonable switching charges may be collected; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States be and is hereby requested to investigate the proposed attempt of the United States Railroad Administration to increase the charges for switching within the said cities of San Francisco, Los Angeles, and Oakland, and thereby disturb a rate uniformity between industries within said cities that has obtained for many years, without first submitting said proposition to the lawfully constituted regulatory body having jurisdiction thereof, for approval and authorization; and be it further

Resolved, That copies of this resolution be forthwith transmitted by the Secretary of the Senate to the President of the Senate and to the Speaker of the House of Representatives of the United States, and to each of the Senators and Representatives in Congress from the State of California.

Anything herein to the contrary notwithstanding, if application for the registration of a motor vehicle or for chauffeur's license is made during the period beginning on the first day of May and ending on the thirty-first day of July in any year, three-fourths of the annual fee shall be paid, if application is made during the period beginning on the first day of August and ending on the thirty-first day of October one-half of such annual fee, if application is made during the period beginning on the first day of November and ending on the thirty-first day of January, one-fourth of such annual fee.

Sec 7 Section 8 of said act approved May 10 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec 8 The department shall also furnish with each number plate for motorcycles and with each pair of number plates for automobiles, and on each annual renewal of registration, a certificate of registration which shall contain upon the face thereof the following data: The name of the registered owner of the motor vehicle, his post-office address, the name of the legal owner, and the make of the vehicle, the year model denoted by the manufacturer, the model or letter denoted by the manufacturer, if any, the engine or motor number, the registered horsepower, the registration number and the amount of annual registration fee, together with the date of issue of the certificate. In case of motorcycles, the manufacturer's serial number shall be stated in lieu of the engine number. Such certificate shall contain a blank space for the signature of the registered owner and shall be signed by such owner. The reverse side of said certificate shall contain forms (a) for notice to the department by the registered owner and the legal owner in case of transfer of ownership, as hereinafter required, and (b) for application to the department by the transferee, in case of transfer of said motor vehicle, for registration thereof in his name, said application to be in the form of a joint statement to be signed by both transferor and transferee and the legal owner, and to contain in addition to such other particulars as may be required by said department, a statement of the post-office address of the transferee so applying for registration. Said certificate shall contain the identical registration number denoted on the number plate or plates in connection with which such certificate is issued, and it shall be valid only for the year in which it is issued. Said certificate shall be enclosed in a suitable container, to be furnished by the department, such container to have a frame of aluminum or other metal and to have a cover of isinglass or other transparent material, through which such certificate can be easily inspected, and with such container said department shall furnish screws or other suitable means of attachment to the motor vehicle. Said number plates, certificates and containers shall be furnished by the department without further charge than the fees specified in section 7 of this act, with transportation prepaid, and shall be of substantial character and suitable form and design, to be determined by the department.

Upon the transfer of ownership of any motor vehicle registered under section 3 of this act the person in whose name such vehicle is registered shall forthwith (a) file with the department a notice, upon the form furnished by the department and attached to the certificate of registration, containing the date of such transfer of

ownership and the name and post-office address of the transferee, and upon such transfer the title of the number plates shall vest in the transferee.

Upon the transfer of ownership of any motor vehicle, the person in whose name such vehicle is registered and the person to whom ownership of such vehicle is to be transferred shall forthwith join in a statement of said transfer endorsed upon the reverse side of the certificate of registration of said motor vehicle in the space provided for said purpose, which statement shall be signed by the transferor and the legal owner in the manner and form of his signature contained on the face of said certificate and which statement shall likewise be signed by the transferee, who shall also set forth below his signature his post-office address. Said statement shall include an application by the transferee for registration of said vehicle in his name. Said certificate so endorsed and bearing upon the reverse side thereof the signatures of the transferor and transferee shall be forwarded by the transferor within ten days to the department together with proper fee of one dollar required by section 7 of this act. The department shall file said certificate so jointly endorsed by transferor and transferee and upon receipt of the proper fee as above provided, the department, if satisfied of the genuineness and regularity of said transfer, shall register said motor vehicle in the name of said transferee.

Upon such registration the department shall issue and forward to the applicant without further charge than as provided in section 7 of this act, a new registration certificate in the manner and form as heretofore provided for original registration. Until said transferee has received said certificate of registration and has written his name upon the face thereof in the blank space provided for said purpose by the department, delivery of said motor vehicle shall be deemed not to have been made and title thereto shall be deemed not to have passed and said intended transfer shall be deemed to be incomplete and not to be valid or effective for any purpose, *provided*, that where such transfer is made to a manufacturer or dealer to whom has been assigned a general distinguishing number and who intends to re-sell or otherwise retransfer said vehicle the provisions of this act relative to the joint statement of transferor and transferee endorsed thereon, shall be complied with upon such sale or transfer. In case of transfer of ownership of a motor vehicle registered under the provisions of this act, by operation of law, as upon inheritance, devise or bequest, order in bankruptcy or insolvency, execution sale, repossession upon default in performance of the terms of a lease or executory sales contract, or otherwise than by the voluntary act of the registered owner, the notice of transfer as well as the joint statement heretofore provided for shall be signed by the executor, administrator, receiver, trustee, sheriff, or other representative or successor in interest of the registered owner, in lieu of such owner, and the transferee's application for registration shall be accompanied by a statement of the special facts in the premises, *provided* that the department may in its discretion require from the transferee before registering such motor vehicle, such additional information respecting such involuntary loss of ownership by the former registered owner as may be satisfactory to the department.

Anything to the contrary heretofore notwithstanding, upon the transfer of ownership of any motor vehicle to a person not intending either to operate the same or to cause or permit the same to be operated upon the public highways and not intending to transfer such motor vehicle to another person, a statement by said transferee of such fact or intent shall accompany the application for registration, in which case no fee for registration need be paid by the applicant, whereupon the department, if satisfied of the genuineness and regularity of said transfer and if satisfied of the facts stated in said application for registration, shall register, without any charge whatever, such motor vehicle in the name of said transferee and shall issue and forward to him a new registration certificate in a distinctive form to be determined by the department, *provided*, that until said transferee has received said registration certificate, delivery of said motor vehicle shall be deemed not to have been made, and title thereto shall be deemed not to have passed and said intended transfer shall be deemed to be incomplete and not to be valid or effective for any purpose, *and provided*, further, that nothing herein contained shall be so construed as to permit such motor vehicle to be operated upon the public highway under such distinctive certificate of registration last heretofore provided for.

If the department shall determine, at any time, that for any reason a motor vehicle or trailer is unsafe or is improperly equipped or is otherwise unfit to be operated, or that the applicant for registration thereof is not entitled as owner thereof to such registration, the department may refuse to register such vehicle and may, for a like reason, revoke any registration already acquired.

SEC. 8. Section nine of said act approved May 10, 1913, as amended as aforesaid, is hereby amended to read as follows:

Sec. 9. Every manufacturer of, or dealer in, motor vehicles may make application to the department, by mail or otherwise, upon a blank provided by the department, for a general distinguishing number or symbol, instead of registering each motor vehicle owned by him, and with such application he shall deposit the proper registration fee as provided in section 7 of this act, and the department shall grant the application if satisfied of the facts stated in the application and shall issue to the applicant a certificate of registration containing the name and business address of the applicant and the general distinguishing number or symbol assigned to him and made

in such form and containing such further information as the department may determine, and every motor vehicle owned or controlled by such manufacturer or dealer shall be regarded as registered under such general distinguishing number or symbol until ten days after being sold, or until let for hire, or until loaned for a period of more than ten successive days. The department shall furnish, without other charge than the fee specified in section 7 of this act, with transportation charges prepaid, to every manufacturer of or dealer in automobiles or motorcycles applying therefor whose vehicles are registered in accordance with the provisions of this section, one pair of automobile plates or one single motorcycle number plates, of suitable design, the plates to have displayed upon them the registration number which is assigned to the motor vehicles of such manufacturer or dealer, with a different symbol on each pair of automobile number plates and on each single motorcycle plate. The department shall furnish a such additional number plates as required of by any dealer, upon the payment of the fee therefor set forth of in section 7 of this act. If the department shall determine at any time for due cause that any such manufacturer or dealer to whom the certificate of registration provided for in this section has been issued and to whom such general distinguishing number or symbol has been assigned has failed to comply with the requirements of this section hereinafter contained with reference to notices or reports of transfer of motor vehicles, or has caused or suffered, or is causing or suffering, the unlawful use of such certificate or number, the department may revoke said certificate of registration and recall and cancel said general distinguishing number of symbol, in which event said manufacturer or dealer, after notice of such action on part of the department, shall, without further demand, return to the department any and all number plates that may have been furnished him by the department under said certificate so revoked, *provided*, that no manufacturer or dealer or any employee of such manufacturer or dealer, shall cause or permit the display, or other use, of any number plate, or certificate of registration which may have been furnished to such manufacturer or dealer under the general distinguishing number or symbol heretofore provided for, excepting upon motor vehicles owned by such manufacturer or dealer within the meaning and intent of this act; *provided, further*, that no person shall display or otherwise use or have in his possession any number plate, or certificate of registration furnished by the department under a general manufacturer's or dealer's distinguishing number or symbol, except such manufacturer or dealer or his employees, *and provided, further*, that if the department, upon receiving from any manufacturer or dealer an application for the issuance for the ensuing calendar year of the certificate of registration and general distinguishing number or symbol provided for in this section, shall determine upon due cause that such manufacturer or dealer during the previous calendar year has failed to comply with the requirements of this section hereinafter contained respecting the filing of notices or reports of transfer of motor vehicles, or has caused or suffered, or is causing or suffering, the unlawful use of such certificate or number, the department may refuse such application.

When it shall become necessary for a manufacturer of, or dealer in, or consignee of, motor vehicles to move any vehicles owned by or consigned to him, not being registered under any of the provisions of this act, from any vessel, railroad depot, or warehouse, to the salesrooms or other place of business of such manufacturer or dealer, or to a warehouse or other place of storage, over the public highways, he may operate such vehicle, either under its own power or otherwise, over such public highways as are necessary for said purpose, without first registering said motor vehicle or affixing thereto any number plates issued to him under the general distinguishing number or symbol heretofore specified; *provided, however*, that in such event he shall first obtain from the police authorities or marshal of the city or town in which said vessel, railroad depot or warehouse is situated, a written permit authorizing such operation; and there is hereby conferred upon police authorities, including town marshals, within the State of California, authority to issue such permits in proper cases as heretofore provided.

Upon the transfer of any motor vehicle by a manufacturer or dealer, whether by sale, lease or otherwise, such motor vehicle not being registered under the provisions of section 3 hereof, such manufacturer or dealer shall, forthwith upon such transfer, file with the department, upon a blank to be furnished by the department, a notice or report containing the date of such transfer, a description of such motor vehicle and the name and post office of the purchaser, lessee or other transferee.

Upon the transfer of any automobile engine or motor, except a new engine or motor transferred with intent that the same be installed in a new automobile, and whether such transfer be made by a manufacturer or dealer or otherwise, and whether by sale, lease or otherwise, the transferor shall within three days after such transfer file with the department, upon a blank to be furnished by the department, a notice or report containing the date of such transfer and a description, together with the maker's number of said engine or motor, the name and post-office address of the purchaser, lessee or other transferee.

SEC. 9. Section eleven of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

SEC. 11. Except as in this act otherwise provided, no person shall operate or drive, or cause to be operated or driven, a motor vehicle, or cause a trailer to be drawn by a motor vehicle, on the public highways unless such vehicle shall at all times have displayed the number plate or plates furnished for it as heretofore

provided, in case of automobiles, each such vehicle shall display one number plate on the front and the other on the back thereof; in case of motorcycles and trailers but one number plate shall be required to be displayed and such number plate upon motorcycles and trailers shall be at the rear thereof, in all cases such number plates shall be securely fastened to the motor vehicle or trailer so as to prevent said plates from swinging, and at a minimum distance of sixteen inches from the ground. Nothing in this act shall be construed to require the display of any number plate on other than the rear trailer, when more than one trailer is drawn by a motor vehicle. No person shall attach to, or display on, such motor or other vehicle, any number plate, or registration seal or certificate other than as assigned to it for the current year, or a fictitious, or altered number plate, registration certificate, or number plate, or registration certificate that shall have been canceled by the department. All letters, numbers, printing, writing and other identification marks upon said plates, and certificates, shall be kept clear and distinct and free from grease, dust or other blurring matter, so that they shall be plainly visible at all times during daylight and under artificial light in the night time, *provided*, that in case any such plate, or certificate of registration, operator's license or chauffeur's license or badge shall be lost, mutilated or shall have become illegible, the person to whom such plate, seal, certificate, license or badge shall have been furnished shall immediately apply to the department for a duplicate thereof, accompanying his application with the fee specified in section 7 of this act.

No person shall operate or drive a motor vehicle on the public highway unless such vehicle shall at all times carry in or upon it, subject to inspection by any peace officer, or employee of the department, the registration certificate furnished for it as hereinabove provided, which in case of an automobile shall be affixed, in the container furnished by the department, in plain sight in the driver's compartment of the automobile and which, in case of a motorcycle, shall be carried either in plain sight affixed to said motorcycle, or in the tool bag or some other convenient receptacle attached to said motorcycle.

The registration fee required under this act to be paid upon a motor vehicle or trailer shall become delinquent in the case of any such vehicle forthwith upon the operation of the vehicle on the public highways without the registration fee required by this act first having been paid to the department, accompanied by the application for registration provided herein. It is hereby provided, in addition to any and all other penalties provided by this act, that if, at the expiration of thirty days after any registration fee becomes delinquent such fee has not been paid and registration applied for, a penalty shall be added to the amount of such fee in an amount equal to 25 per cent of the fee required by section 7 of this act, and that such fee, together with the amount of said penalty shall be a lien upon the motor vehicle or trailer in regard to which said registration fee is delinquent, and the department shall have power and it is hereby made its duty to collect the said registration fee together with the penalty, by seizure of such motor vehicle or trailer from the person in possession thereof, if any, and by the sale thereof. The seizure and sale herein authorized shall be conducted and carried out by the department in the same manner as is provided by law for the seizure and sale of personal property by the county tax collector for the collection of taxes due on said personal property; *provided, however*, that in case of annual renewal of registration, where the applicants have in all times complied with the requirements of this act and have duly applied for such annual renewal of registration before the commencement of the ensuing calendar year, accompanying their applications with the proper fees for such registration, they shall be entitled to operate said vehicles during the month of February without displaying the registration certificates of the current year, on condition that they have at all times displayed upon said vehicles the number plates assigned to said vehicles respectively, together with the registration seals and certificates assigned thereto for the previous year.

SEC. 10 Section 13 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec 13 (a) Where there is not sufficient light within the lateral boundaries of the public highway to reveal all persons, vehicles or other substantial objects within said boundaries for a distance of at least 200 feet, and all times during the period from a half hour after sunset to a half hour before sunrise, every automobile while on the public highway shall carry at the front at least two lighted lamps, and every such automobile and every trailer, at the times and under the conditions in this section hereinbefore specified, shall carry at the rear a lighted lamp exhibiting a red light plainly visible under normal atmospheric conditions, for a distance of 500 feet toward the rear and so constructed and placed that the number plate carried on the rear of such automobile or trailer shall be illuminated by a white light in such manner that the number thereon can be plainly distinguished under normal atmospheric conditions at a distance of not less than 50 feet toward the rear; *provided, however*, that where more than one trailer is attached to a motor vehicle, only the rear trailer shall be required to exhibit said light. At the times and under the conditions in this section hereinbefore specified, all other vehicles, except bicycles, motorcycles and motor trucks of two tons carrying capacity or over which are so governed or mechanically constructed or controlled that they can not exceed a speed

of 15 miles per hour, shall carry one or more lighted red lamps or lanterns so arranged that said red lamp or lamps shall be visible from every direction for a distance of not less than 200 feet.

(b) At the times and under the conditions in this section hereinbefore specified, every bicycle while on the public highway shall carry a lighted lamp visible under normal atmospheric conditions at least 300 feet in the direction toward which such bicycle is faced, and shall also carry at the rear of such bicycle a reflex mirror or a lighted lamp exhibiting a red light plainly visible under normal atmospheric conditions for a distance of at least 200 feet toward the rear.

(c) At the time and under the conditions in this section hereinbefore specified, every motorcycle while on the public highway shall carry at the front at least one lighted lamp which shall give a light of sufficient power and so distributed as provided in subdivision (f) and shall also carry at the rear of such motorcycles a lighted lamp, exhibiting a red light plainly visible under normal atmospheric conditions for a distance of at least 200 feet towards the rear.

(d) At the time and under the conditions in this section hereinbefore specified, every motor truck of two tons carrying capacity or over, which is so governed or mechanically constructed or controlled that it can not exceed a speed of 15 miles per hour, shall carry at the front at least two lighted lamps which shall be visible at least 200 feet in the direction in which the motor truck is proceeding, and when the vehicle is proceeding on a street or highway not so lighted as to reveal any person, vehicle or substantial object on the street or highway straight ahead of such motor truck for a distance of at least 200 feet, such front light shall be sufficient to reveal any person, vehicle or substantial object on the road straight ahead for a distance of 75 feet or over, and shall be equipped with a tail light such as is required on other motor vehicles.

(e) In any case where a motor or other vehicle shall be loaded with any material in such a manner that any portion of such load extends toward the rear four feet or more beyond the rear of the bed or body of such vehicle, there shall be displayed at the extreme end of the load, at the times and under the conditions in this section hereinbefore specified, in addition to the ordinary rear or tail light hereinbefore required to be displayed on such vehicle, a red light plainly visible under normal atmospheric conditions at least 200 feet from the rear; *provided, further*, that at other times while such vehicle is upon the highway a red flag or cloth not less than 16 inches in length nor less than 16 inches in width shall be displayed at the extreme rear end of said load as a warning signal to persons operating vehicles approaching from the rear.

(f) At the times and under the conditions in this section hereinbefore specified the headlights of all automobiles upon the highways shall give a light of sufficient power and so distributed as provided herein in addition to and irrespective of any other requirements concerning headlights in this section contained. The term "headlight" as used herein, shall denote any light, located upon any portion of the said motor vehicle other than on the windshield, the windshield supports or top thereof, the fars of which are projected forward, except sidelights of not to exceed four candle power, *provided further*, anything to the contrary notwithstanding, that where there is sufficient light within the lateral boundaries of the public highway within any incorporated city, town or city and county, to reveal all persons, vehicles or substantial objects within said boundaries for a distance of 200 feet no lights shall be required to be displayed on any vehicle while the same is not in operation, providing that a wheel of such standing vehicle nearest the sidewalk is located within six inches of such sidewalk.

(g) The headlights of motor vehicles shall be so arranged, adjusted, and constructed when the car is fully loaded, that any pair of headlights under the conditions of use must produce a light which

1. When measured on a level surface on which the vehicle stands at a distance of 200 feet directly in front of the car and at some point between the said level surface and a horizontal passing through the top of the headlight reflector or lens, is not less than 1,200 apparent candle power.

2. When measured at a point 100 feet directly in front of the car, and at a height of 60 inches above the level surface on which the vehicle stands, does not exceed 2,400 apparent candle power nor shall this value be exceeded at a greater height than 60 inches.

3. When measured at a distance of 100 feet ahead of the car and seven feet or more to the left of the axis of same, and at a height of 60 inches above the level surface on which the vehicle stands does not exceed 800 apparent candle power.

(h) Any device or adjustment used in connection with a light upon a motor vehicle to enable the same to comply with the requirements of subdivision (f) hereof shall not be used upon a motor vehicle operated upon the highways of this state until the same shall have been tested as provided herein; such test shall be made by a skilled testing agency, appointed for that purpose by the superintendent of motor vehicle department and such tests shall be laboratory tests according to the following specifications:

Two pairs of samples of the device submitted shall be subject to test. In the case of front glasses the sample shall be of 9½ inches diameter when practicable.

The reflectors used in connection with the laboratory tests shall be of standard high-grade manufacture of 14-inch focal length, with clean and highly polished surfaces and as nearly truly paraboloidal in form as practicable, and as approved for this purpose by the testing agency selected by the superintendent of the motor vehicle department.

The incandescent lamps used in connection with the laboratory test shall be of standard high quality manufacture and as approved for this purpose by the testing agency selected by the superintendent of motor vehicle department.

The manufacturer of the device shall be given due notice of the date and place of test. Manufacturers' representatives present at the test shall be privileged to adjust their devices in any way which represents an ordinary and legitimate adjustment including tilting the lamps or reflectors, which can be carried out by purchasers of the device, or such adjustment may be made by the laboratory expert acting on the instructions of the manufacturer. The character of the adjustments so made shall be carefully noted and stated in the report as manufacturer's adjustment.

The tests shall be as follows:

Test 1. Four-point test of pairs of samples. A pair of testing reflectors, mounted similarly to the headlamps on a car shall be set up in a dark room, or at the request of the applicant, out of doors in darkness under such conditions that no light thrown or reflected from any source other than from the device being tested shall materially affect the test readings, at a distance of not less than 60 feet, nor more than 100 feet from a vertical white screen. If a testing distance of 100 feet is taken the reflectors shall be set 28 inches apart from center to center, and if a shorter testing distance is taken, the distance between reflectors shall be proportionately reduced. The axes of the lamps shall be parallel and horizontal, or as tilted in accordance with the manufacturer's adjustment. The intensity of the combined light shall then be measured with each pair of samples in turn, with the reflectors fitted with a pair of each of the following types of incandescent lamps in turn:

(1) Vacuum type, 6-8 volts, 17 msecp.

(2) Gas-filled type 6-8 volts, 20 msecp.

The lamps shall be adjusted to give their rated candle power. Measurements shall be made at the following points at the surface of the screen:

A. In the median vertical plane parallel to the lamp axes, on a level with the lamps.

B. In the same plane one degree of arc below the level of the lamps.

C. In the same plane one degree of arc above the level of the lamps.

D. Four degrees of arc to the left of this plane and one degree of arc above the level.

In an acceptable device both pairs of samples shall conform to the following specifications for observed apparent candle power. Points A and B. At at least one of these points the apparent candle power shall not be less than 1,200. Point C. The apparent candle power shall not exceed 2,400. Point D. The apparent candle power shall not exceed 800. *Provided, however,* that if the test indicates that a device which is unacceptable with either of the test lamps will come within the specifications with lamps of another candle power or of the other type, the device may be passed with corresponding limitations as to the incandescent lamps to be used in connection with it.

Test 2. Complete test of single sample.

A single sample taken as an average representative of the device as manufactured shall be submitted to a complete test with a vacuum incandescent lamp of 17 candle power 6-8 volt rating. This test shall show its light distribution characteristics by actual measurements made according to recognized and exact methods.

One pair of the samples shall be retained by the testing agency for the purpose of future reference and as samples of construction and the other pair shall be returned to the office of the superintendent of the motor vehicle department.

The report of the tests shall be rendered in duplicate to the superintendent of the motor vehicle department, and shall be signed or initialed not only by the expert making the test, but also by an executive officer of the institution making the test.

It shall include a statement by the testing agency or the testing official as to whether or not the device when properly applied substantially complies with the requirements of section 13 of the California Motor Vehicle Act.

(1) The superintendent of the motor vehicle department shall immediately upon the completion of the tests made as herein provided, prepare a written report of the results of such tests and transmit a copy thereof to the clerk of each county within the State of California, who shall thereupon immediately file such report. A copy shall also be sent to the city, town or county traffic departments, whose duty it is to enforce the law. The superintendent of the motor vehicle department shall endorse upon such report the statement of the testing agency or the testing officials as to whether or not the said device when properly applied, substantially complies with the requirements of section 13 of the California Motor Vehicle Act.

(2) It shall be unlawful for any device to be used in connection with the headlight upon a motor vehicle to enable the same to comply with the provisions of subdivision (f) hereof unless such device shall have been first tested as provided in subdivision (h) hereof, and the testing agency shall have reported that such device, when properly applied, substantially complies with the requirements of section 13 of

the California Motor Vehicle Act, and such reports shall have been incorporated in the said report of the said superintendent of the motor vehicle department and a copy thereof filed in the office of the clerk of the county in which said device is used and a copy sent to city, town or county traffic departments whose duty it is to enforce the law.

(k) Any person, firm or corporation may submit to the superintendent of motor vehicle department a device for controlling the front lights of motor vehicles so that they shall comply with the provisions of this section, together with an application that such device be tested as prescribed by this section. Such applicant shall pay to the motor vehicle department a fee of \$50. Thereupon the superintendent of motor vehicle department shall upon notice to the applicant submit such device to the testing agency appointed for this purpose as hereinbefore provided with the request that it be tested as to its compliance with the provisions of this section. Upon notice from such testing agency that such test has been made and that such device, when properly applied, substantially complies with the provisions of this section, and specifying the maximum candle power to be used therewith, the superintendent of motor vehicle department shall issue a certificate to the applicant describing the device, certifying that such test has been made, that the device, when applied, complies with the provisions of this section and prescribing the said maximum candle power to be used therewith. All fees paid into the department with said applications shall be paid into the state treasury and deposited in a fund to be known as the "testing fee fund", and the moneys in said fund are hereby appropriated, or so much thereof as may be necessary to meet the expenses of the test provided for in this section, and the balance thereof, if any, after meeting all expenses incurred in connection with said test shall be paid into the motor vehicle fund.

(l) The term "spotlights" as used herein shall denote any light fastened to the windshield, the windshield support or top of a motor vehicle, the rays of which are projected forward, except sidelights of not to exceed four candle power.

All spotlights used upon motor vehicles shall be so constructed or arranged that no portion of the main substantially parallel beam of light when measured 100 feet or more ahead of said lights shall use or shall be capable of being raised from the driver's seat, to more than 42 inches above the level surface upon which the vehicle stands directly ahead of such vehicle.

SEC. 11. Section 17 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

SEC. 17. No person who is under the influence of intoxicating liquor shall operate or drive a motor or other vehicle on any public highway within this state. Any person violating the provisions of this section shall be punished by imprisonment in the county jail for not less than six months nor more than one year or by imprisonment in the state prison for not less than one or more than three years or by a fine of not less than \$500 nor more than \$5,000.

SEC. 12. Section 20 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

SEC. 20. (a) The driver or operator of any vehicle in or upon any public highway shall drive or operate such vehicle in a careful manner with due regard for the safety and convenience of pedestrians and of all other vehicles or traffic upon such highway, and wherever practicable shall travel on the right-hand side of such highway. Two vehicles which are passing each other in opposite directions shall have the right of way, and no other vehicle to the rear of either of such two vehicles shall pass or attempt to pass such two vehicles. On all occasions the driver or operator of any vehicle in or upon any public highway shall travel upon the right half of such highway unless the road ahead on the left-hand side is clear and unobstructed for at least 100 yards ahead and in all cases while crossing an intersecting highway. For the purposes of this section and its subdivisions, an animal or animals attached to any conveyance shall, with such conveyance, be deemed to constitute one vehicle.

(b) Vehicles proceeding in opposite directions shall pass each other to the right each giving to the other one-half the road as nearly as possible.

(c) Vehicles overtaking other vehicles proceeding in the same direction shall pass to the left thereof and shall not again drive to the right until reasonably clear of such overtaken vehicle.

(d) It shall be the duty of the driver, rider or operator of a vehicle about to be overtaken and passed to give way to the right in favor of the overtaking vehicle, on suitable and audible signal being given by or on behalf of the operator, driver or other person in charge and control of such overtaking vehicle if such overtaking vehicle be a motor vehicle.

(e) Vehicles must be operated so as to allow a safe distance between such vehicles and any persons, vehicles or animals preceding them upon the highway and outside of the business district of any county, incorporated city and county, city or town, contiguous to a public highway as such business district is defined in this act, no vehicle shall, while in motion, be closer than 15 feet to any vehicle, person or animal in front thereof.

(f) Excepting where controlled by such traffic ordinances or regulations as are permitted under this act the operator of a vehicle shall yield the right of way at the intersection of their paths to a vehicle approaching from the right unless such vehicle approaching from the right is further from the point of the intersection of their paths than such first named vehicle.

(g) Any vehicle traveling on a public highway which is divided longitudinally by a parkway or an isle of safety, shall keep to the right of such parkway or isle of safety unless otherwise directed by the provisions of any ordinance, rule or regulation of competent local authorities.

(h) It shall be the duty of the person operating or in charge of an overtaking vehicle to sound audible and suitable signal before passing a vehicle proceeding in the same direction.

(i) All vehicles approaching an intersection of a public highway, with the intention of turning thereat shall in turning to the right keep to the right of the center of such intersection, and in turning to the left shall run beyond the center of such intersection, passing to the right thereof, before turning such vehicle toward the left. For the purposes of this subdivision the "center of such intersection" shall be held to mean the meeting point of the medial lines of the two highways traversed by the vehicle making the turn.

(j) In all passing and overtaking such assistance shall be given by the occupants of each vehicle respectively to the other as the circumstances shall reasonably demand in order to obtain clearance and avoid accidents, every person having control or charge of any motor vehicle or other vehicle upon any public highway and approaching any vehicle drawn by a horse or horses, or any horse upon which any person is riding, shall operate, manage and control such motor vehicle or other vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses and to insure the safety and protection of any person riding or driving the same and if such horse or horses appear frightened the person in control of such motor vehicle or other vehicle shall reduce its speed, and if requested by signal or otherwise by the driver or rider of such horse or horses shall not proceed further toward such animal or animals unless such movement be necessary to avoid accident or injury, until such animal or animals be under the control of the driver or rider thereof.

(k) The operator of any vehicle shall not operate or drive the same so as to pass or overtake any other vehicle going in the same direction at any street intersection, unless directed so to do by a traffic or police officer.

(l) The person in control of any vehicle moving slowly along and upon any public highway shall keep such vehicle as closely as practicable to the right-hand boundary of the highway allowing more swiftly moving vehicles reasonably free passage to the left.

(m) No person shall operate or drive any vehicle that is so covered, loaded or constructed as to obscure the driver's view of the highway to the rear, nor any vehicle which is so covered, loaded or constructed that any portion thereof to the rear of the driver projects more than twelve inches beyond the extreme left side of the driver's seat, unless there is placed on said vehicle a mirror so located as to reflect to the driver a view of the highway for at least 200 feet behind such vehicle.

(n) The person in charge of any vehicle in or upon any public highway, before turning, stopping, or changing the course of such vehicle, and before turning such vehicle when starting the same, shall see first that there is sufficient space for such movement to be made in safety, and if the movement or operation of other vehicles may reasonably be affected by such turning, stopping or changing of course, shall give plainly visible signal to the persons operating, driving or in charge of such vehicles of his intention so to turn, stop, or change his course, either by the use of his hand and arm, which shall be visible from the rear, or by the use of a mechanical or electrical device. Any such device shall upon application to the motor vehicle department be tested and certified as adequate to give the signal herein required, in the same manner and upon the payment of the same fee as in the case of headlights.

When the signal required by this section is given by the use of the hand and arm the intention to turn such vehicle toward the right or the left shall be indicated by extending the hand and arm horizontally from and beyond the side of the vehicle toward which the turn is to be made or by extending the hand and arm vertically with the hand pointing upward from the side opposite the direction toward which the turn is to be made, when the signal to be given is to indicate the intention to stop a vehicle or to abruptly or suddenly check its speed, such signal if given with the hand and arm shall be given by extending the hand and arm out from and beyond either side of the vehicle and pointed in a downward direction.

(o) In passing any railroad, interurban or street car while passengers are alighting from or boarding the same, vehicles shall be operated or driven on the right hand side of such cars and at a rate of speed not exceeding ten miles an hour and no portion thereof or of any load thereon shall come within six feet of the running board or steps of such cars, and shall at all times be operated with due care and caution so that the safety of such passengers shall be assured, *provided, however*, that where local authorities have plainly marked upon the surface of the highway safety zones for the protection of such passengers, vehicles shall not at any time, be operated or driven within such zones; *provided further*, that said safety zones shall only be marked at street corners or at other regularly established stations or stopping places of such railroad, or interurban, or street cars, and shall not extend beyond seven feet toward the boundary of the highway from the outer rail of such railroad, interurban or street car line.

(p) Every motor vehicle when moving in defiles, canyons, or mountain passes where the curvature of the road or highway prevents a clear view for a distance of 100 yards shall be held under control and not permitted to coast and the operator thereof in approaching curves shall give a warning of his going or other adequate signaling device.

(q) No vehicle except vehicles operated by the fire department or police department of any incorporated city and county, city or town, shall be turned so as to proceed in the opposite direction except at an intersection of the public highway. In so turning vehicles shall pass beyond and around the center of such intersection. This provision shall not apply except in a business district or closely built up territory, as such district and such territory are defined in this act.

(r) Police and fire department vehicles shall at all times be equipped with a siren and it shall be unlawful for any other vehicle to be equipped with or use such a device.

(s) Vehicles of the police or fire department of any incorporated city or county, city or town, shall in all cases while being operated as such, have right of way over all other vehicles with due regard to the safety of the public, but this provision shall not protect the driver or operator of any such vehicle or his employer or principal from the consequence of the arbitrary exercise of this right, nor shall it be construed as permitting the violation by the operators of any such vehicles of any of the provisions of section 22 of this act, except the operators of police vehicles when such vehicles are being operated in the chase or apprehension of violators of the law or of persons charged with or suspected of any such violation.

(t) Upon the approach of any police or fire department vehicle it shall be the duty of the operator of any street car, upon the sounding of a signal by such police or fire department vehicle, to stop such street car forthwith, unless at the time such street car is crossing an intersection of the public highways, in which event it shall be operated so as to clear the intersection of the highways and then stopped, and every other vehicle shall immediately be moved to a position as near as possible and parallel to the right-hand curb, and shall remain there until the police or fire department apparatus has passed such vehicle.

(u) No person shall hitch or leave standing, or cause or permit to be hitched or left standing, any animal, or leave standing or cause or permit to be left standing, any vehicle, or stop or cause or permit to be stopped any animal or vehicle at any time upon the public highway within 15 feet of any public fire hydrant located upon the public highway or sidewalk, unless such animal is under the charge of some person capable of driving the same or unless such vehicle is in the charge of some person capable of operating or driving the same.

(v) No motor or other vehicle as defined in this act shall be operated or driven on or over any public highway or bridge if the outside width of tread exceeds 112 inches or if the total outside width of the bed of said vehicle and any load thereon shall exceed 102 inches, nor shall any pleasure type automobile be operated on or over any public highway or bridge if any luggage, package, trunk, crate, box or other load carried thereon extends to the left side more than 12 inches beyond the body of such automobile; *provided, however*, that any city now or hereafter organized under freeholders' charter may permit or prohibit an increase beyond the maximum heretofore prescribed of the total outside width of the beds of vehicles and any loads thereon, where such vehicles are operated or driven and said loads are carried wholly within the limits of said city, but where any such city shall not by proper and suitable ordinance or other regulation permit or prohibit such increased width, the regulations and limitations prescribed by this act shall not apply; *and provided*, that the regulations and limitations prescribed by this act relative to the maximum widths of vehicles and their loads shall not apply to implements of husbandry temporarily drawn, propelled or moved upon the highway, *and provided, further*, that loads not exceeding 10 feet in width of loosely-piled material not crated, baled, boxed, sacked or carried otherwise than loosely in bulk, may be carried upon vehicles on the highway; *provided*, that the extreme width of such vehicles, including any loading racks thereon, shall not exceed 120 inches, as heretofore prescribed.

(w) No person shall leave standing, or cause or permit to be left standing upon the main traveled portion, or any part thereof, of any public highway, a vehicle undergoing repair or which has been stopped for the purpose of having repairs made thereon, or for the purpose of camping, *provided, however*, that this provision shall not apply to a vehicle which shall be disabled, while on such main traveled portion of the highway, in such manner and to such extent that it shall be impossible to avoid stopping such vehicle on said main traveled portion of the highway, and impracticable to remove the same therefrom until repairs shall have been made.

(x) The provisions of subdivisions (a), (b), (c), (d), (e), (f), (g), (h), (i), (j), (k), (l) of this section shall be applicable to the rider of every horse, mule or other riding animal ridden upon the public highway, to the end and effect that the same duties, rules and regulations imposed thereon upon the drivers or operators of vehicles upon the public highway, including the care to be exercised in driving or operating vehicles, the portion of the highway upon which they shall travel the right of way as between vehicles

passing or overtaking each other, or upon approaching intersections, the duty of giving way in favor of overtaking vehicles, the manner of turning at intersections and at other places upon the highway and of stopping or changing the course of the vehicles and the duties imposed upon operators or drivers of vehicles in passing railroad, interurban or street cars, shall be imposed and they are hereby imposed, upon the riders of animals upon the public highways.

(p) No person owning, or controlling the possession of, any horse, cow, mule, ass, sheep, goat, hog or other live stock shall voluntarily or negligently permit such animal to stray upon or remain upon a public highway unaccompanied by a herder or other person in charge or control thereof or shall permit the tether or any portion thereof to which such animal may be attached, to lie across or upon any public highway, and no person shall feed, pasture or camp any such live stock upon any public highway between the hours of sunset and sunrise without keeping a sufficient number of herders on continual duty to keep open the road so as to admit at all times of the ready passage of vehicles, and also keeping red lanterns or lights burning to warn the public of the presence of such stock.

(z) No pedestrian shall cross any highway except at an intersection thereof within the business district of any county, incorporated city and county, city or town as such district is defined in this act, nor shall any pedestrian cross any highway at any intersection thereof where a traffic officer is stationed, except when and as directed by such traffic officer. No person shall discharge any firearms on any public highway.

(aa) No vehicle shall be operated on any public highway unless it is so constructed as to prevent its contents from dropping, sifting, leaking, or otherwise escaping from such vehicle.

Sec. 13 Section 22 of said act, approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 22 (a) Any person operating or driving a motor or other vehicle on the public highways shall operate or drive the same in a careful and prudent manner and at a rate of speed not greater than is reasonable and proper having regard to the traffic and use of the highway, and no person shall operate or drive a motor vehicle or other vehicle on a public highway at such rate of speed as to endanger the life or limb of any person or the safety of any property, *provided*, that it shall be unlawful to operate or drive at a rate of speed in excess of thirty miles an hour, except in the day time and except when the operator or driver has a clear and uninterrupted view of the highway on which he is traveling in the direction toward which he is traveling and of all highways which intersect such highway within four hundred feet ahead of such operator or driver, to a distance of at least four hundred feet from the highway on which he is traveling and there is no person, vehicle or other object visible ahead on such highway on which such operator or driver is traveling within four hundred feet of such operator or driver or on any such intersecting highway within four hundred feet of the point of the intersection of the center lines of such highways; *provided, also*, that in no case shall any vehicle be operated at a rate of speed in excess of forty miles an hour; *and provided, further*, that in any event no person shall operate or drive a motor vehicle or other vehicle on any public highway where the territory contiguous thereto is closely built up, at a greater rate of speed than twenty miles an hour, or in the business district of any incorporated city and county, city or town, at a greater rate of speed than fifteen miles an hour, *provided, further*, that no person shall operate or drive a motor vehicle or other vehicle on any public highway at a greater rate of speed than fifteen miles an hour in approaching any steam, electric or other railway crossing at grade, or in approaching or traversing an intersecting highway, or crossing or intersection of highways or in approaching or going around corners or curves in the highway, when in any of the foregoing cases the operator's or driver's view of the road or railway traffic is obstructed, but nothing to the contrary herein notwithstanding, no person shall operate or drive a motor vehicle or other vehicle on any public highway at a greater rate of speed than ten miles an hour in traversing any steam, electric or other railway crossing at grade when the operator's or driver's view of the crossing or of any traffic on such railway within four hundred feet of such crossing is obstructed; *provided, further*, that the board of supervisors of any county and city and county within this state, and the board of trustees, city council or other governing body of every municipality within this state, within six months after the passage of this act, shall place and thereafter maintain warning signs on every public highway approaching a crossing at grade of such highway and the tracks of any railway, at a reasonable distance, not less than three hundred feet, from such crossing, and on either side thereof. Such sign shall consist of a metal disc twenty-four inches in diameter, the field enameled white, with an enameled black border line one inch wide, and with an enameled black vertical and horizontal cross-line two and one-half inches wide, the reverse side of such disc to be colored black. In each of the upper quarters shall appear in black enamel the letter "R," five inches high, three and three-quarter inches wide, lines one inch stroke. Anyone defacing, injuring, knocking down or removing any such sign shall be guilty of a misdemeanor, *provided, further*, that the maximum rate of speed over any bridge, dam, trestle, culvert, causeway or viaduct as well as the maximum rate of speed over any state highway or portion of state highway may be established by the state highway commission at less than the rate established by law, when in the judgment of said commission the safety of persons using the highway or the protection of the highway shall be promoted thereby, but whenever any

such different rate of speed is so established by said commission, the commission shall cause to be erected suitable signs to mark the location and limits of the highway to which said different rate of speed shall apply, and such signs shall be placed at a distance of not less than one hundred feet or at a greater distance than one hundred fifty feet from the highway or portion of highway or from the approaches of any bridge, dam, trestle, culvert, causeway or viaduct with respect to which such different rate of speed may be so established. In the case of a bridge, dam, trestle, culvert, causeway or viaduct, such maximum rate of speed so established by said commission shall not be less than ten miles an hour, and in the case of any other highway or portion of highway, such maximum rate of speed so established shall not be less than fifteen miles an hour.

(b) No motor or other vehicle carrying a weight in excess of nine thousand pounds, including the vehicle, shall be operated, driven, drawn or otherwise moved on any public highway or bridge at a rate of speed greater than twenty-five miles an hour; no motor or other vehicle carrying a weight in excess of twelve thousand pounds, including the vehicle, shall be operated, driven, drawn or otherwise moved on any public highway or bridge at a rate of speed greater than fifteen miles an hour, no motor or other vehicle carrying a weight in excess of twenty-four thousand pounds, including the vehicle, shall be operated, driven, drawn or otherwise moved on any public highway or bridge at a rate of speed greater than ten miles an hour, *provided, however*, that no motor vehicle or trailer equipped with tires made wholly or partly of metal shall be operated, driven, drawn or otherwise moved on any public highway or bridge at a rate of speed greater than six miles an hour, *provided, further*, that any such motor vehicle or trailer, with tires made wholly or partly of metal, may be operated, driven, drawn or otherwise moved, subject to the other provisions of this act, up to ten miles an hour, if it be equipped with springs and if the rear wheels be not less than forty-six inches in diameter, with a bearing surface of not less than eighteen inches and *provided further, however*, anything to the contrary herein notwithstanding, that no motor or other vehicle constructed or otherwise adapted for carrying loads weighing four tons or more, exclusive of such vehicle, shall be operated, driven, drawn or otherwise moved upon the public highway, whether laden or unladen, at a rate of speed exceeding fifteen miles an hour; and *provided, further*, that nothing contained in this subdivision shall apply to motor vehicles equipped with pneumatic tires.

(c) In case of any person arrested for violation of the provisions of this section, unless such person shall demand that he be taken forthwith before the most accessible magistrate, the arresting officer shall take the name and address of such person and the number of his motor vehicle and notify him in writing to appear before a designated magistrate at a time and place to be specified in such writing at least five days subsequent to the date of such notice and upon the promise in writing of such person to appear at such time and place, such officer shall forthwith release him from custody. In the event that any person arrested for any violation of the provisions of this section, demands to be or is taken forthwith after his arrest before a magistrate he shall be entitled to at least five days continuance of his case within which time to prepare to plead or prepare for trial and he shall not be required to plead or to be tried within such five days unless he waives such time in writing or in open court, *provided*, that he promises in writing, after notice in writing of the time and place for his further appearance in court to appear at such time and place. Upon the giving of such written promise or, if he refuse to give such promise, on bail fixed by the magistrate he shall thereupon be forthwith released from custody. Any person wilfully violating such promise shall be guilty of a misdemeanor regardless of the disposition of the charge upon which he was originally arrested.

(d) Limitations as to the rate of speed herein fixed shall be exclusive of all other limitations fixed by any law of this state or any political subdivision thereof. Local authorities shall have no power to enact, enforce or maintain any ordinance, rule or regulation in any way in conflict with, contrary to or inconsistent with the provisions of this act, or of any section or other subdivision thereof, and no such ordinance, rule or regulation of said local authorities heretofore or hereafter enacted shall have any force or effect, excepting, however, that (1) such powers as are now or may hereafter be vested in local authorities to enact ordinances and regulations, applicable equally and generally to all vehicles and other users of the highways, and providing for traffic or crossing officers or semaphores, to bring about the orderly passage of vehicles and other users of the public highways on certain portions thereof, where the traffic is heavy and continuous, as well as (2) the powers now or hereafter vested in local authorities to license and to regulate the operation of vehicles offered to the public for hire and to regulate the use of the highways for processions or assemblages, shall remain in full force and effect and all ordinances, rules and regulations which may have been or which may be hereafter enacted in pursuance of such powers, shall remain in full force and effect and *provided, further*, that local authorities may by general rule, ordinance or regulation, exclude vehicles from any cemetery or ground used for the burial of the dead, or exclude vehicles used solely or principally for commercial purposes from any park or part of a park system where such general rule, ordinance or regulation is applicable equally and generally to all other vehicles used for the same purpose, *provided*, that at the entrance or at each entrance if there be more than one, to such cemetery or park from which vehicles are so excluded, there shall have been posted a sign plainly

leagible from the middle of the public highway on which such cemetery or park opens, plainly indicating such exclusion and prohibition. *and provided, further,* that the local authorities of any city, town, or city and county may impose additional restrictions to those herein contained applicable to vehicles exclusively used in the carrying of merchandise or articles of freight and of a capacity in excess of one ton in weight and may designate certain streets whereon heavy laden vehicles may be excluded or declared to be "one way" streets, may, further, restrict or prohibit, the use of trailers.

Sec. 14. Section 24 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 24. (a) It shall be unlawful for any person to operate or drive a motor vehicle upon the public highway unless licensed by the department as hereinafter provided, *provided, however,* that the requirements of this section shall not apply to the operators or drivers of any implements of husbandry temporarily drawn, propelled or moved on the public highway. Before operating a motor vehicle upon the public highway, application for a license to operate such vehicle shall be made by mail or otherwise to the department upon a blank to be prepared and furnished on request by said department. To each person shall be assigned some distinguishing number or mark and the department shall issue to the licensee a certificate in such form as the department shall determine; it shall contain the distinguishing number or mark assigned to the licensee, his name, age, place of residence, business address if any, and a brief description of the licensee for the purpose of identification and such other information as the said department shall deem necessary. Every person licensed to operate motor vehicles as aforesaid, whether as chauffeur or operator, shall indorse his usual signature in the space on the license certificate provided for the purpose, immediately upon the receipt of said certificate and his license shall not be valid until the certificate is so indorsed. Licenses, to chauffeurs shall be valid during the calendar year only in which issued. Licenses issued to operators shall be valid until revoked. The department shall furnish to every chauffeur licensed a suitable metal badge with the distinguishing number assigned to him stamped thereon, without extra charge therefor, such badge to have stamped thereon the words "Registered Chauffeur No. -----, Cal." with the said license number and year of issue inserted therein. This badge shall thereafter be worn by such chauffeur, affixed to his clothing in a conspicuous place, at all times when he is operating or driving a motor vehicle upon the public highway, and the license certificate issued to each chauffeur or operator, under the provisions of this section, shall be carried by the licensee at all times when he is operating or driving a motor vehicle upon the public highway and shall be produced by him for inspection upon request of any peace officer. In case of the loss of such badge or certificate a duplicate will be issued by the department on the filing of an affidavit showing the fact of loss, and on payment of a fee of one dollar to the department in the case of a badge and fifty cents in case of a certificate. Duplicate license certificates shall be issued by the department to operators other than chauffeurs upon application therefor, whether in case of loss or otherwise, upon payment of a fee of twenty-five cents to the department. Applications for the annual renewal of licenses by chauffeurs shall be accompanied by the fee required by section 7 of this act. No chauffeur's license or badge shall be issued to any applicant under the age of eighteen years, *provided,* that it shall be unlawful for any person to cause or knowingly to permit his or her child, ward or employee to operate or drive a motor vehicle upon the public highway, whether as a chauffeur or operator, without having first obtained such license as is hereinbefore specified, *provided,* that the application to the department of a minor to operate or drive a motor vehicle, whether as chauffeur or operator, shall not be granted by the department unless the parent or parents having the custody of such applicant or the guardian of such applicant shall have joined in said application by signing the same; *and provided, further,* that any negligence of a minor, so licensed, in operating or driving a motor vehicle upon the public highway, whether as chauffeur or operator, shall be imputed to the person or persons who shall have signed the application of such minor for said license, which person or persons shall be jointly and severally liable with such minor for any damages caused by such negligence.

Sec. 15. Section 28 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 28. It shall be unlawful for any person to drive or operate, or cause to be driven or operated, upon the public highway any motor vehicle not his own, whether with or without intent to steal the same, in the absence of the owner thereof without such owner's consent; *provided,* such consent shall not be implied in any instance because of the fact that upon a previous occasion such owner had consented to the use of the same or another motor vehicle by such person. Any person violating any of the provisions of this section shall be punished by imprisonment in the state prison for not less than one year nor more than five years.

Sec. 16. Section 32 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 32. (a) Excepting as in this act otherwise provided, or where a different penalty is expressly fixed by this act, any person violating any of its provisions, or

knowingly making a false statement or knowingly concealing a material fact or otherwise committing a fraud in an application for the registration of a vehicle, or in an application for an operator's or chauffeur's license, shall be guilty of a misdemeanor, and upon conviction thereof, unless in this act otherwise provided, shall be punished by a fine not exceeding five hundred dollars or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

(b) Immediately upon receipt by the department of information concerning the conviction of any person for the violation of section 17 of this act, or concerning the third conviction within one year of any person for the violation of any of the provisions of section 22 of this act, the department shall forthwith revoke the operator's or chauffeur's license issued to such person by the department and shall issue no operator's or chauffeur's license to any such person within one year thereafter.

Upon the suspension or revocation of any chauffeur's or operator's license, the department shall demand the surrender of the license certificate, and any duplicates thereof that may have been issued, and also the license badge, if any, and it shall be unlawful for any person whose license has been suspended or revoked as herein provided to fail or neglect forthwith to surrender to the department any such certificate or badge in his possession or under his control. Upon receiving within one year verified written complaints made by one or more persons of two or more separate instances of reckless, negligent or unlawful operation of a vehicle on any public highway in this state by any person to whom the department has issued a valid unrevoked operator's or chauffeur's license the department may, in the discretion of the superintendent thereof, fix a time and place for a hearing to determine whether or not the operator's or chauffeur's license held by such person should be revoked on the ground that such person is an unfit person to be so licensed. The person so complained of shall be served with a written notice, at least ten days prior to the date of said hearing, to appear and show cause, at such hearing, why his license to operate a motor vehicle upon the public highways should not be suspended or revoked. Such hearing shall be held by the superintendent of the department or by any person or persons, not exceeding three, officers or employees of the department whom he may designate. If upon such hearing it is determined that there is good and sufficient reason therefor findings and an order shall be made by the superintendent or by the person or persons holding such hearing on his behalf to the effect that such license should be revoked. The department shall thereupon cause such person's license as an operator or chauffeur to be forthwith revoked if the findings hereinbefore provided for show or declare that such operator or chauffeur is a reckless or negligent driver or that he is incompetent or unfit to operate a motor vehicle because of mental or physical infirmities or disabilities.

If in any case the respondent shall fail to appear at the time and place fixed for any such hearing as is provided in this section, he shall be in default, and if in the opinion of the superintendent or of the person or persons holding such hearing on his behalf, there is sufficient reason therefor, the license of the respondent may be ordered revoked or suspended, whereupon the department shall upon notice of such order, revoke or suspend, as the case may be, such license.

The superintendent or the person or persons holding such hearing may summon witnesses in behalf of the state and may administer oaths and take testimony, may cause depositions to be taken, and may order the production of books, papers, agreements and documents.

The fees for the attendance and travel of witnesses shall be the same as for witnesses before the superior court, and shall be paid by the state upon demand by the department filed with the controller.

The supreme court, any district court of appeal or any superior court shall have jurisdiction, upon the application, to enforce all lawful orders of the department under this section.

(c) In addition to any or all other punishments provided in this act and imposed by the court upon any person for violation of any of the provisions of this act, the court may, in its discretion, suspend an operator's or chauffeur's license for a period of not to exceed thirty days, in which case the court shall take up the license certificate of such person together with, in case of a chauffeur, the license badge, and shall forward them to the department.

(d) Upon the expiration of the period of suspension of any license as hereinbefore in this section provided for, the department shall return to the licensee his license certificate, or in its discretion may issue to him a new certificate, and such license shall be valid for the remainder of the current calendar year, subject to the other provisions of this act; and in like manner the department shall return to any chauffeur whose license badge may have been forwarded to the department upon suspension of his license, such license badge or issue to such licensee a new badge.

SEC 17. Section 24 of said act approved May 10 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 34 There is hereby created in the state treasury a fund which shall be known as the "motor vehicle fund." All moneys received by the department under any of the provisions of this act must be paid into the state treasury within twenty-four hours after the receipt thereof and shall be deposited to the credit of

the motor vehicle fund, but if at any time such payment can not be made because of the intervention of a Sunday or a holiday then such money shall be paid into the state treasury before twelve o'clock noon of the first business day following such Sunday or holiday, *provided, however*, that there is also hereby created in the state treasury a fund which shall be known as the "transfer and operators' license fund," and the moneys received by the department for transfers and for operators' and chauffeurs' licenses shall not be credited to the motor vehicle fund but to the credit of said transfer and operators' license fund. One-half of the net receipts under this act except those credited to the transfer and operators' license fund shall be paid from the motor vehicle fund to the counties from which the moneys were received, as determined by the places of residence of the persons to whom the registration certificates are issued, and all such amounts so returned shall be paid into the road funds of the several counties receiving the same, and shall be expended by such counties exclusively in the construction and maintenance of roads, bridges and culverts in said counties respectively. In the event that any county has not established a road fund, its proportion of said net receipts shall be retained by the state until provision for such road fund has been made, and it shall then be paid over. In the months of February and August of each year the department shall make to the controller a report setting forth the gross and net receipts for the preceding six months, and thereafter the controller shall draw his warrants upon the motor vehicle fund in favor of the county treasurer of each county for the amount to which such county is entitled, *provided, nevertheless*, that the controller shall not draw such warrant in favor of any county which theretofore shall not have established a road fund or which shall be delinquent in its annual report to the state department of engineering as hereinafter required. Of the moneys in said motor vehicle fund, when such action has been authorized by the board of control, the department may draw, without at the time furnishing vouchers and itemized statements, sums not to exceed in the aggregate ten thousand dollars, said sums so drawn to be used as a revolving fund where cash advances are necessary. At the close of each fiscal year, or at any other time upon demand of the board of control, the moneys so drawn must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the board of control and by the controller. All moneys remaining in the motor vehicle fund after the expenditure herein authorized in addition to all sums that have been heretofore or that may be appropriated hereafter by the legislature for the same purpose, shall be expended under the direction of the state department of engineering for the maintenance and improvement of the state roads and highways under the jurisdiction of said department of engineering and for the maintenance and improvement of roads and highways in State parks subject to the approval of the official or officials charged by law with the management and control of such parks, such moneys to be so drawn from said motor vehicle fund for the purpose of such maintenance and improvement upon warrants executed by the state controller upon demand made by the state department of engineering, and allowed and audited by the board of control. The transfer and operators' license fund and so much of the motor vehicle fund as may be necessary is hereby appropriated to be expended by the department in carrying out the provisions of this act; *provided, however*, that there shall not be so expended out of the motor vehicle fund in any one year more than ten per cent of said fund, and *provided, further*, that the board of supervisors of each county in the state shall make an annual report to the state department of engineering not later than three months after the close of the county's fiscal year, upon forms to be provided by the state department of engineering, showing the amount of moneys received from the motor vehicle fund during the preceding fiscal year and the disposition of said moneys, specifying in such detail as may be required by said department of engineering, the roads, bridges and culverts constructed or maintained out of said moneys and the sums applied to the several items of such construction or maintenance, and *provided, further*, that whenever said report shall not have been duly filed in the manner and form hereby provided at or before the time hereinbefore specified, no further warrants shall be drawn upon the motor vehicle fund in favor of the county treasurer of such delinquent county until said report has been furnished.

SEC 38. Section 36 of said act approved May 10, 1915, amended as aforesaid is hereby amended to read as follows:

SEC 36. A full record shall be kept by every justice of the peace or police judge or court in this state of every case in which a person is charged with violation of any provision of this act, and an abstract of such record shall be sent forthwith by the justice of the peace, or police judge or court to the clerk of the county in which the justice of the peace, police judge, or other magistrate holds his court, whereupon said clerk shall forward said abstract to the department. Said abstracts shall be made upon forms prepared by the department and shall include all necessary information as to the parties to the case, the nature of the offense, the date of hearing, the plea, the judgment, the amount of the fine or forfeiture as the case may be, and every such abstract shall be certified by the justice of the peace, police judge or clerk of such police court as a true abstract of the record of the court. SEC. 9. Any person, firm or corporation may maintain an action to enjoin a continuance of any act or acts in violation of section three or section four of this act or of any order, rule or regulation of the railroad commission made or enacted by said commission pursuant to the power and authority vested in said commission by said sections of this act, and, if injured thereby, for the recovery of damages in an amount equal to three times the amount of actual damages sustained. If in such action, the court shall find that the defendant is violating section three or section four of this act, or any order, rule, or regulation of the railroad commission, made or enacted by said commission pursuant to the power and authority vested in said commission by said sections of this act, it shall enjoin the defendant from a continuance of such violation, and it shall not be necessary to allege or prove actual damage to plaintiff in addition thereto.

The legislature hereby declares that it would have passed this act, and each section, sentence, clause and phrase thereof, irrespective of the fact that any one or more other sections, sentences, clauses, or phrases be declared unconstitutional.

SEC. 12. The legislature hereby declares that the purpose of this act is to safeguard the public against the creation and perpetuation of monopolies, and to foster and encourage competition, by prohibiting unfair and discriminating practices by which fair and honest competition is destroyed. The legislature hereby further declares that food warehousemen, as defined in section one of this act, are engaged in a business, tending to monopoly, and that by reason of such monopolistic tendency and by reason of its vital connection with the distribution of public necessities, such business is clothed with a public interest and subject to public regulation and control for the public welfare as a public utility, as in this act provided. This act shall be liberally construed that its beneficial purpose may be subserved. The remedies herein prescribed are cumulative. If any conflict shall arise between this act and the public utilities act, the latter shall prevail.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr Argabrite:

We, the undersigned voters and taxpayers favor the passage of Assembly Bills Nos 350 and 493. Assembly Bill No 350 is aimed at the monstrous cruelty imposed upon animals, chiefly horses, in the moving picture industry. Assembly Bill No 493 relates to the humane treatment of poultry confined in crates for shipment. As a sanitary, humane measure it is badly needed

MRS BESSIE P. BAUER,

And 37 others.

Also:

The Current Topics Club of Ventura has unanimously endorsed the following bills before the Legislature: Community property, providing that husband and wife shall have equal rights in the community property during life and of testamentary disposition at death, providing for an increase in the State fund for elementary schools from \$15 per pupil to \$17.50 per pupil.

We hope that you will give these measures your support

Very truly,

MRS NINA BARNES, Secretary

By Mr. Kline:

At a recent meeting of the Woman's Improvement Club, Corona, California, the following resolutions were passed:

Resolved, That the Woman's Improvement Club, an organization engaged in civic work, heartily endorses the three measures initiated by the Women's Legislative Council of California and now pending before the California State Legislature, namely, Equal rights in the control, management and disposition of community property, by husband and wife; an industrial home for delinquent women; an increase in the elementary school fund of the State, and also Senate Bill No 264 and Assembly Bill No. 534, which aim to prevent the substitution of vegetable fats for butter fats in milk products; and earnestly request our representatives to vote for these measures; and be it further

Resolved, That copies of this resolution shall be spread upon the minutes of our organization and mailed to Senator S. C. Evans and Assemblyman Chester M. Kline, of our district, at Sacramento, California, and also to Mrs. A. E. Carter, president of the Women's Legislative Council of California, also at Sacramento, California, care Sacramento Hotel

Respectfully submitted

NORA W. HAMPTON, Chairman Legislative Committee
LILLIAN J. LEWIS, Chairman Public Works Committee.

By Mr. Odale:

We, the undersigned residents of Lemoore, California, believing that the enactment of a Sunday law would be a violation of the American principle of the separation of church and state, do hereby respectfully but earnestly protest against the passage of Senate Bill No. 77 and Assembly Bill No. 142, and all other such legislation

ROY ABBOTT.

And 26 others.

By Mr. Lindley:

WHEREAS, It has become the conviction of the forward-looking and thoughtful people of this section of the State that there is urgent need of a farm school suited to meet the peculiar climatic and soil conditions of southern California, therefore, be it

Resolved, By the San Diego Woman's Civic Center (membership 650), that we respectfully request our representative F. B. Lindley, to vote and work for Assembly Bill No 38, to establish a farm school at Riverside, adjoining the citrus experiment station

MRS LILLIAN PRAY PALMER, President
MRS. S. M. MARSH, Recording Secretary.

Also:

We, the undersigned voters in your district, do earnestly beg for your vote of "No" on Assembly Bill No. 347 (called the "Sanitary Code"), for the licensing and conduct of public laboratories for the diagnosis of disease and the manufacture of biologic preparations. In plain terms, this pernicious measure seeks to found vivisection hells under the patronage, protection and prestige of the State of California—under the sole supervision of the State Board of Health

We also most earnestly solicit your vote against Assembly Bill No. 114, for the creation of a Bureau of Child Hygiene, "under the State Board of Health," which means that every child in the State will be subject to compulsory inoculation or vaccination.

On the other hand, we ask for your vote of "Yes" on Assembly Bill No. 376, providing that persons desiring to bequeath all their property to humane or charitable organizations shall have the right to do so.

EXPLANATION OF VOTE.

The following explanations of votes were presented, and ordered printed in the Journal:

By Mr. Bromley:

I supported the amendments offered by Mr. White and Mr. Carter to Senate Bill No. 558, because I believed that the people of the State of California were heartily in favor of them, and I voted for the bill itself, even though the amendments as above stated were voted down, because I believe it will clarify the present primary law to a great degree.

ELMER P. BROMLEY.

By Mr. Browne, M. B.:

In voting for Senate Bill No. 558, I am doing so because I believe it the best law we can get at the present time, as it prevents a party from being disfranchised as the Democratic party was disfranchised last election. I do not endorse the principle involved in this bill, as I believe no candidate should run for any office on more than one party ticket, and that the political party which he is affiliated with.

MAURICE B. BROWNE.

By Mr. Wickham:

In voting against Senate Bill No. 558, I feel that this bill is but a makeshift to patch a very unsatisfactory primary law. By a vote of the electorate of this State

a few years ago, the people decided by over 44,000 majority that they desired to have a government in this State by political parties.

The most reputable citizens of my district in the two great political parties (the Republican and the Democratic) have requested me to oppose any measure which does not prohibit a candidate for office from being a political chameleon.

This bill is directly contrary to the views of the majority of citizens of my district. It places the nomination of candidates in certain cases further from the people than ever, thus making the Direct Primary Law a real joke.

Therefore, as a protest against make-shift legislation, and also legislation not desired by the people of this State, I have voted against said Senate Bill No. 558.

GEO. R. WICKHAM, Assemblyman Sixty-second District.

The legislature of the State of California, at its regular session commencing on the sixth day of January, A. D. 1919, two-thirds of the members elected to each of the two houses of said legislature voting in favor thereof, hereby proposes that section two of article eighteen of the constitution of the State of California be amended to read as follows:

Sec. 2 Whenever two-thirds of the members elected to each branch of the legislature shall deem it necessary to adopt a new constitution they shall recommend to the electors to vote, at the next general election, for or against a convention for that purpose, and if a majority of the electors voting at such election on the proposition for a convention shall vote in favor thereof the legislature shall, at its next session, provide by law for calling the same. PRESENTATION OF PETITIONS

The following petitions were presented, and ordered printed in the Journal:

By Mr. Fleming:

WHEREAS, There is now pending in the Legislature of the State of California in Sacramento a certain Assembly Bill No. 346, being an act to amend section 4280 of the Political Code, relating to fees and salaries of county officers; and

WHEREAS, Said bill provides that the sheriff of each county shall receive for boarding prisoners a sum not less than 50 cents per day, and that the sheriff shall receive as additional expense in transporting prisoners the sum of \$5 per diem; and

WHEREAS, Said bill has been amended by the committee to which it was referred, to insert in lieu of 50 cents per day 12 cents per meal, and to provide that the sheriff shall receive as additional expense for contingencies and cost of financing all expenses in the transportation of prisoners and insane the sum of \$5 per diem, and that the sheriff shall not be required to account for said \$5 per diem; and

WHEREAS, Under the charter of the county of Los Angeles the sheriff of Los Angeles County is now required to pay the \$5 per diem he receives from the State into the county treasury; and

WHEREAS, Nearly all of the \$5 per diem which the sheriff receives from the State in transporting prisoners and insane is profit; and

WHEREAS, The board of supervisors of the county of Los Angeles has increased the salary of the sheriff of Los Angeles County sufficiently to reimburse him for any expense incurred in transporting prisoners and insane, and not paid to him by the State; and

WHEREAS, It is the intent and purpose of the charter of the county of Los Angeles, adopted by the people thereof, that the salary of the sheriff of Los Angeles County shall be in full compensation for all services of whatever nature performed; and

WHEREAS, Under the system now existing the sheriff is not required to pay out of his own pocket any moneys in transporting prisoners and insane; and

WHEREAS, The passage of Assembly Bill No. 346, as amended and reported out of committee would increase the compensation received by the sheriff and allow him to make profit out of the transportation of prisoners and insane which, in effect, would be contrary to the will of the people of the county of Los Angeles as expressed by them in adopting the charter of said county; now, therefore, be it

Resolved, That the board of supervisors of the county of Los Angeles declare that Assembly Bill No. 346, as amended and reported out of committee, is an obnoxious and pernicious measure, and would be contrary to the will of the people of the county of Los Angeles, and direct that a notice of this resolution be immediately sent to each member of the Los Angeles County delegation in the Legislature, and the board of supervisors of Los Angeles County requests each of them to use his best efforts to see that the above bill is defeated.

A. M. McPHERRON Clerk.

By Mr. Lindley:

We, the undersigned voters in your district, at Point Loma, do earnestly beg for your vote of "No" on Assembly Bill No. 347, called the "Sanitary Code," for the licensing and conduct of public laboratories for the diagnosis of disease and the manufacture of biologic preparations. In plain terms this pernicious measure seeks to found vivisection hells under the patronage, protection and prestige of the State of California—under the sole supervision of the State Board of Health.

We also most earnestly solicit your vote against Assembly Bill No. 114, for the creation of a Bureau of Child Hygiene "under the State Board of Health," which means that every child in the State will be subject to compulsory inoculation or vaccination.

On the other hand, we ask for your vote of "Yes" on Assembly Bill No. 376, providing that persons desiring to bequeath all their property to humane or charitable organizations shall have the right to do so.

KATHERINE TINGLEY.

And 112 others

By Mr. Argabrite:

Poinsettia Club of Saticov, Ventura County, endorses the three measures initiated by the Women's Legislative Council of California, and now pending before the California State Legislature, namely: Equal rights in the control of community property, an industrial home for delinquent women, and an increase in the elementary school fund of the State, and we earnestly request our representatives to vote for these measures.

MRS. H. F. CLARK, President
MRS. ANNA C. HAWLEY, Secretary

Also:

At a meeting held March 11, 1919, the Tuesday Club of Ventura adopted the following resolution:

Resolved, That the Tuesday Club heartily endorses the three measures initiated by the Women's Legislative Council of California, and now pending before the California State Legislature, namely: Equal rights in the control management and disposition of community property, by husband and wife, an industrial home for delinquent women, and an increase in the elementary school fund of the State, and earnestly request our representatives to vote for these measures.

GERTRUDE H. BARNARD, Corresponding Secretary.

Also:

Feeling that milk control should be State wide, and that a reasonably safe, clean product should be provided for all classes, rich and poor, intelligent and ignorant alike, the Tuesday Club of Ventura, at a meeting held March 11, 1919, endorsed certain resolutions passed by the State Board of Health, expressing its disapproval of Senate Bill No. 5903 and Assembly Bill No. 851, also urging favorable action upon Senate Bill No. 204 and Assembly Bill No. 534.

STATEMENT.

I desire to express the reason for my absence from the Assembly Chamber, Wednesday, March 26, as being that, on account of the death of James McAllister, the father of my law partner, it was necessary for me to be with the family of the deceased during the hours of their greatest trouble

I regret very much that I could not be present to vote for Mrs. Dorris's bill, and would have voted for the bill had I been present

I nevertheless felt that I owed a duty to my friend to be with him for a few hours during his bereavement

J. A. BEEK, Secretary of Senate.

By H. C. STRICK, Assistant Secretary

The question being put: Shall the Assembly concur in the following Senate amendments to Assembly Bill No. 776?

AMENDMENT NUMBER ONE.

Amend title by striking out all of title beginning with the words "An act", and ending with the words "amendatory thereof", and insert in lieu thereof the following "An act relating to Coachella Valley storm water district of Riverside and Imperial counties, California, validating the formation and organization thereof, defining the manner of paying for constructing and maintaining the improvements therein, and authorizing the levying and collection of taxes and assessments therefor."

AMENDMENT NUMBER TWO

On page 1 line 16, of the printed bill, after the word "declared", insert the words "to have been and".

AMENDMENT NUMBER THREE

On page 1, line 18, of the printed bill, after the word "approved", insert the following

SEC 2 The total cost of the improvement as voted upon by the electors of the district on December 23, 1918, shall be paid from bonds authorized or to be authorized by said district. Said bonds shall be a lien upon the property of the district and the lien of said bonds shall be a preferred lien to that of any subsequent issue. Said bonds and the interest thereon shall be paid by revenue derived from an annual tax upon the real property of the district, and all the real property in the district shall be and remain liable to be taxed for such payment. The board of trustees of said storm water district shall annually during the month of August estimate the amount of money which will be needed to pay the interest and such portion of said bonds maturing prior to the succeeding August and certify such amount to the board of supervisors of Riverside county, California. Such board shall at the time of making the levy of taxes for county purposes for that year levy a tax upon the real property in said district sufficient in amount to raise the sum estimated by the board of trustees to be necessary. Said tax when levied shall be entered upon the assessment roll and collected in the same manner as the state and county taxes. When the same is collected, it shall be placed in the treasury of said Riverside county, to the credit of the bond fund of said district, and shall be used only for the purpose for which it is raised.

SEC 3 The board of trustees of said storm water district shall annually during the month of August estimate the amount of money which will be needed for the current year for maintaining and repairing the works and improvements of said district and defraying the other ordinary expenses of said district, and shall upon the first Monday of September of each year certify to the board of supervisors of the county in which said district lies, the amount of money which is needed for said purposes. Such board of supervisors shall at the time of making the levy of taxes for county purposes for that year, levy a tax upon the real property in said district sufficient in amount to raise the sum estimated by the board of trustees to be necessary. Said tax when levied shall be entered upon the assessment roll and collected in the same manner as state and county taxes. When the same is collected, it shall be placed in the treasury of the county in which said district was organized to the credit of the current expense fund of said district and shall be used only for the purpose for which it was raised. Payment shall be made from said fund in the same manner as from the improvement fund of the district.

SEC 4 The aforesaid improvements can only be made and paid for by said bonds, and the method hereinbefore prescribed for their payment is exclusive and the only taxes which can be levied by said district for any purpose are the taxes hereinbefore specified.

SEC 5 This act inasmuch as it provides for a tax levy, shall, under the provisions of section one, of article four of the constitution of the State of California, take effect immediately.

SEC 6 This act is hereby deemed and declared to be an urgency measure necessary for the immediate preservation of the public health and safety within the meaning of section one, of article four, of the constitution of the State of California, and shall take effect immediately. The facts constituting such necessity are as follows:

On December 23, 1918, the electors of the district voted in favor of bonds in the amount of three hundred thousand dollars, for the purpose of paying the cost of protecting the lands of the district from damage from storm and flood waters. The lands and property within the district are annually subject to great damage from the waters of the Whitewater river and other flood streams. Many thousands of acres are submerged, crops and improvements destroyed, railroad washed out, and the health and safety of the public thereby endangered, and during the war the capital issues committee, organized by special act of Congress, recognizing the above facts, approved and authorized the issuance of said bonds for the doing of said work. That a comprehensive plan of protection will be undertaken and that unless the whole thereof is completed before the next flood season there is grave danger that any portion then constructed will be washed out and destroyed thereby causing increased damage and danger to the property and people of the district. That it is practically impossible to do efficient work in this district during the summer months on account of excessive heat and that work must start immediately in order that the same may be completed before the next flood season. There is no other public body authorized to make the expenditures necessary to secure protection from such threatened overflow, and the protective work necessary in order to be effective must be commenced at once.

AMENDMENT NUMBER FOUR.

Amend title by striking out all of same, and insert in lieu thereof the following:

An act relating to Coachella valley storm water district of Riverside county, California, validating the formation and organization thereof, defining the manner of

paying for constructing and maintaining the improvements therein and authorizing the levying and collection of taxes and assessments therefor

SEC. 9. Section eleven of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

SEC. 11. Except as in this act otherwise provided, no person shall operate or drive, or cause to be operated or driven, a motor vehicle, or cause a trailer to be drawn by a motor vehicle, on the public highways unless such vehicle shall at all times have displayed the number plate or plates furnished for it as hereinbefore provided, in case of automobiles, each such vehicle shall display one number plate on the front and the other on the back thereof, in case of motorcycles and trailers, but one number plate shall be required to be displayed and such number plate upon motorcycles and trailers shall be at the rear thereof; in all cases such number plates shall be securely fastened to the motor vehicle or trailer so as to prevent said plates from swinging, and at a minimum distance of sixteen inches from the ground. Nothing in this act shall be construed to require the display of any number plate on other than the rear trailer, when more than one trailer is drawn by a motor vehicle. No person shall attach to, or display on, such motor or other vehicle, any number plate, or registration seal or certificate other than as assigned to it for the current year, or a fictitious, or altered number plate, registration certificate, or a number plate, or registration certificate that shall have been canceled by the department. All letters, numbers, printing, writing and other identification marks upon said plates, and certificates, shall be kept clear and distinct and free from grease,

dust or other blurring matter, so that they shall be plainly visible at all times during daylight and under artificial light in the night time, *provided*, that in case any such plate, or certificate of registration, operator's license or chauffeur's license or badge shall be lost, mutilated or shall have become illegible, the person to whom such plate, seal, certificate, license or badge shall have been furnished shall immediately apply to the department for a duplicate thereof, accompanying his application with the fee specified in section 7 of this act.

No person shall operate or drive a motor vehicle on the public highway unless such vehicle shall at all times carry in or upon it, subject to inspection by any peace officer, or employee of the department, the registration certificate furnished for it as heretofore provided, which in case of an automobile shall be affixed, in the container furnished by the department, in plain sight in the driver's compartment of the automobile and which, in case of a motorcycle, shall be carried either in plain sight affixed to said motorcycle, or in the tool bag or some other convenient receptacle attached to said motorcycle.

The registration fee required under this act to be paid upon a motor vehicle or trailer shall become delinquent in the case of any such vehicle forthwith upon the operation of the vehicle on the public highways without the registration fee required by this act first having been paid to the department, accompanied by the application for registration provided herein. It is hereby provided in addition to any and all other penalties provided by this act, that if, at the expiration of thirty days after any registration fee becomes delinquent, such fee has not been paid and registration applied for, a penalty shall be added to the amount of such fee in an amount equal to 25 per cent of the fee required by section 7 of this act and that such fee together with the amount of said penalty, shall be a lien upon the motor vehicle or trailer in regard to which said registration fee is delinquent, and the department shall have power and it is hereby made its duty to collect the said registration fee, together with the penalty, by seizure of such motor vehicle or trailer from the person in possession thereof, if any, and by the sale thereof. The seizure and sale herein authorized shall be conducted and carried out by the department in the same manner as is provided by law for the seizure and sale of personal property by the county tax collector for the collection of taxes due on said personal property, *provided, however*, that in case of annual renewal of registration, where the applicants have in all things complied with the requirements of this act and have duly applied for such annual renewal of registration before the commencement of the ensuing calendar year, accompanying their applications with the proper fees for such registration, they shall be entitled to operate said vehicles during the month of February without displaying the registration certificates of the current year, on condition that they have at all times displayed upon said vehicles the number plates assigned to said vehicles respectively together with the registration seals and certificates assigned thereto for the previous year.

SEC 10 Section 13 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 13 (a) Where there is not sufficient light within the lateral boundaries of the public highway to reveal all persons, vehicles or other substantial objects within said boundaries for a distance of at least 200 feet, and all times during the period from a half hour after sunset to a half hour before sunrise, every automobile while on the public highway shall carry at the front at least two lighted lamps, and every such automobile and every trailer, at the times and under the conditions in this section heretofore specified, shall carry at the rear a lighted lamp exhibiting a red light plainly visible, under normal atmospheric conditions, for a distance of 500 feet toward the rear and so constructed and placed that the number plate carried on the rear of such automobile or trailer shall be illuminated by a white light in such manner that the number thereon can be plainly distinguished under normal atmospheric conditions at a distance of not less than 50 feet toward the rear; *provided, however*, that where more than one trailer is attached to a motor vehicle, only the rear trailer shall be required to exhibit said light. At the times and under the conditions in this section heretofore specified, all other vehicles, except bicycles, motorcycles and motor trucks of two tons carrying capacity or over which are so governed or mechanically constructed or controlled that they can not, exceed a speed of 15 miles per hour, shall carry one or more lighted red lamps or lanterns so arranged that said red lamp or lamps shall be visible from every direction for a distance of not less than 200 feet.

(b) At the times and under the conditions in this section heretofore specified, every bicycle while on the public highway shall carry a lighted lamp visible under normal atmospheric conditions at least 300 feet in the direction toward which such bicycle is faced, and shall also carry at the rear of such bicycle a reflex mirror or a lighted lamp exhibiting a red light plainly visible under normal atmospheric conditions for a distance of at least 200 feet toward the rear.

(c) At the time and under the conditions in this section heretofore specified, every motorcycle while on the public highway shall carry at the front at least one lighted lamp which shall give a light of sufficient power and so distributed as provided in subdivision (f) and shall also carry at the rear of such motorcycles a lighted lamp, exhibiting a red light plainly visible under normal atmospheric conditions for a distance of at least 200 feet towards the rear.

(d) At the time and under the conditions in this section heretofore specified, every motor truck of two tons carrying capacity or over, which is so governed or mechanically constructed or controlled that it can not exceed a speed of 15 miles per hour, shall carry at the front at least two lighted lamps which shall be visible at least 200 feet in the direction in which the motor truck is proceeding and when the vehicle is proceeding on a street or highway not so lighted as to reveal any person, vehicle or substantial object on the street or highway straight ahead of such motor truck for a distance of at least 200 feet, such front light shall be sufficient to reveal any person, vehicle or substantial object on the road straight ahead for a distance of 75 feet or over, and shall be equipped with a tail light such as is required on other motor vehicles.

(e) In any case where a motor or other vehicle shall be loaded with any material in such a manner that any portion of such load extends toward the rear four feet or more beyond the rear of the bed or body of such vehicle, there shall be displayed at the extreme end of the load, at the times and under the conditions in this section heretofore specified, in addition to the ordinary rear or tail light heretofore required to be displayed on such vehicle a red light plainly visible under normal atmospheric conditions at least 200 feet from the rear, *provided, further*, that at other times while such vehicle is upon the highway a red flag or cloth not less than 16 inches in length nor less than 16 inches in width shall be displayed at the extreme rear end of said load as a warning signal to persons operating vehicles approaching from the rear.

(f) At the times and under the conditions in this section heretofore specified the headlights of all automobiles upon the highways shall give a light of sufficient power and so distributed as provided herein in addition to and irrespective of any other requirements concerning headlights in this section contained. The term "headlight" as used herein shall denote any light, located upon any portion of the said motor vehicle other than on the windshield, the windshield supports or top thereof, the rays of which are projected forward, except sidelights of not to exceed four candle power, *provided, further*, anything to the contrary notwithstanding, that where there is sufficient light within the lateral boundaries of the public highway within any incorporated city, town or city and county, to reveal all persons, vehicles or substantial objects within said boundaries for a distance of 200 feet, no lights shall be required to be displayed on any vehicle while the same is not in operation, providing that a wheel of such standing vehicle nearest the sidewalk is located within six inches of such sidewalk.

(g) The headlights of motor vehicles shall be so arranged, adjusted, and constructed when the car is fully loaded, that any pair of headlights under the conditions of use must produce a light which

1. When measured on a level surface on which the vehicle stands at a distance of 200 feet directly in front of the car and at some point between the said level surface and a horizontal passing through the top of the headlight reflector or lens, is not less than 1,200 apparent candle power.

2. When measured at a point 100 feet directly in front of the car, and at a height of 60 inches above the level surface on which the vehicle stands, does not exceed 2,400 apparent candle power nor shall this value be exceeded at a greater height than 60 inches.

3. When measured at a distance of 100 feet ahead of the car and seven feet or more to the left of the axis of same and at a height of 60 inches above the level surface on which the vehicle stands, does not exceed 800 apparent candle power.

(h) Any device or adjustment used in connection with a light upon a motor vehicle to enable the same to comply with the requirements of subdivision (f) hereof shall not be used upon a motor vehicle operated upon the highways of this state until the same shall have been tested as provided herein, such test shall be made by a skilled testing agency, appointed for that purpose by the superintendent of motor vehicle department and such tests shall be laboratory tests according to the following specifications:

Two pairs of samples of the device submitted shall be subject to test. In the case of front glasses the sample shall be of 9½ inches diameter when practicable.

The reflectors used in connection with the laboratory tests shall be of standard high-grade manufacture of 14-inch focal length, with clean and highly polished surfaces and as nearly truly paraboloidal in form as practicable, and as approved for this purpose by the testing agency selected by the superintendent of the motor vehicle department.

The incandescent lamps used in connection with the laboratory test shall be of standard high quality manufacture and as approved for this purpose by the testing agency selected by the superintendent of motor vehicle department.

The manufacturer of the device shall be given due notice of the date and place of test. Manufacturers' representatives present at the test shall be privileged to adjust their devices in any way which represents an ordinary and legitimate adjustment including tilting the lamps or reflectors, which can be carried out by purchasers of the device or such adjustment may be made by the laboratory expert acting on the instructions of the manufacturer. The character of the adjustments so made shall be carefully noted and stated in the report as manufacturer's adjustment.

The tests shall be as follows:

Test 1. Four-point test of pairs of samples. A pair of testing reflectors, mounted similarly to the headlamps on a car shall be set up in a dark room, or at the request of the applicant out of doors in darkness under such conditions that no light thrown or reflected from any source other than from the device being tested shall materially affect the test readings, at a distance of not less than 60 feet, nor more than 100 feet from a vertical white screen. If a testing distance of 100 feet is taken the reflectors shall be set 28 inches apart from center to center, and if a shorter testing distance is taken, the distance between reflectors shall be proportionately reduced. The axes of the lamps shall be parallel and horizontal, or as tilted in accordance with the manufacturer's adjustment. The intensity of the combined light shall then be measured with each pair of samples in turn, with the reflectors fitted with a pair of each of the following types of incandescent lamps in turn:

(1) Vacuum type, 6-8 volts, 17 wsep.

(2) Gas-filled type, 6-8 volts, 20 wsep.

The lamps shall be adjusted to give their rated candle power. Measurements shall be made at the following points at the surface of the screen

A. In the median vertical plane parallel to the lamp axes, on a level with the lamps

B. In the same plane one degree of arc below the level of the lamps.

C. In the same plane one degree of arc above the level of the lamps.

D. Four degrees of arc to the left of this plane and one degree of arc above the level.

In an acceptable device both pairs of samples shall conform to the following specifications for observed candle power. Points A and B. At least one of these points the apparent candle power shall not be less than 1,200. Point C. The apparent candle power shall not exceed 2,400. Point D. The apparent candle power shall not exceed 800. *Provided, however,* that if the test indicates that a device which is unacceptable with either of the test lamps will come within the specifications with lamps of another candle power or of the other type, the device may be passed with corresponding limitations as to the incandescent lamps to be used in connection with it.

Test 2. Complete test of single sample.

A single sample taken as an average representative of the device as manufactured shall be submitted to a complete test with a vacuum incandescent lamp of 17 candle power 6-8 volt rating. This test shall show its light distribution characteristics by actual measurements made according to recognized and exact methods.

One pair of the samples shall be retained by the testing agency for the purpose of future reference and as samples of construction and the other pair shall be returned to the office of the superintendent of the motor vehicle department.

The report of the tests shall be rendered in duplicate to the superintendent of the motor vehicle department, and shall be signed or initialed not only by the expert making the test, but also by an executive officer of the institution making the test.

It shall include a statement by the testing agency or the testing official as to whether or not the device when properly applied substantially complies with the requirements of section 13 of the California Motor Vehicle Act

(1) The superintendent of the motor vehicle department shall immediately upon the completion of the tests made as herein provided, prepare a written report of the results of such tests and transmit a copy thereof to the clerk of each county within the State of California, who shall thereupon immediately file such report. A copy shall also be sent to the city, town or county traffic departments, whose duty it is to enforce the law. The superintendent of the motor vehicle department shall endorse upon such report the statement of the testing agency or the testing officials as to whether or not the said device when properly applied, substantially complies with the requirements of section 13 of the California Motor Vehicle Act

(2) It shall be unlawful for any device to be used in connection with the headlight upon a motor vehicle to enable the same to comply with the provisions of subdivision (f) hereof unless such device shall have been first tested as provided in subdivision (b) hereof, and the testing agency shall have reported that such device, when properly applied, substantially complies with the requirements of section 13 of the California Motor Vehicle Act and such reports shall have been incorporated in the said report of the said superintendent of the motor vehicle department and a copy thereof filed in the office of the clerk of the county in which said device is used and a copy sent to city, town or county traffic departments whose duty it is to enforce the law

(3) Any person, firm or corporation may submit to the superintendent of motor vehicle department a device for controlling the front lights of motor vehicles, so that they shall comply with the provisions of this section, together with an application that such device be tested as prescribed by this section. Such applicant shall pay to the motor vehicle department a fee of \$50. Thereupon the superintendent of motor vehicle department shall upon notice to the applicant submit such device to the testing agency appointed for this purpose as heretofore provided with the request that it be tested as to its compliance with the provisions of this section. Upon notice from such testing agency that such test has been made and that such device, when

properly applied, substantially complies with the provisions of this section, and specifying the maximum candle power to be used therewith, the superintendent of motor vehicle department shall issue a certificate to the applicant describing the device, certifying that such test has been made, that the device, when applied, complies with the provisions of this section and prescribing the said maximum candle power to be used therewith. All fees paid into the department with said applications shall be paid into the state treasury and deposited in a fund to be known as the "testing fee fund," and the moneys in said fund are hereby appropriated, or so much thereof as may be necessary to meet the expenses of the test provided for in this section, and the balance thereof, if any, after meeting all expenses incurred in connection with said test shall be paid into the motor vehicle fund.

(1) The term "spotlights" as used herein shall denote any light fastened to the windshield, the windshield support or top of a motor vehicle, the rays of which are projected forward, except sidelights of not to exceed four candle power.

All spotlights used upon motor vehicles shall be so constructed or arranged that no portion of the main, substantially parallel beam of light when measured 100 feet or more ahead of said lights shall rise or shall be capable of being raised from the driver's seat, to more than 42 inches above the level surface upon which the vehicle stands directly ahead of such vehicle.

SEC. 11. Section 17 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 17. No person who is under the influence of intoxicating liquor shall operate or drive a motor or other vehicle on any public highway within this state. Any person violating the provisions of this section shall be punished by imprisonment in the county jail for not less than six months nor more than one year or by imprisonment in the state prison for not less than one or more than three years or by a fine of not less than \$500 nor more than \$5,000.

SEC. 12. Section 20 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 20. (a) The driver or operator of any vehicle in or upon any public highway shall drive or operate such vehicle in a careful manner with due regard for the safety and convenience of pedestrians and of all other vehicles or traffic upon such highway, and wherever practicable shall travel on the right-hand side of such highway. Two vehicles which are passing each other in opposite directions shall have the right of way, and no other vehicle to the rear of either of such two vehicles shall pass or attempt to pass such two vehicles. On all occasions the driver or operator of any vehicle in or upon any public highway shall travel upon the right half of such highway unless the road ahead on the left-hand side is clear and unobstructed for at least 100 yards ahead and in all cases while crossing an intersecting highway. For the purposes of this section and its subdivisions, an animal or animals attached to any conveyance shall, with such conveyance, be deemed to constitute one vehicle.

(b) Vehicles proceeding in opposite directions shall pass each other to the right, each giving to the other one-half the road as nearly as possible.

(c) Vehicles overtaking other vehicles proceeding in the same direction shall pass to the left thereof and shall not again drive to the right until reasonably clear of such overtaken vehicle.

(d) It shall be the duty of the driver, rider or operator of a vehicle about to be overtaken and passed to give way to the right in favor of the overtaking vehicle, on suitable and audible signal being given by or on behalf of the operator, driver or other person in charge and control of such overtaking vehicle if such overtaking vehicle be a motor vehicle.

(e) Vehicles must be operated so as to allow a safe distance between such vehicles and any persons, vehicles or animals preceding them upon the highway, and outside of the business district of any county, incorporated city and county, city or town, contiguous to a public highway as such business district is defined in this act, no vehicle shall, while in motion, be closer than 15 feet to any vehicle, person or animal in front thereof.

(f) Excepting where controlled by such traffic ordinances or regulations as are permitted under this act the operator of a vehicle shall yield the right of way at the intersection of their paths to a vehicle approaching from the right unless such vehicle approaching from the right is further from the point of the intersection of their paths than such first named vehicle.

(g) Any vehicle traveling on a public highway which is divided longitudinally by a parkway or an isle of safety, shall keep to the right of such parkway or isle of safety unless otherwise directed by the provisions of any ordinance, rule or regulation of competent local authorities.

(h) It shall be the duty of the person operating or in charge of an overtaking vehicle to sound audible and suitable signal before passing a vehicle proceeding in the same direction.

(i) All vehicles approaching an intersection of a public highway, with the intention of turning thereat shall in turning to the right keep to the right of the center of such intersection, and in turning to the left shall run beyond the center of such intersection, passing to the right thereof, before turning such vehicle toward the left. For the purposes of this subdivision the "center of such intersection" shall be held to mean the meeting point of the medial lines of the two highways traversed by the vehicle making the turn.

(j) In all passing and overtaking such assistance shall be given by the occupants of each vehicle respectively to the other as the circumstances shall reasonably demand in order to obtain clearance and avoid accidents, every person having control or charge of any motor vehicle or other vehicle upon any public highway and approaching any vehicle drawn by a horse or horses, or any horse upon which any person is riding, shall operate, manage and control such motor vehicle or other vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses and to insure the safety and protection of any person riding or driving the same, and if such horse or horses appear frightened the person in control of such motor vehicle or other vehicle shall reduce its speed, and if requested by signal or otherwise by the driver or rider of such horse or horses shall not proceed further toward such animal or animals unless such movement be necessary to avoid accident or injury, until such animal or animals be under the control of the driver or rider thereof.

(k) The operator of any vehicle shall not operate or drive the same so as to pass or overtake any other vehicle going in the same direction at any street intersection unless directed so to do by a traffic or police officer.

(l) The person in control of any vehicle moving slowly along and upon any public highway shall keep such vehicle as closely as practicable to the right-hand boundary of the highway, allowing more swiftly moving vehicles reasonably free passage to the left.

(m) No person shall operate or drive any vehicle that is so covered, loaded or constructed as to obscure the driver's view of the highway to the rear, nor any vehicle which is so covered, loaded or constructed that any portion thereof to the rear of the driver projects more than twelve inches beyond the extreme left side of the driver's seat, unless there is placed on said vehicle a mirror so located as to reflect to the driver a view of the highway for at least 200 feet behind such vehicle.

(n) The person in charge of any vehicle in or upon any public highway, before turning, stopping, or changing the course of such vehicle, and before turning such vehicle when starting the same, shall see first that there is sufficient space for such movement to be made in safety, and if the movement or operation of other vehicles may reasonably be affected by such turning, stopping or changing of course, shall give plainly visible signal to the persons operating, driving or in charge of such vehicles of his intention so to turn, stop, or change his course, either by the use of his hand and arm, which shall be visible from the rear, or by the use of a mechanical or electrical device. Any such device shall upon application to the motor vehicle department be tested and certified as adequate to give the signal herein required, in the same manner and upon the payment of the same fee as in the case of headlights.

When the signal required by this section is given by the use of the hand and arm the intention to turn such vehicle toward the right or the left shall be indicated by extending the hand and arm horizontally from and beyond the side of the vehicle toward which the turn is to be made or by extending the hand and arm vertically with the hand pointing upward from the side opposite the direction toward which the turn is to be made, when the signal to be given is to indicate the intention to stop a vehicle or to abruptly or suddenly check its speed, such signal if given with the hand and arm shall be given by extending the hand and arm cut from and beyond either side of the vehicle and pointed in a downward direction.

(o) In passing any railroad, interurban or street car while passengers are alighting from or boarding the same, vehicles shall be operated or driven on the right-hand side of such cars and at a rate of speed not exceeding ten miles an hour and no portion thereof or of any load thereon shall come within six feet of the running board or steps of such cars, and shall at all times be operated with due care and caution so that the safety of such passengers shall be assured, *provided, however*, that where local authorities have plainly marked upon the surface of the highway safety zones for the protection of such passengers, vehicles shall not, at any time, be operated or driven within such zones, *provided, further*, that said safety zones shall only be marked at street corners or at other regularly established stations or stopping places of such railroad or interurban, or street cars, and shall not extend beyond seven feet toward the boundary of the highway from the outer rail of such railroad, interurban or street car line.

(p) Every motor vehicle when moving in defiles, canyons, or mountain passes where the curvature of the road or highway prevents a clear view for a distance of 100 yards shall be held under control and not permitted to coast and the operator thereof in approaching curves shall give warning of his going or other adequate signaling device.

(q) No vehicle except vehicles operated by the fire department or police department of any incorporated city and county, city or town, shall be turned so as to proceed in the opposite direction except at an intersection of the public highway. In so turning vehicles shall pass beyond and around the center of such intersection. This provision shall not apply except in a business district or closely built up territory, as such district and such territory are defined in this act.

(r) Police and fire department vehicles shall at all times be equipped with a siren and it shall be unlawful for any other vehicle to be equipped with or use such a device.

(s) Vehicles of the police or fire department of any incorporated city or county, city or town, shall in all cases while being operated as such, have right of way over all other vehicles with due regard to the safety of the public, but this provision shall not protect the driver or operator of any such vehicle or his employer or principal from the consequence of the arbitrary exercise of this right, nor shall it be construed as permitting the violation by the operators of any such vehicles of any of the provisions of section 22 of this act, except the operators of police vehicles when such vehicles are being operated in the chase or apprehension of violators of the law or of persons charged with or suspected of any such violation.

(t) Upon the approach of any police or fire department vehicle it shall be the duty of the operator of any street car upon the sounding of a signal by such police or fire department vehicle, to stop such street car forthwith, unless at the time such street car is crossing an intersection of the public highways, in which event it shall be operated so as to clear the intersection of the highways and then stopped, and every other vehicle shall immediately be moved to a position as near as possible and parallel to the right-hand curb, and shall remain there until the police or fire department apparatus has passed such vehicle.

(u) No person shall hitch or leave standing or cause or permit to be hitched or left standing, any animal, or leave standing or cause or permit to be left standing, any vehicle, or stop or cause or permit to be stopped any animal or vehicle at any time upon the public highway within 15 feet of any public fire hydrant located upon the public highway or sidewalk unless such animal is under the charge of some person capable of driving the same or unless such vehicle is in the charge of some person capable of operating or driving the same.

(v) No motor or other vehicle as defined in this act shall be operated or driven on or over any public highway or bridge if the outside width of tread exceeds 112 inches or if the total outside width of the bed of said vehicle and any load thereon shall exceed 102 inches, not shall any pleasure type automobile be operated on or over any public highway or bridge if any luggage, package, trunk, crate, box or other load carried thereon extends to the left side more than 12 inches beyond the body of such automobile, *provided, however*, that any city now or hereafter organized under freeholders' charter may permit or prohibit an increase beyond the maximum hereinbefore prescribed of the total outside width of the beds of vehicles and any loads thereon, where such vehicles are operated or driven and said loads are carried wholly within the limits of said city, but where any such city shall not by proper and suitable ordinance or other regulation permit or prohibit such increased width, the regulations and limitations prescribed by this act shall not apply; *and provided*, that the regulations and limitations prescribed by this act relative to the maximum widths of vehicles and their loads shall not apply to implements of husbandry temporarily drawn, propelled or moved upon the highway, *and provided further* that loads not exceeding 10 feet in width of loosely-piled material not crated, baled, boxed, sacked or carried otherwise than loosely in bulk, may be carried upon vehicles on the highway, *provided*, that the extreme width of such vehicles, including any loading racks thereon, shall not exceed 120 inches, as hereinbefore prescribed.

(w) No person shall leave standing, or cause or permit to be left standing upon the main traveled portion, or any part thereof, of any public highway, a vehicle undergoing repair, or which has been stopped for the purpose of having repairs made thereon, or for the purpose of camping; *provided, however*, that this provision shall not apply to a vehicle which shall be disabled, while on such main traveled portion of the highway in such manner and to such extent that it shall be impossible to avoid stopping such vehicle on said main traveled portion of the highway, and impracticable to remove the same therefrom until repairs shall have been made.

(x) The provisions of subdivisions (a), (b), (c), (d), (e), (f), (g), (h), (i) of this section shall be applicable to the rider of every horse, mule or other riding animal ridden upon the public highway, to the end and effect that the same duties, rules and regulations imposed thereon upon the drivers or operators of vehicles upon the public highway, including the care to be exercised in driving or operating vehicles, the portion of the highway upon which they shall travel, the right of way as between vehicles passing or overtaking each other, or upon approaching intersections, the duty of giving way in favor of overtaking vehicles, the manner of turning at intersections and at other places upon the highway and of stopping or changing the course of the vehicles and the duties imposed upon operators or drivers of vehicles in passing railroad, interurban or street cars, shall be imposed, and they are hereby imposed, upon the riders of animals upon the public highways.

(y) No person owning or controlling the possession of, any horse, cow, mule, ass, sheep, goat, hog or other live stock, shall voluntarily or negligently permit such animal to stray upon or remain upon a public highway unaccompanied by a herder or other person in charge or control thereof or shall permit the tether or any portion thereof to which such animal may be attached to be across or upon any public highway, and no person shall feed, pasture or camp any such live stock upon any public highway between the hours of sunset and sunrise without keeping a sufficient number of herders on continual duty to keep open the road so as to admit at all times of the ready passage of vehicles, and also keeping red lanterns or lights burning to warn the public of the presence of such stock.

(2) No pedestrian shall cross any highway except at an intersection thereof within the business district of any county, incorporated city and county, city or town as such district is defined in this act, nor shall any pedestrian cross any highway at any intersection thereof where a traffic officer is stationed, except when and as directed by such traffic officer. No person shall discharge any firearms on any public highway.

(aa) No vehicle shall be operated on any public highway unless it is so constructed as to prevent its contents from dropping, sifting, leaking, or otherwise escaping from such vehicle.

Sec 13. Section 22 of said act, approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec 22. (a) Any person operating or driving a motor or other vehicle on the public highways shall operate or drive the same in a careful and prudent manner and at a rate of speed not greater than is reasonable and proper, having regard to the traffic and use of the highway, and no person shall operate or drive a motor vehicle or other vehicle on a public highway at such rate of speed as to endanger the life or limb of any person or the safety of any property, *provided*, that it shall be unlawful to operate or drive at a rate of speed in excess of thirty miles an hour, except in the day time and except when the operator or driver has a clear and uninterrupted view of the highway on which he is traveling in the direction toward which he is traveling and of all highways which intersect such highway within four hundred feet ahead of such operator or driver, to a distance of at least four hundred feet from the highway on which he is traveling and there is no person, vehicle or other object visible ahead on such highway on which such operator or driver is traveling within four hundred feet of such operator or driver or on any such intersecting highway within four hundred feet of the point of the intersection of the center lines of such highways, *provided, also*, that in no case shall any vehicle be operated at a rate of speed in excess of forty miles an hour, *and provided, further*, that in any event no person shall operate or drive a motor vehicle or other vehicle on any public highway where the territory contiguous thereto is closely built up, at a greater rate of speed than twenty miles an hour, or in the business district of any unincorporated city and county, city or town, at a greater rate of speed than fifteen miles an hour; *provided, further*, that no person shall operate or drive a motor vehicle or other vehicle on any public highway at a greater rate of speed than fifteen miles an hour in approaching any steam, electric or other railway crossing at grade, or in approaching or traversing an intersecting highway, or crossing or intersection of highways, or in approaching or going around corners or curves in the highway, when in any of the foregoing cases the operator's or driver's view of the road or railway traffic is obstructed, but anything to the contrary herein notwithstanding, no person shall operate or drive a motor vehicle or other vehicle on any public highway at a greater rate of speed than ten miles an hour in traversing any steam, electric or other railway crossing at grade when the operator's or driver's view of the crossing or of any traffic on such railway within four hundred feet of such crossing is obstructed, *provided, further*, that the board of supervisors of any county and city and county within this state, and the board of trustees, city council or other governing body of every municipality within this state, within six months after the passage of this act, shall place and thereafter maintain warning signs on every public highway approaching a crossing at grade of such highway and the tracks of any railway, at a reasonable distance, not less than three hundred feet, from such crossing, and on either side thereof. Local authorities shall have no power to enact, enforce or maintain any ordinance, rule or regulation in any way in conflict with, contrary to or inconsistent with the provisions of this act, or of any section or other subdivision thereof, and no such ordinance, rule or regulation of said local authorities heretofore or hereafter enacted shall have any force or effect, excepting, however, that (1) such powers as are now or may hereafter be vested in local authorities to enact ordinances and regulations, applicable equally and generally to all vehicles and other users of the highways, and providing for traffic or crossing officers or semaphores, to bring about the orderly passage of vehicles and other users of the public highways on certain portions thereof, where the traffic is heavy and continuous, as well as (2) the powers now or hereafter vested in local authorities to license and to regulate the operation of vehicles offered to the public for hire, and to regulate the use of the highways for processions or assemblages, shall remain in full force and effect, and all ordinances, rules and regulations which may have been or which may be hereafter enacted in pursuance of such powers, shall remain in full force and effect, *and provided, further*, that local authorities may by general rule, ordinance or regulation exclude vehicles from any cemetery or ground used for the burial of the dead, or exclude vehicles used solely or principally for commercial purposes from any park or part of a park system where such general rule, ordinance, or regulation is applicable equally and generally to all other vehicles used for the same purpose, *provided*, that at the entrance, or at each entrance if there be more than one, to such cemetery or park from which vehicles are so excluded, there shall have been posted a sign plainly legible from the middle of the public highway on which such cemetery or park opens, plainly indicating such exclusion and prohibition; *and provided, further*, that the local authorities of any city, town, or city and county may impose additional restrictions to those herein contained applicable to vehicles exclusively used in the carrying of merchandise or articles of freight and of a capacity in excess of one ton in weight and may designate certain streets wherein heavy laden vehicles may be excluded or declared to be 'one way' streets, may, further, restrict or prohibit, the use of trailers.

In case of the loss of such badge or certificate a duplicate will be issued by the department on the filing of an affidavit showing the fact of loss, and on payment of a fee of one dollar to the department in the case of a badge and fifty cents in case of a certificate. Duplicate license certificates shall be issued by the department to operators other than chauffeurs upon application therefor, whether in case of loss or otherwise, upon payment of a fee of twenty-five cents to the department. Applications for the annual renewal of licenses by chauffeurs shall be accompanied by the fee required by section 7 of this act. No chauffeur's license or badge shall be issued to any applicant under the age of eighteen years, *provided* that it shall be unlawful for any person to cause or knowingly to permit his or her child, ward or employee to operate or drive a motor vehicle upon the public highway, whether as a chauffeur or operator, without having first obtained such license as is heretofore specified. *provided*, that the application to the department of a minor to operate or drive a motor vehicle, whether as chauffeur or operator, shall not be granted by the department unless the parent or parents having the custody of such applicant or the guardian of such applicant shall have joined in said application by signing the same, and *provided, further*, that any negligence of a minor, so licensed, in operating or driving a motor vehicle upon the public highway, whether as chauffeur or operator, shall be imputed to the person or persons who shall have signed the application of such minor for said license, which person or persons shall be jointly and severally liable with such minor for any damages caused by such negligence.

Any person violating any of the provisions of this section shall be punished by imprisonment in the state prison for not less than one year nor more than five years.

SEC. 16. Section 32 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

SEC. 32. (a) Excepting as in this act otherwise provided, or where a different penalty is expressly fixed by this act, any person violating any of its provisions or knowingly making a false statement or knowingly concealing a material fact or otherwise committing a fraud in an application for the registration of a vehicle, or in an application for an operator's or chauffeur's license, shall be guilty of a misdemeanor, and upon conviction thereof, unless in this act otherwise provided, shall be punished by a fine not exceeding five hundred dollars or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

(b) Immediately upon receipt by the department of information concerning the conviction of any person for the violation of section 17 of this act, or concerning the third conviction within one year of any person for the violation of any of the provisions of section 22 of this act, the department shall forthwith revoke the operator's or chauffeur's license issued to such person by the department and shall issue no operator's or chauffeur's license to any such person within one year thereafter.

Upon the suspension or revocation of any chauffeur's or operator's license, the department shall demand the surrender of the license certificate, and any duplicates thereof that may have been issued, and also the license badge, if any, and it shall be

unlawful for any person whose license has been suspended or revoked as herein provided to fail or neglect forthwith to surrender to the department any such certificates or badge in his possession or under his control. Upon receiving within one year verified written complaints made by one or more persons of two or more separate instances of reckless, negligent or unlawful operation of a vehicle on any public highway in this state by any person to whom the department has issued a valid unrevoked operator's or chauffeur's license the department may, in the discretion of the superintendent thereof, fix a time and place for a hearing to determine whether or not the operator's or chauffeur's license held by such person should be revoked on the ground that such person is an unfit person to be so licensed. The person so complained of shall be served with a written notice, at least ten days prior to the date of said hearing, to appear and show cause, at such hearing, why his license to operate a motor vehicle upon the public highways should not be suspended or revoked. Such hearing shall be held by the superintendent of the department or by any person or persons, not exceeding three, officers or employees of the department whom he may designate. If upon such hearing it is determined that there is good and sufficient reason therefor findings and an order shall be made by the superintendent or by the person or persons holding such hearing on his behalf to the effect that such license should be revoked. The department shall thereupon cause such person's license as an operator or chauffeur to be forthwith revoked if the findings hereinbefore provided for show or declare that such operator or chauffeur is a reckless or negligent driver or that he is incompetent or unfit to operate a motor vehicle because of mental or physical infirmities or disabilities.

If in any case the respondent shall fail to appear at the time and place fixed for any such hearing as is provided in this section, he shall be in default, and if in the opinion of the superintendent or of the person or persons holding such hearing on his behalf there is sufficient reason therefor, the license of the respondent may be ordered revoked or suspended, whereupon the department shall upon notice of such order, revoke or suspend, as the case may be, such license.

The superintendent or the person or persons holding such hearing may summon witnesses in behalf of the state and may administer oaths and take testimony, may cause depositions to be taken, and may order the production of books, papers, agreements and documents.

The fees for the attendance and travel of witnesses shall be the same as for witnesses before the superior court, and shall be paid by the state upon demand by the department filed with the controller.

The supreme court, any district court of appeal or any superior court shall have jurisdiction, upon the application, to enforce all lawful orders of the department under this section.

(c) In addition to any or all other punishments provided in this act and imposed by the court upon any person for violation of any of the provisions of this act, the court may, in its discretion, suspend an operator's or chauffeur's license for a period of not to exceed thirty days, in which case the court shall take up the license certificate of such person together with, in case of a chauffeur, the license badge, and shall forward them to the department.

(d) Upon the expiration of the period of suspension of any license as hereinbefore in this section provided for, the department shall return to the licensee his license certificate, or in its discretion may issue to him a new certificate and such license shall be valid for the remainder of the current calendar year, subject to the other provisions of this act and in like manner the department shall return to any chauffeur whose license badge may have been forwarded to the department upon suspension of his license, such license badge or issue to such licensee a new badge.

SEC. 17. Section 34 of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

SEC. 34. There is hereby created in the state treasury a fund which shall be known as the "motor vehicle fund." All moneys received by the department under any of the provisions of this act must be paid into the state treasury within twenty-four hours after the receipt thereof and shall be deposited to the credit of the motor vehicle fund, but if at any time such payment can not be made because of the intervention of a Sunday or a holiday, then such money shall be paid into the state treasury before twelve o'clock noon of the first business day following such Sunday or holiday, provided, however, that there is also hereby created in the state treasury a fund which shall be known as the "transfer and operators' license fund," and the moneys received by the department for transfers and for operators' and chauffeurs' licenses shall not be credited to the motor vehicle fund but to the credit of said transfer and operators' license fund. One-half of the net receipts under this act except those credited to the transfer and operators' license fund shall be paid from the motor vehicle fund to the counties from which the moneys were received, as determined by the places of residence of the persons to whom the registration certificates are issued, and all such amounts so returned shall be paid into the road funds of the several counties receiving the same, and shall be expended by such counties exclusively in the construction and maintenance of roads, bridges and culverts in said counties respectively. In the event that any county has not established a road fund, its proportion of said net receipts shall be retained by

the state until provision for such road fund has been made, and it shall then be paid over. In the months of February and August of each year the department shall make to the controller a report setting forth the gross and net receipts for the preceding six months, and thereafter the controller shall draw his warrants upon the motor vehicle fund in favor of the county treasurer of each county for the amount to which such county is entitled; *provided, nevertheless*, that the controller shall not draw such warrant in favor of any county which theretofore shall not have established a road fund or which shall be delinquent in its annual report to the state department of engineering as hereinafter required. Of the moneys in said motor vehicle fund, when such action has been authorized by the board of control, the department may draw, without at the time furnishing vouchers and itemized statements, sums not to exceed in the aggregate ten thousand dollars, said sums so drawn to be used as a revolving fund where cash advances are necessary. At the close of each fiscal year, or at any other time upon demand of the board of control, the moneys so drawn must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the board of control, and by the controller. All moneys remaining in the motor vehicle fund after the expenditure herein authorized, in addition to all sums that have been heretofore or that may be appropriated hereafter by the legislature for the same purpose, shall be expended under the direction of the state department of engineering for the maintenance and improvement of the state roads and highways under the jurisdiction of said department of engineering, and for the maintenance and improvement of roads and highways in state parks subject to the approval of the official or officials charged by law with the management and control of such parks, such moneys to be so drawn from said motor vehicle fund for the purpose of such maintenance and improvement upon warrants executed by the state controller upon demand made by the state department of engineering, and allowed and audited by the board of control. The transfer and operators' license fund and so much of the motor vehicle fund as may be necessary is hereby appropriated to be expended by the department in carrying out the provisions of this act; *provided, however*, that there shall not be so expended out of the motor vehicle fund in any one year more than ten per cent of said fund, *and provided, further*, that the board of supervisors of each county in the state shall make an annual report to the state department of engineering not later than three months after the close of the county's fiscal year, upon forms to be provided by the state department of engineering, showing the amount of moneys received from the motor vehicle fund during the preceding fiscal year and the disposition of said moneys, specifying in such detail as may be required by said department of engineering, the roads, bridges and culverts constructed or maintained out of said moneys and the sums applied to the several items of such construction or maintenance, *and provided, further*, that whenever said report shall not have been duly filed in the manner and form hereby provided at or before the time hereinbefore specified, no further warrants shall be drawn upon the motor vehicle fund in favor of the county treasurer of such delinquent county until said report has been furnished.

SEC. 18. Section 36 of said act approved May 10, 1915, amended as aforesaid, is hereby amended to read as follows.

SEC. 36. A full record shall be kept by every justice of the peace or police judge or court in this state of every case in which a person is charged with violation of any provision of this act, and an abstract of such record shall be sent forthwith by the justice of the peace, or police judge or court to the clerk of the county in which the justice of the peace, police judge, or other magistrate holds his court, whereupon said clerk shall forward said abstract to the department. Said abstracts shall be made upon forms prepared by the department and shall include all necessary information as to the parties to the case, the nature of the offense, the date of hearing, the plea, the judgment, the amount of the fine or forfeiture as the case may be, and every such abstract shall be certified by the justice of the peace, police judge or clerk of such police court as a true abstract of the record of the court. Each clerk of any court of record of this state shall also, within ten days after any final judgment of conviction of any violation of any of the provisions of this act, send to the department a certified copy of such judgment of conviction, together with any other information concerning said conviction required by said department. The said department shall keep such records in its office, and they shall be open to the inspection of any person during reasonable business hours.

Failure, refusal or neglect to comply with any of the provisions of this section shall constitute misconduct in office and shall be ground for removal therefrom.

SEC. 10½. Section fifteen of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 15. (a) Other than on vehicles actually engaged at the time in construction or repair work on public highways, no tire on any motor or other vehicle operated on or over any public highway or bridge shall have on its periphery any block, stud, flange, cleat, ridge, bead or any other protuberance of metal or wood which projects beyond the tread or traction surface of the tire, but this section shall not be so construed as to prohibit the use of tire chains of reasonable proportions on motor vehicles when required for safety because of snow, ice, or other conditions tending to cause such motor vehicle to slide or skid; *provided, however*, that traction engines or tractors the propulsive power of which is exerted not through wheels resting upon the ground but by means of a flexible band or chain, known as a movable track, may be operated upon the public highways with transverse corrugations upon the periphery of said movable tracks, on condition that a permit shall first have been obtained as hereinafter in this section provided.

(b) No motor or other vehicle shall be operated on or over any public highway or bridge, nor shall any object be moved over or upon any public highway or bridge on wheels, rollers, or otherwise, except when transported in or upon vehicles running exclusively on stationary rails or tracks, in excess of a total weight, including load, of thirty thousand pounds, when said motor or other vehicle or contrivance is equipped with four wheels running on the highway, or in excess of a total weight, including load of forty thousand pounds when said motor or other vehicle or contrivance shall be equipped with six wheels running on the highway and with three axles not less than ninety-six inches apart without first obtaining a permit as hereinafter in this section provided.

(c) No motor or other vehicle or other object, or contrivance for moving loads, except as hereinafter otherwise provided, shall be operated or moved upon or over any public highway or bridge, the weight of which resting upon the surface of said highway or bridge exceeds eight hundred pounds upon any inch of width of tire, when said vehicle is equipped with tires made of other material than metal, and no motor or other vehicle, object, or contrivance for moving loads shall be operated or moved upon or over any public highway or bridge the weight of which resting upon the surface of said highway or bridge exceeds six hundred pounds upon any inch of width of tire, roller, wheel or other object supported on the surface thereof when such tires or the rolling surface of such rollers, wheels or other objects are made in whole or in part of metal, without first obtaining a permit as hereinafter in this section provided, *provided, however*, that traction engines or tractors the propulsive power of which is exerted not through wheels resting upon the ground but by means of a flexible band or chain, known as a movable track, shall not be subject to the

foregoing limitations upon permissible weights per inch of width of tire if the portions of the movable tracks in contact with the surface of the highway present plane surfaces; *and provided, further*, that cities heretofore or hereafter organized under freeholders' charters may permit or prohibit the increase, beyond the maximum weight per inch of width of tire hereinabove prescribed, of the weight of loads carried within the limits of such cities in or upon metal-tired vehicles drawn by muscular power, but where any such city has not by proper and suitable ordinance or other regulation permitted or prohibited such increase of maximum weight of loads, the regulations and limitations prescribed by this act shall not apply.

The supervisors of any county shall have power to require a lighter load on county roads in their respective counties. Any person violating the provisions of this subsection shall be guilty of a misdemeanor and is liable to a penalty of twenty dollars for each full ton in excess of the limitation herein imposed, and any peace officer making the arrest of the owner or driver of any vehicle violating the provisions of this subsection shall keep said vehicle with its load in his custody until such time as said penalty shall have been paid, *provided*, that the owner or driver of any such vehicle may give to said peace officer a bond in favor of the State of California in case of state highways, and in the name of the county in which the offense has occurred in the case of county roads, conditioned to secure the payment of said penalty within the time prescribed in said bond. Furthermore, any peace officer may require the owner or the driver to drive any such vehicle to the nearest public scales to be designated by such peace officer for the purpose of establishing the weight and the load of any such vehicle.

(d) No motor vehicle shall be operated or driven over any public highway or bridge drawing or having attached thereto more than two trailers; *provided*, that all four-wheeled trailers excepting light camp trailers shall be equipped with suitable brakes.

(e) Anything to the contrary herein notwithstanding, upon application in writing to the state department of engineering, said department of engineering in its discretion may issue a special permit to the owner or operator of any vehicle allowing heavier or wider loads than hereinabove in this section or elsewhere in this act permitted to be moved or carried over and on the public highways and bridges, or allowing more than two trailers to be drawn by a motor vehicle; and may also issue such special permit to increase the permissible weights per inch of width of tire and may also permit the use of corrugations on the periphery of the movable tracks of traction engines or tractors propelled not by wheels resting upon the ground but by flexible bands or chains. Such permits shall be in writing and they may limit the time of use and operation over the particular highways and bridges which may be traversed and may contain such special conditions and provisions and require such undertaking or other security as the said department of engineering shall deem to be necessary to protect the public highways and bridges from injury, or provide indemnity for any injury resulting from such operation. All such special permits shall be carried in the vehicles to which they refer and shall upon demand be open to the inspection of any peace officer, any authorized agent of the department of engineering or of the motor vehicle department, or any officer or employee charged with the care or protection of the public highways. It shall be unlawful for any person to violate, or to cause or permit to be violated, the limitations or conditions of such special permits and any such violation shall be deemed for all purposes to be a violation of the provisions of this act.

(f) Anything to the contrary herein notwithstanding, the state department of engineering may in its discretion limit the maximum load to be carried over or on any public bridge, causeway viaduct, trestle or dam, below the maximum established by law; *provided, however*, that in such event said department of engineering shall cause suitable signs to be erected and maintained, specifying such limitation of load, such signs to be placed at a distance of not less than one hundred feet nor more than one hundred fifty feet from the approaches to such bridge, causeway, viaduct, trestle or dam.

(g) Anything to the contrary in this act notwithstanding, the owner and the operator, driver or mover of any vehicle, object or contrivance over a public highway or bridge, shall be jointly and severally responsible for all damages which said highway or bridge may sustain as the result of so operating or driving or moving such vehicle and the amount of such damages may be recovered in an action at law by the authorities in control of such highway or bridge.

By Mr. Hurley:

On the roll call for final passage of Senate Bill No. 390, I recorded myself as voting for the bill. I did this in order to give notice of reconsideration, but inasmuch as the Chair recognized Mr. Morris first, I was precluded from giving notice, so I desire to state that I am unalterably opposed to Senate Bill No. 390, as it at present reads, and desire the Journal to so show.

EDGAR S. HURLEY

By Mr. Wickham:

I am in sympathy with most of the provisions of Senate Bill No. 390, and have therefor voted for it, but I take this opportunity to express my disapproval of the arbitrary rulings of the Speaker, and also upon the unfair vote of the majority of members in moving the previous question, when several members, including myself, had amendments to offer.

Ventura County Medical Society unanimously and emphatically opposes chiropractic bill—No. 196.

C. A. JENSEN, Secretary

By Mr. Lindley:

We, the undersigned voters in your district, do earnestly beg for your vote of "No" on Assembly Bill No. 347, called the "Sanitary Code," for the licensing and conduct of public laboratories for the diagnosis of disease and the manufacture of biologic preparations. In plain terms, this pernicious measure seeks to found vivisection bells under the patronage, protection and prestige of the State of California—under the sole supervision of the State Board of Health.

We also most earnestly solicit your vote against Assembly Bill No. 114, for the creation of a Bureau of Child Hygiene, "under the State Board of Health" which means that every child in the State will be subject to compulsory inoculation or vaccination.

On the other hand, we ask for your vote of "Yes" on Assembly Bill No. 376, providing that persons desiring to bequeath all their property to humane or charitable organizations shall have the right to do so.

Assembly Bill No. 629—An act to provide for local improvements in or upon streets, lanes, alleys, courts, places, sidewalks and rights of way within or belonging to municipalities, and providing for the issuance and payment of bonds to represent assessments levied for such improvements.

COMMITTEE AMENDMENT.

During second reading of the bill, the following amendment was submitted by the committee:

AMENDMENT NUMBER ONE.

Strike out all of the words in the printed bill after the words "An act" in the title, and insert in lieu thereof the following:

to provide for local improvements in or upon streets, avenues, lanes, alleys, courts, places, public ways, property, or rights of way within or belonging to municipalities, and providing for the issuance and payment of bonds to represent assessments levied for such improvements.

The people of the State of California do enact as follows:

SECTION 1. All streets, avenues, lanes, alleys, places, or courts in the municipalities of this state, now open or dedicated, or which may hereafter be opened or dedicated to public use shall be deemed and be held to be open public streets, lanes, alleys, places, or courts, for the purpose of this act; and the city council of any municipality is hereby empowered to establish and change the grades of said streets, lanes, alleys, places, or courts, and fix the width thereof, and is hereby invested with jurisdiction to order to be done thereon any of the work mentioned in section two of this act, under the proceedings hereinafter described.

The word "street" as used in this act, shall be deemed, and is hereby declared, to include avenues, highways, lanes, alleys, crossings, or intersections, courts and places, which have been dedicated and accepted according to law or in common and undisputed use by the public for a period of not less than five years next preceding, and the term "main street" means such actually opened street or streets as bound a block, and the word "blocks", whether regular or irregular, means such blocks as are bounded by main streets, or partially by a boundary line of the city.

SEC. 2. Whenever the public interest or convenience may require, the city council is hereby authorized and empowered to order the whole or any portion or portions, either in length or width of any one or more of the streets, avenues, lanes, alleys, courts, places, public ways, property, or rights of way, of any such city graded or regraded to the official grade, planked or replanked, paved or repaved, macadamized, or remacadamized, graveled or regraveled, piled or repiled, capped or recapped, oiled or reoiled; and to order the construction or reconstruction therein of sidewalks, crosswalks, culverts, bridges, gutters, curbs, steps, parkings and parkways, sewers, ditches, drains, conduits and channels for sanitary and drainage purposes or either or both thereof, with outlets, cesspools, manholes, catch basins, flush tanks, septic tanks, and other appurtenances, pipes, hydrants and appliances for fire protection, or for the service of water for domestic or sanitary uses, viaducts, conduits and subways, breakwaters, levees, bulkheads and walls of rock or other material; tunnels or subterranean avenues for public travel, poles, posts, wires, pipes, conduits, lamps and other suitable or necessary appliances for the purpose of lighting said streets, avenues, lanes, alleys, courts, places or public ways; the planting of trees thereon, and any work which shall be deemed necessary to improve the whole or any portion of such streets, avenues, sidewalks, lanes, alleys, courts, places, or public ways or property or rights of way, of such city.

The city council may include in one proceeding and order any of the different kinds of work mentioned in this act, and may include such work on any number of streets, property and rights of way, or any portion thereof, contiguous or otherwise, in one proceeding or one contract, or both, and may except therefrom any of said work already done to the official grade, and which may be in good condition and repair.

The term "city council" is hereby declared to include any body or board, which, under the law, is the legislative department of the government of any city.

SEC. 3. Before ordering any work done or improvement made, which is authorized by section two of this act, the city council shall pass a resolution referring the proposed work to the city engineer, if there be one, and, if not, to some civil engineer employed by them for the purpose and named in the resolution, instructing him to make them a report in writing containing his recommendations as to the best method of doing said work or making said improvement, together with the following:

(a) A statement of the nature of the proposed work or improvement, with plans and specifications therefor;

(b) A description of the district or districts which, in his opinion, would be benefited by the proposed work or improvement and should be assessed to pay the cost thereof, excepting and excluding therefrom any lot or portions of said district or districts which would not be benefited by the proposed work. Said district or districts, may be described by the exterior boundaries thereof or by giving the numbers of the lots and blocks, according to the official or recorded map or maps, or by any other method which will clearly indicate the lots and lands intended to be included therein;

(c) An estimate of the cost of said improvement;

(d) The assessed value of all the real property included within said district or districts and proposed to be assessed for the work, exclusive of buildings or other improvements, according to the last equalized assessment roll used for purposes of taxation by said city;

(e) A plat showing said district or districts and the subdivisions of property therein, as shown by the last equalized assessment roll.

The engineer may submit a number of districts, which, according to his estimate, would be benefited in different degrees by the proposed improvement, in which case he shall specify the proportion of benefit which each district would receive. He may also submit alternative plans.

SEC. 4. Upon receipt of the report from the engineer, the city council shall consider and act upon the same, and may adopt the report as submitted or as they may modify the same, provided, they may adopt alternative plans for doing said work or improvement if the same are contained in said report. After adoption the city council shall pass a resolution of intention briefly describing the proposed work or improvement, referring to the plans and specifications therefor, and briefly describing the district or districts which would be benefited by and assessed for the proposed work or improvement and the proportion of benefit said district or districts would derive therefrom. The resolution shall contain a declaration to the effect that serial bonds, bearing interest at a rate therein to be determined, but not to exceed six per cent per annum, will be issued to represent the unpaid assessments. The resolution shall also contain a notice of the day, hour, and place, when and where any persons having any objections to the proposed work or improvement may appear before the city council and show cause, if any they have, why the proposed work or improvement should not be carried out in accordance with said resolution, which time shall not be

less than fifteen nor more than forty days from the day of the passage of said resolution.

The city council may, in its discretion, order, that any part of the cost and expenses of any of the work mentioned in this act be paid out of the treasury of the municipality from such fund as the council may designate, in which case it shall be so stated in the resolution of intention. Whenever a part of such cost and expenses is so ordered to be paid, the superintendent of streets, in making up the assessment heretofore provided for such cost and expenses, shall first deduct from the whole cost and expenses such part thereof as has been so ordered to be paid out of the municipal treasury, and shall assess the remainder of said cost and expenses proportionately upon the lots, and lands liable to be assessed for such work, and in the manner herein-after provided.

Whenever any lot, piece or parcel of land belonging to the United States, or to the State of California, or any lot, piece or parcel of land belonging to any county, city, public agent, mandatory of the government, school board, educational, penal or reform institution, or institution for the feeble minded or the insane, and being in use in the performance of any public function, shall be included within the district or districts declared by the city council in its resolution of intention to be the district or districts to be assessed to pay the cost and expenses thereof, said city council may, in the resolution of intention, declare that said lots, pieces or parcels of land, or any of them, shall be omitted from the assessment thereafter to be made to cover the cost and expenses of said work or improvement, in which case the total cost and expense shall be assessed on the remaining lots and lands in the assessment district or districts, *provided*, that such part of the cost and expense may be paid out of the municipal treasury as hereinbefore provided.

SEC. 5. The council may, in the resolution of intention, by reference to the plans and specifications, or otherwise, fix and establish the grade at which the work is to be done, which grade so fixed and established may be either the first establishment of such grade or the changing of an existing official grade.

In such case the plans adopted for the proposed work shall show the existing official grade, if any, and the grade at which the proposed work is to be done.

In the event the proposed work is to be done at a grade other than an existing official grade, the resolution of intention and the notices of improvement shall recite the fact and refer to the plans and specifications for further particulars as to such proposed grade.

Any property owner whose property is to be assessed to pay the costs and expenses of the proposed improvement, may at the time fixed in the resolution of intention for the hearing of objections to the proposed work or improvement, appear before the city council and make objections to the grade so established or changed in said resolution of intention.

Failure to make such objections shall be deemed to be a waiver of all objections to such grade, and shall operate as a waiver of all claims for damages and shall constitute a bar to any subsequent action looking either to the prevention of the work or the recovery of damages or compensation on account of the performance of the work to such grade.

SEC. 6. The city clerk shall cause said resolution of intention to be published twice in one or more daily or weekly newspapers published and circulated within said city. The street superintendent shall cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than three hundred feet in distance apart, but not less than three in all, notices of the passage of said resolution, briefly describing the district or districts to be benefited and assessed, and containing an announcement that serial bonds bearing interest at a rate not to exceed six per cent per annum, will be issued to represent the unpaid assessments. Said notices shall be headed "notice of improvement", in letters of not less than one inch in length; and shall, in legible characters, state the fact of the passage of the resolution of intention, its date, and briefly, the work or improvement proposed, and shall refer to the resolution of intention for further particulars. Said notices shall also contain a notice of the day, hour, and place fixed for hearing objections as above mentioned.

SEC. 7. The city clerk shall, immediately upon the passage of said resolution of intention, mail, postage prepaid, to each property owner whose property is to be assessed to pay the costs and expenses of said work and improvement, at his last known address as the same appears upon the tax-rolls of said city, or when no address so appears, to the general delivery of the United States post office in said city, a postal card containing a notice which shall be in substantially the following form (filling blanks):

"You are hereby notified that on the _____ day of _____ the city council of the city of _____ California, passed a resolution of intention providing for the improvement of _____ street between _____ street and _____ street. You are hereby referred to the said resolution for further particulars. Property belonging to you is to be assessed for this improvement.

_____ City Clerk".

If any lots or parcels of land in the assessment district or districts be assessed to "unknown owners" on the tax rolls of said city, no postal cards containing such

notice need be mailed to the owners thereof. The city clerk shall, upon the completion of the mailing of said postal cards, file in his office an affidavit setting forth the time and manner of the compliance with this requirement, *provided*, that the failure of the city clerk to mail said cards, or the failure of the property owners to receive the same shall in nowise affect the validity of the proceedings or prevent the city council from acquiring jurisdiction to order the work.

SEC 8. The city council shall cause notice of said work inviting sealed proposals or bids for doing the work and referring to the plans and specifications on file, to be published twice in a daily or weekly newspaper, published and circulated in said city, and provide that the same will be received and opened on the same day, hour, and place fixed for hearing objections as aforementioned. All proposals or bids offered shall be accompanied by a check payable to the city, certified by a responsible bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal. Bids may be submitted upon any or all of the alternative plans, in case alternative plans have been adopted by the council.

SEC 9. At any time not later than the hour set for receiving proposals and hearing objections to the proposed work or improvement, any owner of property liable to be assessed for said work or improvement may make written protests or objections against the work or improvement or against the district or districts, to be assessed, or both, or make any objection of any character to said work. Said objections or protests must be delivered to the clerk of the city council prior to the hour set for the hearing, and no other protests or objections shall be considered by said council.

At the time fixed for said hearing and the opening of bids as aforementioned, the city council shall first cause all the bids received to be publicly opened and publicly declared, after which the same shall be temporarily laid upon the table while the council proceeds to hear and consider objections, if any there be. The council may continue the hearing from time to time and postpone final consideration of the proposals or bids submitted. The decision of the council on all protests or objections shall be final and conclusive; *provided*, that where the council finds that the objections or protests filed have been made by a majority of the property owners of the district, or of all the districts if there be more than one district, and that they are also the owners of more than one-half of the area of the property within the district or districts to be assessed for the proposed work or improvement, no further proceedings shall be taken for a period of six months from the date of the finding of the council as to the sufficiency of the protest.

If no protests or objections in writing have been delivered to the clerk up to the hour set for the hearing, or if protests have been heard and overruled, thereupon the city council shall be deemed to have acquired jurisdiction to order the work and award the contract, and, if alternative plans and specifications have been submitted by the engineer, the council shall select the plans and specifications to be used in the performance of the work or improvement.

Nothing herein contained shall be deemed to prevent the council from sustaining any objection filed, or to abandon the proceedings for the work or improvement prior to the awarding of the contract.

SEC 10. The city council may reject any and all proposals or bids should it deem this for the public good, and also the bid of any party who has been delinquent or unfaithful in any former contract with the municipality, and shall reject all proposals or bids other than the lowest regular proposal or bid of any responsible bidder, and may award the contract for said work or improvement to the lowest responsible bidder on the plans and specifications selected at the prices named in his bid.

No contract shall be awarded on any proceeding, if more than one year has elapsed since the passage of the resolution of intention for such proceeding, but in such case a new proceeding will have to be instituted. If the bids are rejected or no bids received, the city council may within six months thereafter advertise for and receive proposals or bids for the performance of the work as in the first instance, without further proceedings. The checks accompanying the accepted proposals or bids shall be held by the city clerk until the contract for doing said work has been entered into, but if said bidder fails, neglects or refuses to enter into the contract to perform said work or improvement, as hereinafter provided, then the certified check accompanying his bid and the amount therein mentioned shall be forfeited to said city and shall be collected by it and paid into the general fund.

SEC 11. If the original bidder neglects, fails or refuses to enter into the contract within fifteen days after the same has been awarded to him, then the city council, without further proceedings, shall again advertise for proposals or bids, as in the first instance, and award the contract for said work to the lowest regular responsible bidder. Should no bids be received in response to this second call, the council may again advertise for and receive bids under the same proceedings, at any time within six months from the time set for the last reception of bids, and let the contract to the then lowest bidder, and such delay shall in no way affect the validity of any of the proceedings, unless such delay is contrary to the provisions of section ten hereof.

SEC. 12 All contractors shall, at the time of executing any contract for street work, execute a bond to the satisfaction and approval of the superintendent of streets of said city, with two or more sureties, payable to such city, in a sum equal to twenty-five per cent of the contract price, conditioned for the faithful performance of the contract; and the sureties shall justify before any person competent to administer an oath in double the amount mentioned in said bond, over and above all statutory exemptions. Before being entitled to a contract, the bidder to whom the award was made must advance to the superintendent of streets, for payment by him, all incidental expenses already incurred by the city for said work or improvements. In case the work is abandoned by the city before the letting of the contract, the incidental expenses incurred previous to such abandonment shall be paid out of the city treasury.

The term "incidental expenses" as used in this act, shall include the compensation of the city engineer, or street superintendent, for work done by him, also, the cost of printing, advertising, posting and mailing, legal expenses incurred and the compensation of the person appointed by the superintendent of streets to take charge of and superintend or inspect any of the work. All demands for incidental expenses mentioned in this subdivision shall be presented to the street superintendent by itemized bill, duly verified by oath of the demandant.

SEC. 13. Every contractor, person, company, or corporation to whom is awarded any contract under this act, shall, before executing said contract, file with the superintendent of streets a good and sufficient bond, approved by the mayor, or other chief executive, in a sum not less than one-half of the total amount payable by the terms of said contract; such bond shall be executed by the principal and at least two sureties, who shall qualify for double the sum specified in said bond, and said bond shall be made to inure to the benefit of any and all persons, companies, or corporations who perform labor on, or furnish materials to be used in the said work or improvement, and shall provide that if the contractor, person, company, or corporation to whom said contract was awarded fails to pay for any materials so furnished for the said work or improvement, or for any work or labor done thereon of any kind, then the sureties will pay the same, to an amount not exceeding the sum specified in said bond. Any materialman, person, company, or corporation, furnishing materials to be used in the performance of said work specified in said contract, or who performed work or labor upon the said improvement, whose claim has not been paid by the said contractor, company or corporation, to whom the said contract was awarded, may, within sixty days from the time said improvement is completed, file with the superintendent of streets a verified statement of his or its claim, together with a statement that the same, or some part thereof, has not been paid, whereupon the amount of said claim shall be withheld from payment for a period of ninety days or until settled. Within ninety days after the filing of such claim, the person, company, or corporation, filing the same or their assigns must commence an action on said bond for the recovery of the amount due thereon.

SEC. 14 The superintendent of streets is hereby authorized in his official capacity to make all written contracts, and receive all bonds authorized by this act, and to do any other act, either express or implied, that pertains to the street department under this act.

Said contract shall contain an express notice that, in no case, except where it is otherwise provided by law or the city charter will the city or any officer thereof be liable for any portion of the expense or for any delinquency of persons or property assessed.

The superintendent of streets shall fix the time for the commencement of the work, which shall not be more than fifteen days from the date of the contract, and for the completion thereof; and the work shall be prosecuted with diligence from day to day thereafter to completion. He may extend the time so fixed from time to time, under the direction of the city council. All applications for such extensions must be in writing and be filed in his office before the expiration of the original time fixed in the contract, or of the time theretofore granted by extension, as the case may be. The work must be done in accordance with the plans and specifications and under the direction and to the satisfaction of the street superintendent; *provided, however*, the city council may, by resolution provide that the work shall be done under the supervision and to the satisfaction of the city engineer instead of the street superintendent.

Nothing herein contained, will be deemed to prohibit the city council from making payments to the contractor from time to time as the work progresses.

Notwithstanding any other provision herein contained, the city or town may, in its proprietary capacity, put in a sealed bid for doing the proposed work, and if it be the lowest bidder, it shall perform the work under the supervision of the street superintendent or city engineer as the council may direct. In such case all the rights, duties and responsibilities of contractor shall devolve upon the municipality; *provided*, the city shall not be required to furnish any bond. *Provided, further, however*, that in case objections against the municipality doing the work are filed by the owners of a majority of the area of the district or districts to be assessed, within fifteen days after the decision of the council as to the bids, then and in that

case the contract shall be awarded to the next lowest responsible bidder without further proceedings.

SEC. 15. After the contractor has fulfilled his contract to the satisfaction of the street superintendent or city engineer, as the case may be, such officer shall make an assessment on the lots and lands within the district or districts to cover the sum due for the work performed and specified in the contract, including all incidental expenses, excluding therefrom any lot or portion of said district or districts which have heretofore been declared not to be benefited by the work or improvement, which assessments shall be in proportion to the assessed value of all the real property in the district or districts liable to assessment therefor exclusive of improvements, in the proportional amount of benefit which each district will derive from the proposed work, as provided in section three hereof. Such assessment shall be filed by the street superintendent with the tax collector of said city.

Upon satisfactory completion of the work, the street superintendent or city engineer, as the case may be, shall cause a notice of such completion to be published twice in a daily or weekly newspaper published and circulated in said city, notifying all owners of real property within the said district or districts that assessments to pay for the cost of said work and improvement will be due and payable at the office of the tax collector within thirty days from the date of the first publication of said notice, and that unless said assessments are paid on or before said date, (stating the time), serial bonds will be issued to represent such unpaid assessments, as aforesaid in section four hereof.

SEC. 16. Any action to contest the validity of an assessment levied under the provisions of this act, or of any proceeding of the city council, or any act of any municipal officer under the provisions of this act, must be commenced within sixty days after the adoption by the city council of the resolution awarding the contract, or within sixty days after the commission or omission of the act complained of, as the case may be, and any appeal taken from a final judgment in such action shall be perfected within sixty days after the entry thereof.

SEC. 17. After the full expiration of thirty days from the date of the first publication of the notice mentioned in section fifteen hereof, the tax collector shall make and file with the clerk of the city council a complete list of all assessments unpaid, together with an identifying number of each lot and block, according to the engineer's plat, and the assessed value thereof. The city council shall then cause bonds to be issued for the amount of the aggregate of the unpaid assessments.

For the purpose of identification and recordation each proceeding taken under this act shall be given a different identifying number, and the property assessed therefor shall be known as "Local Improvement District No. _____," specifying the number thereof.

The city council shall prescribe the denominations of said bonds, which shall be in convenient amounts not necessarily equal. Said bonds shall be dated the thirty-first day after the first publication of said notice aforementioned.

The city council shall prescribe the form of said bonds, and of the interest coupons attached thereto. Said bonds shall be payable in the following manner:

A part, to be determined by the city council, which shall not be less than one-twentieth part of the whole amount of such indebtedness, shall be payable each and every year, on a day and date, and at a place to be fixed by said council and designated in such bonds, together with the interest on all sums unpaid on such date, until the whole of said indebtedness shall have been paid.

The bonds shall be issued in such denomination as said council may determine, except that no bond shall be of a greater denomination than one thousand dollars, and shall be payable on the day and at the place fixed in such bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of six per centum per annum, and shall be paid semiannually; said bonds shall be signed by the chief executive of the municipality, or by such other officer thereof as the city council shall, by resolution adopted by a two-thirds vote of all its members, authorize and designate for that purpose, and also signed by the treasurer thereof, and shall be countersigned by the city clerk. The interest coupons on said bonds shall be numbered consecutively, and signed by the treasurer of such municipality or by his engraved or lithographed signature. In case any officer whose signature or counter signature appears on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or counter-signature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of the bonds.

SEC. 18. Said bonds shall be conclusive evidence of the validity of all proceedings leading up to their issuance.

They shall be substantially in the following form:

SEC. 19. Said bonds may be surrendered by the holder to the treasurer for registration in accordance with the provisions of any law applicable to the registration of the municipal bonds of the city and thereafter the principal and interest thereon shall be paid to the proper registered owner thereof.

SEC. 20. The city council may issue and sell the bonds of such district, authorized as hereinabove provided, at not less than par value, and all the proceeds of the sale of such bonds shall be placed in the treasury of such municipality to the credit of the proper district fund and shall be applied exclusively to the work or improvement for which the contract was awarded.

If all bids for said bonds are rejected or if no bids are received, the council shall authorize the city treasurer to deliver said bonds to the contractor, in which case such delivery shall constitute full satisfaction of the sum due him on said contract.

The city council shall, at the time of fixing the general tax levy, and in the manner for such general tax levy provided, exclusive, however, of any assessments on improvements, levy and collect an assessment each year on the property in such district or districts sufficient to pay the interest on such bonds for that year, and such portion of the principal thereof as will become due before the time for making the next general tax levy, each annual assessment for the payment of the interest and principal shall be based on the assessed value of each respective parcel or lot, at the time the work or improvement was ordered, and in the degree of benefits received, as shown on the assessment list heretofore mentioned. Said assessments when levied and collected shall be paid into the treasury of said city and be used for the payment of the principal and interest of such bonds and for no other purpose.

SEC. 21. The said assessments shall be payable and become delinquent at the same times and in the same proportionate amounts and bear the same proportionate penalties after delinquency as the general municipal taxes on real property. Upon default in payment, the lands securing such assessments shall be sold in the same manner in which real property in such city is sold, for the nonpayment of general municipal taxes, and be subject to redemption in the same manner as such real property is redeemed from such delinquent sale and upon failure or redemption shall in like manner pass to the purchaser. The city may be the purchaser at any delinquent sale in like manner in which it becomes or may become the purchaser of property sold for nonpayment of the general municipal property tax, and in the event of its so becoming the purchaser shall pay and transfer into said redemption fund the amount, of the delinquent assessments. In cases where the municipal property tax is collected by the county or city and county officials, and sales for nonpayment of such taxes are made to the state, the state shall be the purchaser at any such sale, but shall hold the title acquired at such sale upon behalf of the city and shall account to the city for any moneys received upon redemption or from the sale of such property, the city for such purposes of this act being deemed the real purchaser. In other cases where under the law, the city is not always the purchaser at sales for delinquent municipal taxes,

the city shall become such purchaser at any delinquent sale hereunder where there is no such purchaser; *provided*, that the city council may, in its discretion, order certain lots or lands not to be sold, and order and direct the city attorney to commence an action in the name of the city against the owner or owners of such lots or lands so delinquent, to recover the amount of such delinquent tax, together with the interest thereon, and for costs of suit and a penalty of twenty-five per cent on the amount of such delinquent assessment.

All the owners of property delinquent as aforesaid may be joined as defendants in one action; *provided, however*, the complaint in such case shall set forth the amount due on each lot or parcel of land separately assessed, together with the name of the owner or owners thereof.

SEC. 22. The city council may, at the time of fixing the annual tax rate and levying the taxes to be collected for general municipal purposes, levy a special tax upon the taxable property in the city for the purpose of paying for the lands purchased or to be purchased at such tax sales, but not to exceed ten cents on each one hundred dollars of assessable property. Such special tax shall be in addition to all other taxes levied for municipal purposes, and shall be computed, entered and collected in the same manner, and by the same persons, and at the same time and with the like penalties as other municipal taxes of said city. In the event of a surplus remaining in the redemption fund after payment of all said bonds and the interest thereon, the same shall first be applied to repayment to said city of any special taxes so levied, less its recovery on the lands purchased at delinquent sale, and also of any costs incurred by it hereunder.

SEC. 23. In the event of sale by the tax collector of any lot or parcel of land for nonpayment of any assessment thereon levied pursuant to the provisions of this act, then any certificate of such sale and deed issued pursuant thereto, shall be prima facie evidence of the regularity of all proceedings theretofore had, and such deed shall constitute a conveyance to the grantee of the absolute title to the lots or lands described therein, free of all incumbrances, except the lien for other state, county and municipal taxes.

SEC. 24. After bonds have been issued as herein provided, any interested property owner may release his property and pay up the unpaid assessment against the same by depositing with the city treasurer the total unpaid balance of his assessment due, together with the total amount of the interest which would become due semiannually on his proportion of the assessment, in which case the treasurer shall deposit such payments into the fund provided for the redemption of said bonds, and the city clerk shall record the release of such property on the records of his office.

SEC. 25. The person owing the fee, or the person in whom, on the day the proceeding or action is commenced, appears the legal title to the lots and lands, by deeds duly recorded in the county recorder's office, or the person in possession of the land, lots, or portions of lots or building under claim, or exercising acts of ownership over the same for himself, or as the executor, administrator, or guardian, of the owner, shall be regarded, treated, and deemed to be the "owner" (for the purpose of this act), according to the intent and meaning of that word as used in this act. And in case of property leased, the possession of the tenant or lessee holding and occupying under such persons shall be deemed to be the possession of such owner.

SEC. 26. This act shall be known and may be referred to as the "local improvement act of 1919." It shall in nowise affect any other existing acts relating to street work or local improvements within municipalities, but is intended to and does provide an alternate system of proceedings for public improvements, and it shall be discretionary with the legislative body of any municipality to proceed in making such improvement either under the provisions of this act or under the provisions of other said acts.

AMENDMENT NUMBER ONE.

On page 2 of the printed bill, strike out all of lines 12 to 52, inclusive, and on page 3, lines 1 to 50, inclusive, and insert in lieu thereof, the following

10. For the purpose of sprinkling the roads in any part of the county with oil or water, the board of supervisors may erect and maintain waterworks and oil tanks and reservoirs, and for such purposes may purchase or lease real or personal property. The costs of such waterworks, oil tanks and reservoirs and the sprinkling of said roads with oil or water may be charged to the general county fund, the general road fund, or the district fund of the district or districts benefited.

Whenever it is determined by a four-fifths vote of the board of supervisors of any county that the public convenience and necessity demand the acquisition or construction of a new road in excess of three miles in length or the grading, regrading, paving or macadamizing of any existing road in excess of three miles in length and that the cost of such new road when acquired and constructed, or the cost of grading, regrading, paving or macadamizing such existing road, will be too great to pay out of any of the road funds of the county, the board of supervisors may, by resolution passed by a four-fifths vote of said board, determine to acquire or construct such new road, or grade, or regrade, pave or macadamize such existing road, and if the cost of such new road when constructed, or the cost of grading, regrading, paving or macadamizing such existing road, when completed, shall exceed three thousand dollars, such cost may be charged to the general county fund, the general road fund or the district fund of the district or districts benefited.

11. Whenever it shall be determined that any grading, graveling, macadamizing, ditching, sprinkling, or other work upon highways is necessary, and is to be done, and where the estimated cost of such work amounts to one thousand dollars, the board of supervisors must, by proper order, direct the county surveyor to make definite surveys of the proposed work and to prepare profiles and cross-sections thereof, and to submit the same with the estimate of the amount or amounts of work to be done, and cost thereof, and with specifications thereof. Said report shall be prepared in duplicate, one copy to be filed in the surveyor's office, and the other to be filed with the clerk of the board of supervisors. The board upon receipt of such report must advertise for bids for the performance of the work specified. Such advertisement for bids must be published prior to the day fixed for the opening of bids for at least once a week for a period of two weeks in a newspaper of general circulation printed and published in said county.

Such advertisement shall be in substantially the following form

Office of the clerk of the board of supervisors.
----- county, ----- 19--

Sealed bids will be received by the clerk of the board of supervisors of -----
county, at his office, until ----- o'clock ----- m, ----- 19--
for -----, on -----, in ----- district, in -----
county

Specifications for this work are on file in the office of the said board, to which bidders are hereby referred

-----,
Clerk of the board of supervisors of the county of -----.

Bids must be inclosed in sealed envelope, addressed to the clerk of the board of supervisors, and must be indorsed, "Bids for -----," and must be delivered to said clerk prior to the hour specified in the advertisement. The board shall publicly open and read such bids as may be submitted, and must award the contract for the work to the lowest bidder; unless it shall appear to the board that the bids are too high, and the work can be done more cheaply by day labor, in which case the bids must be rejected, and the work ordered done by the road commissioner, or commissioners, in whose district or districts the work may be situated. In case the work shall be let by contract, monthly or quarterly payments may be made thereon upon the receipt of a certified estimate by the county surveyor of the amount of work done during the preceding month or quarter, to the extent of seventy-five per cent of the value of said work, the remaining twenty-five per cent being due on the completion of the work. Upon the completion of the work, the county surveyor must examine the same, and if completed in accordance with the specifications thereof, he must submit to the board of supervisors a certificate over his signature and official seal to the effect that such work by the contractor therefor, has been completed in accordance with the specifications therefor, and recommending its acceptance. The board shall thereupon audit the same and direct its payment out of the proper fund or funds.

Whenever the estimated cost of such grading, graveling, macadamizing, ditching, sprinkling, or other work exceeds five hundred dollars and is less than one thousand dollars, the board of supervisors must cause the same to be performed by contract awarded to the lowest bidder, in the same manner as where the estimated cost amounts to one thousand dollars, unless such board shall by resolution passed by a four-fifths vote, determine that it is to the public advantage and convenience not to do such work by contract, in which event, such work shall be done by day labor under the supervision of the county surveyor and the supervisors of the district wherein the work is done.

PRESENTATION OF PETITION.

The following petition was presented, and ordered printed in the Journal:

By Mr. Kline:

We, members of the Riverside County Medical Society, are greatly concerned about any attempt to remove the proper restrictions now controlling the practice of the art of healing in our State. Not that it is of so great moment personally, but from time immemorial it has been thought right and proper that high educational and ethical standards should be maintained by those attempting to heal the sick, and no one be allowed to exploit their misery commercially. We ask you to earnestly consider the welfare of the ailing of our State, and oppose by every means the passage of Assembly Bill No. 196, which would place California laws below those of the twelfth century in this particular.

WHEREAS, The Fish and Game Commission of this State, and its several members, officers and assistants, are, by virtue of the very large power and authority given to them by law, in a position to exert great influence for or against legislation pending before this Assembly, and

WHEREAS, It is said that certain of said officers and members in fact sought to influence pending legislation; and

WHEREAS, Said Fish and Game Commission and certain of its members, assistants and employees have been derelict in the performance of the duties imposed upon them by law; now, therefore, be it

Resolved, That the Committee on Efficiency and Economy of this Assembly be and it is hereby, directed to make an immediate and thorough investigation of the following specific matters

1. To ascertain what, if any, fishing clubs, gun clubs and private game preserves, any of the said commissioners, or the officers, assistants or employees of said Fish and Game Commission, are affiliated with; and whether or not any of said officers, assistants or employees have been, by reason of such affiliation, perniciously active in supporting or opposing any legislation now pending before this Assembly, and whether or not they have shown any favoritism, in any manner, towards any gun or fishing club members, and whether or not they have, by reason of their said membership, sought to set up and perpetuate in this State, against the interests and wishes of the common people, the European system of a monopoly in the control and use of wild fish and game, which is peculiarly the property of all the people

2. Why it is that within the past nine years said commission has, without any satisfactory explanation, dismissed three certain executive officers of said commission, each of whom was reputed to be a faithful and efficient public servant

3. How much of the time of the present attorney of said commission is devoted to the duties of his State office, and how much of it is devoted to his own private law practice; the latter of which is said to be very large and lucrative.

4. Why said commission collected from the people of the State, during the four years ending June 30, 1918, the enormous sum of \$887,409 27, of which the sum of \$708,310 75 was expended; whether or not said sum so spent was not unwisely and extravagantly used. Also recommend some legislation that will reduce the amount of money collected by said commission at least \$30,000 per annum. Also to ascertain if it is not advisable that the expenditure of such a large fund should be made by the governing body of the State, upon appropriations, instead of by said commission, as is now done, without any control of the Legislature whatever.

5. Why it is that for the two years ending June 30, 1918, the police work of the commission fell off about 15 per cent over the preceding two years (see last report to Governor, page 88), notwithstanding said commission is charged with the enforcement of laws for the preservation of fish and game, and notwithstanding more people hunted and fished during said period ending June 30, 1918, than before; and notwithstanding reports of frequent and flagrant violations of the fish and game laws were reported in the press and otherwise throughout the State.

6. Why said commission expended the enormous sum of \$68,272.21 to establish and a large sum since for additions to a trout hatchery in Inyo County, for the purpose, as avowed by the said commission, of stocking the streams of southern California and the western slope of the southern Sierra Nevada, when it was obvious to any person that said location could not be a success for the following reasons:

(a) That there were no waters nearby needing to be stocked

(b) That it was impossible to obtain a sufficient supply of trout eggs in that vicinity for hatching purposes.

(c) The great distance the hatchery product must be transported at heavy expense.

(d) The hatchery product must be transported through the heat of the Mojave desert before they reach the waters intended to be stocked.

7. To ascertain the cost of maintenance and operation of said hatchery in Inyo County, and whether the said cost is not extravagantly expensive and out of all proportion to the benefit derived by the people of the State, and likely to be a growing burden and expense, also the person from whom the ground was purchased and the then owners of adjacent property and the price paid therefor.

8. To ascertain whether or not the commission is making any intelligent and sufficient effort to obtain accurate first-hand information relative to the present status and condition of the game and fish of the State, and whether or not by reason of failure to procure such information many species of game and fish have reached the point of actual extinction, with others in the same dangerous stage of diminution, before proper conservation measures can be proposed to this Assembly.

9. Why said commission has permitted the Truckee River, one of the most beautiful streams in the world, and a famous fishing ground, to remain polluted for years by the waste products from a paper mill located at Floriston, California, notwithstanding popular complaint and objection by the citizens, not only of our own State, but also by the people of our sister state, Nevada, whose principal city obtains its domestic water supply from said river, and notwithstanding said commission is required by

law, and clothed with all lawful authority, to prevent the pollution of streams. Why it is that in the face of the law said commission has deliberately and wilfully failed and refused to do its plain duty, thereby constituting a clear and flagrant malfeasance in office, and one that should be severely dealt with by the proper authorities.

10. Why it is that the ocean waters of San Luis Obispo County and the waters of San Pablo and San Francisco bays, and other navigable fishing waters in the State, have been for years, and are now, being polluted with crude petroleum, oil refinery refuse and other substances deleterious to fish life, in violation of law; notwithstanding it is the duty of the Fish and Game Commission strictly and impartially to enforce the law against such pollution.

11. To ascertain whether or not, throughout the State, in irrigated districts, many canals and irrigating ditches are diverting water from streams that contain fish, without using screens to prevent the loss of fish; and thereby millions of trout, bass and other valuable food and game fishes are annually killed and wasted.

12. To ascertain to what extent dams and other artificial obstructions are being suffered by the said commission to be maintained in the streams of the State without proper fish ladders, and whether or not by such neglect and dereliction of duty on the part of said commission, millions of trout, and other migratory fish, are prevented from reaching proper "spawning beds," with a resultant loss of a great quantity of fish spawn and fish.

13. To ascertain if it is not true that the Fish and Game Commission has failed and neglected to take advantage of that provision in the law authorizing the creation of game refuges on private land holdings, resulting in game, in many sections where hunting is intensive, failing to receive proper and adequate protection.

14. Why said commission has discontinued a branch office established at the request of the people of the San Joaquin Valley, thus making less effective the supervision of police and other conservation activities in that important and developing region, and thereby, and through other activities, having lost to the State the services of one of the most efficient and conscientious fish and game conservationists in the country.

15. To ascertain if it is not true that said commission has wasted large sums of the people's money in unscientific and impractical experiments at its game farm at Hayward, California, and has finally abandoned said farm.

16. To ascertain if it is not true that the distribution of fish, as carried on by said commission, is unscientific, unduly expensive and results in the destruction each year of a large proportion of the fish so distributed.

17. To ascertain if it is not true that because said commission has failed to investigate and prevent enormous losses occurring among the millions of young salmon propagated and distributed each year after they leave the hatcheries, the salmon fisheries of the Sacramento and San Joaquin rivers are not being kept in a healthful and thriving condition.

18. To ascertain to what extent, if any, said commission has, within the past eight years been governed by political, personal and other insufficient and improper motives, in its acts in the following particulars:

(a) The dismissal of trained and efficient employees.

(b) The employment, promotion and otherwise rewarding of assistants and employees not deserving of such consideration.

(c) The failure to promote certain assistants deserving promotion.

And whether it is not true that by reason of said acts the entire department is demoralized and functioning very inefficiently and at an expense out of all proportion to the results obtained.

19. To ascertain if it is not true that the force of wardens in the field, where the fish and game are to be found and where constructive work can only be done, is inadequate; while the "overhead" has been constantly increased by adding to it expensive and unproductive clerical workers; be it further

Resolved, That said committee report to this Assembly within a short time, the result of its investigation, with such recommendations as it may deem advisable; be it further

Resolved, That said committee be, and it is, hereby authorized and empowered to compel the attendance of witnesses at its several sessions, by subpoenas, to be served by the clerk of said committee; and that the chairman and vice chairman of said committee be and they are each of them authorized to administer oaths to witnesses; and any witness refusing to answer questions is hereby declared to be in contempt, and may be punished as for contempt.

Said committee is empowered to employ all needed clerical and expert assistance to carry on said investigation, and all costs and expenses of such investigation shall be paid out of the Contingent Expense Fund of this Assembly, not exceeding fifteen hundred dollars.
